Unit description

This unit further develops macroeconomic models with a focus on key contemporary policy and operational issues such as variable inflation rates, interest rates, alternative monetary policy frameworks, fiscal policy constraints, climate change, understanding financial crises, financial regulation and cryptocurrencies. Students develop an understanding of the factors that behind these issues and how key policy institutions such as the RBA, APRA and Treasury seek to address them.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Analyse and explain macroeconomic policy within a general framework.

ULO2: Appraise how monetary and fiscal policies are determined in the context of the current economic environment.

ULO3: Critically evaluate the effectiveness of current macroeconomic policy in achieving its stated goals.

General Assessment Information

Late Assessment Submission Penalty (written assessments)

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the
