### General Information

**Unit convenor and teaching staff**

**Kenneth Beath**  
*ken.beath@mq.edu.au*  
Contact via ken.beath@mq.edu.au  
E4A 507  
Friday 2-4

**Thomas Fung**  
*thomas.fung@mq.edu.au*  
Contact via thomas.fung@mq.edu.au  
E4A 530  
Monday 2 - 4 pm

**Gillian Heller**  
*gillian.heller@mq.edu.au*  
Contact via gillian.heller@mq.edu.au  
E4A 533  
Thursday 12-2 pm

**Unit Convenor**  
**Jun Ma**  
*jun.ma@mq.edu.au*  
Contact via jun.ma@mq.edu.au  
E4A511  
TBA

**Maurizio Manuguerra**  
*maurizio.manuguerra@mq.edu.au*  
Contact via maurizio.manuguerra@mq.edu.au  
E4A 452  
TBA

**Barry Quinn**  
*barry.quinn@mq.edu.au*  
Contact via barry.quinn@mq.edu.au  
E4A535  
Tuesday 5-6, Thursday 2-3

**Credit points**  
4
Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Obtain a broad view of some research activities in various fields of statistics
2. Read and discuss research papers in statistics
3. Look for research papers using google or other search engines
4. Understand the general structure of research papers
5. Write research papers

Assessment Tasks

Topic 1

Due: Mar 11th
Weighting: 15%

This topic will be on "Statistical modelling and model selection". Each topic will be assessed by the lecturer of that topic. Each topic weights 15% towards the final assessment. Topic assessment is based on presentation (13%) and participation (2%). Three core criteria will be used to assess students’ work:

1. Knowledge Development: Understanding of key ideas and concepts.
2. Application: Ability to apply statistical concepts to actual problems.
3. Presentation: The extent to which work has been written and/or presented in a manner consistent with accepted academic standards.

Performance in relation to each of these criteria will be assessed against established standards.

This Assessment Task relates to the following Learning Outcomes:
- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

Topic 2

Due: Mar 25th
Weighting: 15%

This topic will be on "Computational statistics, including EM, mixture distribution, LASSO". For assessment see topic 1

This Assessment Task relates to the following Learning Outcomes:
- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

Topic 3

Due: April 8th
Weighting: 15%

This topic will be on "Point processes, including homogeneous and non-homogeneous Poisson processes and applications". For assessment see topic 1
This Assessment Task relates to the following Learning Outcomes:

- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

**Topic 4**
Due: **May 6th**
Weighting: **15%**

This topic will be on "Statistical models in finance, including ARCH & GARCH models". For assessment see topic 1

This Assessment Task relates to the following Learning Outcomes:

- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

**Topic 5**
Due: **June 6th**
Weighting: **15%**

This topic will be on "Bio- and medical statistics, including Cox model, censorings, recurrent events, multi-states". For assessment see topic 1

This Assessment Task relates to the following Learning Outcomes:

- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

**Topic 6**
Due: **May 20th**
Weighting: **15%**

This topic will be on "Time series and related CLT". For assessment see topic 1
This Assessment Task relates to the following Learning Outcomes:

- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Understand the general structure of research papers

**Statistics department seminar**

**Due:** TBA  
**Weighting:** 10%

Students are required to attend the research seminars of Statistics Department. Their attendance and performance (asking questions and participation in discussions) will be used for this assessment.

This Assessment Task relates to the following Learning Outcomes:

- Obtain a broad view of some research activities in various fields of statistics
- Read and discuss research papers in statistics
- Look for research papers using google or other search engines
- Write research papers

**Delivery and Resources**

**Lectures**

Lectures begin in Week 1. Students should attend one 3-hour session per week. Papers and reading materials for each topic will be made available via iLearn. Students should read these materials prior to the lectures.

Each topic will last for two weeks. In the first week, the lecturer will give a brief introduction to the materials covered in that topic and introduce students to the papers that will be discussed. Each student will be given three papers to read. However, each student will be required to present one paper in the class in the second week. Students are encouraged to participate in presentations, i.e. ask questions and involve in discussions.

**Department research seminars**

Students are also required to attend the research seminars of Statistics Department.

**Changes from previous offerings**

None

**Technologies used and required**

http://unitguides.mq.edu.au/unit_offerings/13303/unit_guide/print
**Unit Schedule**

**Policies and Procedures**

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

### Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

### Student Enquiry Service

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://ask.mq.edu.au)

### Equity Support

Students with a disability are encouraged to contact the [Disability Service](http://students.mq.edu.au/disability) who can provide appropriate help with any issues that arise during their studies.

### IT Help

When using the University’s IT, you must adhere to the [Acceptable Use Policy](http://informatics.mq.edu.au/help/). The policy applies to all who connect to the MQ network including students.
