Corequisites

Co-badged status

Unit description
This unit provides students with opportunities to extend their understanding of appropriate responses to the diverse needs of young children in early childhood practice. Students will be able to integrate their knowledge of child developmental processes and early childhood curriculum into a framework focusing on the developmental, interactive and educational needs of young children who experience disability or difference. Both theory and research-based practice will be explored, as well the needs of families and how these intersect through social policy, service provision, early intervention and inclusive education.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/
Learning Outcomes

1. On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
2. Link principles of child development to the rationale for early intervention
3. Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
4. Be able to identify the essential roles of the family in setting priorities for and implementing early intervention for children who experience disability or difference
5. Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
6. Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
7. Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assignment 1

Due: **30th August**
Weighting: **25%**

Completion of the first two sections of the individual student project.

This Assessment Task relates to the following Learning Outcomes:

- On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
• Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assignment 3
Due: 25th/26th Oct and 1st Nov
Weighting: 20%

Completion of the final component of the student project including leading a seminar discussion and completing a teacher handout.

This Assessment Task relates to the following Learning Outcomes:
• On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
• Link principles of child development to the rationale for early intervention
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time

Assignment 4
Due: Weekly until 8th November
Weighting: 20%

Weekly blog posts and peer discussion throughout the semester

This Assessment Task relates to the following Learning Outcomes:
• On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
• Link principles of child development to the rationale for early intervention
• Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
• Be able to identify the essential roles of the family in setting priorities for and implementing early intervention for children who experience disability or difference
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
• Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assignment 2
Due: 27th September
Weighting: 35%
Completion of Part B of the individual student project incorporating analysis of research literature and application to the early childhood context.

This Assessment Task relates to the following Learning Outcomes:
• On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
• Link principles of child development to the rationale for early intervention
• Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
• Be able to identify the essential roles of the family in setting priorities for and implementing early intervention for children who experience disability or difference
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
• Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Delivery and Resources
The unit is delivered through a combination of lectures, seminars/on campus sessions, required and recommended readings and the online website. More detailed information regarding the unit content and requirements is provided through the unit website. It is essential that each student carefully reads the information
Unit guide ECED830 Early Intervention: Theory and Practice

provided in the unit website at the start of the semester and adheres to all unit requirements as detailed in the unit website.

Due to the requirement to use the online website, students will need to have computer and internet access to complete the unit.

Attendance at seminars/on campus sessions and lecture listening is a compulsory requirement of the unit.

To pass the unit all assessment pieces must be completed and submitted.

The required unit readings are available through e-reserve. A list of additional recommended readings are also provided in the unit website.

The unit website is available at ilearn.mq.edu.au. You are required to check this website at least once per week.

The workload for the unit requires 12 hours of compulsory study per week (180 hours per semester), including careful reading of the online unit information, weekly lecture listening, seminar (internal) or on campus session (external) attendance, unit readings and completion and submission of all assessment tasks.

Student feedback is valued and encouraged in this unit and informs yearly revisions to the unit.

Unit Schedule

Weekly Lectures: Thursdays (available online)

Internal students: Weekly Seminars (see the university timetable for tutorial times and locations)

External students: Two compulsory on campus sessions (see the online handbook and university timetable for details)

Weekly Readings: See the unit website and e-reserve for weekly required and recommended readings

Weekly blog posts: Please see the unit website for more information

Assessment tasks: Please see details of the assessment tasks in the unit website
Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy  http://www.mq.edu.au/policy/docs/academic_honesty/policy.html
Special Consideration Policy  http://www.mq.edu.au/policy/docs/special_consideration/policy.html

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Support

Macquarie University provides a range of Academic Student Support Services. Details of these services can be accessed at:  http://students.mq.edu.au/support/

UniWISE provides:

- Online learning resources and academic skills workshops  http://www.students.mq.edu.au/support/learning_skills/
- Personal assistance with your learning & study related questions.
- The Learning Help Desk is located in the Library foyer (level 2).
- Online and on-campus orientation events run by Mentors@Macquarie.

Student Enquiry Service

Details of these services can be accessed at  http://www.student.mq.edu.au/ses/.

Equity Support

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help

If you wish to receive IT help, we would be glad to assist you at  http://informatics.mq.edu.au/help/.

When using the university’s IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students and it outlines what can be done.
Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

• On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
• Link principles of child development to the rationale for early intervention
• Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
• Be able to identify the essential roles of the family in setting priorities for and implementing early intervention for children who experience disability or difference
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
• Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assessment tasks

• Assignment 4
• Assignment 2

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:
Learning outcomes

- On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
- Link principles of child development to the rationale for early intervention
- Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
- Be able to identify the essential roles of the family in setting priorities for and implementing early intervention for children who experience disability or difference
- Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
- Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
- Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assessment tasks

- Assignment 1
- Assignment 3
- Assignment 4
- Assignment 2

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcome

- Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings

Assessment tasks

- Assignment 1
- Assignment 3
PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcome**

- Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time

**Assessment tasks**

- Assignment 1
- Assignment 3
- Assignment 2

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues

This graduate capability is supported by:

**Learning outcomes**

- On successful completion of this unit, students will be expected to: Have become familiar with the issues of individual rights and equity of access to education for children who experience disability
- Have a developing understanding of concepts of disability and impairment and the impact these can have on the lives of children and families
- Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
Assessment tasks

• Assignment 3
• Assignment 4
• Assignment 2

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

• Link principles of child development to the rationale for early intervention
• Have become familiar with appropriate terminology required for sharing information with peers and other professionals and for supporting inclusive early childhood settings
• Have developed the ability to research and critically review a range of sources of information in order to maintain up to date and appropriate practice as the field changes and progresses over time
• Have developed a clear understanding of inclusion and the role of the early childhood teacher in facilitating inclusive early childhood education.

Assessment tasks

• Assignment 1
• Assignment 3
• Assignment 4
• Assignment 2
