Unit description

This unit examines the complexities of planning, development and place-making in the public domain. The unit considers both theoretical and practical perspectives with a focus upon the foundation elements of planning frameworks including stakeholders and participation, governance and assessment, planning principles and professional planning ethics. This unit relates theory to practice, paying particular attention to what it means to plan in the public interest in the 21st century, generating professional practice skills for students.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the basis for the theory and practice of planning and place-making processes

ULO2: Describe the role of planners and stakeholders in the development of plans and planning principles at different levels of governance

ULO3: Interpret plans and policies to identify and critically evaluate planning and design

issues

ULO4: Understand planning principles and their role in planning practice

ULO5: Prepare clear well-structured reports addressing planning issues which are suitable for a variety of audiences.

ULO6: Recognise the operation of values and ethical issues in planning processes

General Assessment Information

Where can you find out more detailed information about assignments?

Please consult the folder in the GEOP8075 iLearn page labelled 'Assessment'. Here you will find more detailed instructions for each assessment item, marking criteria and rubrics. The assessment folder contains links to useful resources and guides. You are encouraged to post questions about assignments in the General Discussion Forum on the main iLearn page.

Quiz

A quiz will be given in **Week 10**. The quiz will be a mix of multiple choice, or true/false type questions, and short format answers. Please be aware that the **quiz is a time sensitive task that will be available for a limited amount of time** on iLearn. No late submissions or time extensions will be accepted for the quiz unless you have an approved special consideration request.

Group task - Putting planning principles into practice

This assignment is a mixture of group and individual assessment. For students attending the on-campus workshop, there is class-time dedicated to this task so that your group has an opportunity to work together on the assignment. For students attending in online-flexible mode, you will be introduced to your group by week 2 and you will collaborate online to complete the task. Please note that 50% of the mark for the 'putting planning principles into practice task' is individually assessed. The individual component of the task requires you to submit a 800-word summary of three readings that you have individually selected and analysed for the group project - this should be written in your own words and reflect your unique contribution to the development of the planning principles. You will be required to submit your written summary to Turnitin in iLearn by 1pm on Tuesday 2 April.

The remaining 50% of the group project mark will be based on the quality of the group project and the presentation of your planning principles. The group projects must be ready to present in class in **Week 7**. Students enrolled for in person attendance will present in class, while students enrolled in online-flexible will submit a Zoom recording of their presentation by the beginning of the timetable class.

Submitting your assignments

Unless otherwise specified, you are required to submit your assignments by the time and date provided in this Unit Guide via the Turnitin link provided in iLearn. Please keep an electronic

copy of your assignment and a record of your submission for reference.

Late assessment penalty

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Assessment marks and feedback

Individual marks and feedback to students will be provided via Turnitin. Feedback will include the rubric, intext comments and general feedback. You are encouraged to utilise these resources to develop your skills in subsequent assessments.

Assessment Tasks

Name	Weighting	Hurdle	Due
Putting planning principles into practice	40%	No	02/04/2024
Quiz/test	10%	No	05/05/2024-12/05/2024
Analysis of a planning project	50%	No	28/05/24

Putting planning principles into practice

Assessment Type ¹: Presentation

Indicative Time on Task ²: 30 hours

Due: **02/04/2024**

Weighting: **40%**

Working in small groups, students will prepare a set of principles guiding planning public spaces. The group presentation will outline key definitions, the principles and stakeholders and be of a professional quality. The individual component of the task is a 800 word summary of research used to develop the planning principles.

On successful completion you will be able to:

- Describe the role of planners and stakeholders in the development of plans and planning principles at different levels of governance
- Understand planning principles and their role in planning practice
- Prepare clear well-structured reports addressing planning issues which are suitable for a variety of audiences.
- Recognise the operation of values and ethical issues in planning processes

Quiz/test

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 10 hours

Due: **05/05/2024-12/05/2024**

Weighting: **10%**

Quizzes will be used to test the development of knowledge and vocabulary of planning processes.

On successful completion you will be able to:

- Explain the basis for the theory and practice of planning and place-making processes
- Describe the role of planners and stakeholders in the development of plans and planning principles at different levels of governance
- Interpret plans and policies to identify and critically evaluate planning and design issues
- Recognise the operation of values and ethical issues in planning processes

Analysis of a planning project

Assessment Type ¹: Report

Indicative Time on Task ²: 45 hours

Due: **28/05/24**

Weighting: **50%**

Students will undertake a comprehensive analysis of a contemporary planning project and prepare a 2000 word report outlining the planning context, key issues identified and recommendations.

On successful completion you will be able to:

- Explain the basis for the theory and practice of planning and place-making processes

- Interpret plans and policies to identify and critically evaluate planning and design issues
 - Prepare clear well-structured reports addressing planning issues which are suitable for a variety of audiences.
 - Recognise the operation of values and ethical issues in planning processes
-

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

GEOP8075 is available as in person/ on-campus (internal) or online-flexible (external) offerings depending on the stream you have enrolled in.

For on-campus students the unit is delivered as a postgraduate seminar/workshop. Unless advised otherwise, the first hour of class will be delivered as a pre-recorded Echo360 lecture in iLearn. You are required to listen to the lecture before attending class each week. For the second part of the seminar you should attend the workshop in the timetabled room - details will be provided on iLearn. The classes comprise a mix of structured activities, small group work, guest presentations and discussion of the weekly readings. Class time has also been set aside for assignment preparation, individually and in groups.

Online flexible (external) students will have the prerecorded lecture (available by the timetabled class) and resources and activities available each week on iLearn under the label "Online-flexible option". These activities are self directed and it is up to individual students to manage their time to undertake the work.

Unit readings can be accessed via Leganto. The Leganto link is located in the top right panel of the GEOP8075 iLearn main page. Please contact Linda if you are having trouble accessing the readings as they are essential to your assignments and to the class discussions.

The GEOP8075 iLearn page contains additional resources in the 'Assessment' folder and under the weekly topic headings. Please make sure that you regularly check the iLearn page and your Macquarie University student email for updates and information regarding this unit.
