Unit description
This unit is based on the concept of an internship as a bridge between university life and a career as an early childhood teacher. It is designed to develop independent graduates who become confident and competent professional decision makers. Students have the opportunity to develop skills in working with children and their families by taking substantive professional responsibility in an early childhood centre or a school classroom. Students are required to attend the internship site for 30 days and work closely with a professional mentor. Critical and analytical thinking and self-evaluation are key components of this unit.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Refine your teaching practices as an early childhood teacher,
2. Take substantial responsibility for your own learning
3. Develop confidence in justifying your professional decision-making
4. Demonstrate a depth of knowledge about a selected aspect of early childhood practice
### Assessment Tasks

#### Professional experience

**Due:** **28th October**  
**Weighting:** **0%**

Students must successfully complete 30 days of internship teaching in a childcare centre, preschool or primary school. They are supported in this endeavour by a mentor teacher.

This Assessment Task relates to the following Learning Outcomes:
- Refine your teaching practices as an early childhood teacher,
- Take substantial responsibility for your own learning
- Develop confidence in justifying your professional decision-making

#### Professional portfolio

**Due:** **11 November**  
**Weighting:** **70%**

The portfolio of professional practice will focus on the question: "What does being a teacher mean to me?" It will contain evidence of the student’s practical work during the internship, along with reflections and self-evaluation of professional growth. The development of the portfolio is supported by feedback to regular work-in-progress reports throughout the semester.

This Assessment Task relates to the following Learning Outcomes:
- Refine your teaching practices as an early childhood teacher,
- Take substantial responsibility for your own learning
- Develop confidence in justifying your professional decision-making
- Demonstrate a depth of knowledge about a selected aspect of early childhood practice
Professional Research Project
Due: 11 November
Weighting: 30%

This project enables students to engage in purposeful inquiry into an aspect of their professional practice with children, families and/or staff. The focus of the project is an in-depth exploration of an issue that concerns the student’s practice while completing the internship. The project requires students to identify ways to deal with the problem, trial these ideas and evaluate their effectiveness.

This Assessment Task relates to the following Learning Outcomes:
- Refine your teaching practices as an early childhood teacher,
- Take substantial responsibility for your own learning
- Develop confidence in justifying your professional decision-making
- Demonstrate a depth of knowledge about a selected aspect of early childhood practice

Delivery and Resources
Technology used and required
Access to ilearn is required

Classes
Two Saturday on-campus sessions will be held

What has changed?
There have been no changes since the previous offering of this unit.

Unit Schedule

Policies and Procedures
Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://www.mq.edu.au/policy/docs/academic_honesty/policy.html
We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.
This graduate capability is supported by:

**Learning outcome**

- Refine your teaching practices as an early childhood teacher,

**Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

**Learning outcome**

- Demonstrate a depth of knowledge about a selected aspect of early childhood practice

**Critical, Analytical and Integrative Thinking**

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

**Learning outcome**

- Take substantial responsibility for your own learning

**Problem Solving and Research Capability**

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

**Learning outcome**

- Take substantial responsibility for your own learning
Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

**Learning outcome**

- Refine your teaching practices as an early childhood teacher,

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

**Learning outcome**

- Develop confidence in justifying your professional decision-making
