Unit description

This unit provides an introduction to an evidence-based approach to neuropsychological assessment and familiarises you with the Wechsler scales that are commonly used in advanced neuropsychological practice. Detailed theoretical and clinical information is provided, as well as training in the administration and scoring of selected instruments. Tests covered include those typically employed to assess intellectual function and memory, and both adult and child assessment techniques are addressed. You will be introduced to the Advanced Clinical Solutions that include tests of premorbid function, performance validity, reliable change and demographic adjustment that advance the use and interpretation of clinical assessment. To support the first supervised clinical placement, a structure for clinical interviewing and history taking is introduced; counselling and assessment skills are presented to use to support distressed and to assess suicidal clients.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Administer, score, and interpret results on a variety of neuropsychological tests, taking into account base rates and evaluating knowledge of diversity issues in clinical interpretation. (Capability 2: Clinical Practitioner)

ULO2: Appraise an evidence-based framework for judging the quality of psychometric measures, and evaluate and support flexible hypothesis testing in neuropsychological

assessment. (Capability 1: Scientist and Scholar)

ULO3: Interpret and judge suicidal ideation and evaluate risk assessments (Capability 4: Professional)

General Assessment Information

Grade descriptors and other information concerning grading are contained in the [Macquarie University Assessment Policy](#).

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the [Assessment Procedure](#) (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For example:

Number of days (hours) late	Total Possible Marks	Deduction	Raw mark	Final mark
1 day (1-24 hours)	100	5	75	70
2 days (24-48 hours)	100	10	75	65
3 days (48-72 hours)	100	15	75	60
7 days (144-168 hours)	100	35	75	40
>7 days (>168 hours)	100	-	75	0

Late submission of time sensitive tasks, such as timetabled tests/exams, scheduled performance assessments/presentations, scheduled practical assessments/labs, will be addressed by the unit convenor in a Special consideration application.

Special Consideration

If you are unable to complete an assessment task on or by the specified date due circumstances that are unexpected, unavoidable, significantly disruptive and beyond your control, you may apply for special consideration in accordance with the [special consideration policy](#). Applications for special consideration must be supported by appropriate evidence and submitted via ask.mq.edu.au.

Indicative Time on Task ²: 5 hours

Due: **07/04/2024**

Weighting: **10%**

Students will complete 6- 7 short answer and 3- 4 multiple choice questions online. No time limit to complete. Test is open for 1 week.

On successful completion you will be able to:

- Interpret and judge suicidal ideation and evaluate risk assessments (Capability 4: Professional)

WMS-IV Pass out Examination

Assessment Type ¹: Clinical performance evaluation

Indicative Time on Task ²: 10 hours

Due: **Week 8**

Weighting: **0%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

The pass-out examination involves the student administering the WMS-IV to an examiner who will assess their competency in test administration

On successful completion you will be able to:

- Administer, score, and interpret results on a variety of neuropsychological tests, taking into account base rates and evaluating knowledge of diversity issues in clinical interpretation. (Capability 2: Clinical Practitioner)

WISC-V Pass out Examination

Assessment Type ¹: Clinical performance evaluation

Indicative Time on Task ²: 12 hours

Due: **Week 12**

Weighting: **0%**

This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)

The pass-out examination involves the student administering the WISC-V to an examiner who will assess their competency in test administration

On successful completion you will be able to:

- Administer, score, and interpret results on a variety of neuropsychological tests, taking into account base rates and evaluating knowledge of diversity issues in clinical interpretation. (Capability 2: Clinical Practitioner)

Report using ACS Software

Assessment Type ¹: Report

Indicative Time on Task ²: 5 hours

Due: **27/05/2024**

Weighting: **30%**

Students will generate four reports using the Advanced Clinical Solutions (ACS) software.

On successful completion you will be able to:

- Administer, score, and interpret results on a variety of neuropsychological tests, taking into account base rates and evaluating knowledge of diversity issues in clinical interpretation. (Capability 2: Clinical Practitioner)
- Appraise an evidence-based framework for judging the quality of psychometric measures, and evaluate and support flexible hypothesis testing in neuropsychological assessment. (Capability 1: Scientist and Scholar)

Ethics Assignment

Assessment Type ¹: Essay

Indicative Time on Task ²: 12 hours

Due: **09/06/2024**

Weighting: **15%**

This is a 1000-word written assignment based on the Ethics Workshop

On successful completion you will be able to:

- Interpret and judge suicidal ideation and evaluate risk assessments (Capability 4: Professional)

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

As a student enrolled in this unit, you will engage in a range of online and face-to-face learning activities, including lectures and readings. Details can be found on the iLearn site for this unit.

Recommended readings are provided during lectures.

Technology Used

Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Inclusion and Diversity

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit

from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

Professionalism

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability embedded in all our courses.

As part of developing professionalism, students are expected to attend all small group interactive sessions including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
