In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

### **Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student\_conduct/

### Academic Honesty

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- · academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at http://www.mq.edu.au/policy/docs/academic\_honesty/policy.html

### Grades

Macquarie University uses the following grades in coursework units of study:

# **Graduate Capabilities**

# Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

#### Learning outcomes

- Develop personal financial goals as appropriate to anticipated life stages
- · Construct and maintain a working budget using appropriate financial tools
- · Recognize the features and implications of common financial contracts

### Assessment tasks

- Case Study
- Assignments

### Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary

solutions to problems.

This graduate capability is supported by:

#### Learning outcomes

- · Develop personal financial goals as appropriate to anticipated life stages
- · Construct and maintain a working budget using appropriate financial tools
- Select appropriate investment instruments to support budget results and achieve financial goals
- · Recognize the features and implications of common financial contracts

#### Assessment tasks

- Case Study
- Assignments

### Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

#### Learning outcomes

- Select appropriate investment instruments to support budget results and achieve financial goals
- · Compare and contrast different "employment" structures

#### Assessment tasks

- · Case Study
- Assignments

### Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

### Learning outcomes

- Develop personal financial goals as appropriate to anticipated life stages
- · Construct and maintain a working budget using appropriate financial tools
- Select appropriate investment instruments to support budget results and achieve financial goals

#### **Assessment tasks**

- Assignments
- Quizzes

# **Research and Practice**

This unit uses research from external sources.

This unit gives you practice in applying research findings in your assignments.
