## 5Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course.

Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling.

### Ready to Learn

Weekly activities and major Assignment - both require students to engage in personal reflection, as well as engaging with a range of resources that will challenge existing bias, and promote new understandings.

### Research Engaged.

Weekly activities and Major Assignment - both require application of analytical skills relevant to classroom research which TES can use on PEx and graduates will use in the future e.g.

understanding how and where to gather appropriate information and resources for their practise; understanding students' phonemic awareness skills; applying knowledge of evidence based best practise to inform their classroom planning and facilitation.

### **Responsive**

Engaging, reflecting and responding to resources relating to personal experiences, the formal existing structures and systems of education, and student imagined future practise as educators and emerging scholars. This is enacted through peer engagement and activities within tutorial activities and both major assessment tasks.

### **Reflexive**

Self-exploration is a core part of this unit, as students engage with and respond to historical and present day policies and practise.

### **Resilience**

Developing a historically informed, evidence based understanding of best practise for educational settings as applicable to both Indigenous and non-Indigenous students.
