Unit description

This unit aims to consolidate students' knowledge and skills and prepare them for life beyond the law school. The unit will examine some of the remedies available in equity, the common law and statute as well as public and international law. It will also examine different mechanisms for the resolution of disputes such as ADR and restorative justice programs. Justice theories will provide the framework for examining the concept of a legal 'remedy' and will assist students to explore the broader issue of how to achieve a just remedial system of law.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the principles upon which remedial action can be taken.

ULO2: Critically analyse different types of remedies and how they function in different contexts.

ULO3: Formulate, present and evaluate a range of arguments that draw on law and policy, theoretical and/or ethical considerations about remedies and their effectiveness.

ULO4: Analyse hypothetical fact situations, identify legal and factual issues involving the

law of remedies, apply relevant principles and consider policy/value judgments to solve legal problems.

ULO5: Work independently to produce a sophisticated research project based on some of the broad topics covered in the unit.

ULO6: Identify and propose reforms to create a more just remedial system of law.

General Assessment Information

All assessments are submitted electronically. Turnitin plagiarism detection software is used to check all written assessments.

Students should carefully check that they submit the correct file for an assessment as re-submissions will not be accepted after the due date and time, including instances where students upload an incorrect file in error.

Word limits are strictly applied. Work above the word limit will not be marked. Footnotes are to be used only for referencing. Unless otherwise advised, referencing must conform to the requirements set out in the Australian Guide to Legal Citation 4th edition.

Marking of all assessments is moderated through a process of blind marking and the use of detailed marking rubrics.

Late penalty policy

Unless a Special Consideration request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings etc). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs etc) will only be addressed by the unit convenor in a Special consideration application. Special Consideration outcome may result in a new question or topic.

Special Consideration

Students should submit applications for Special Consideration electronically via ask.mq.edu.au, along with the supporting documentation. Before submitting their applications, students should refer to the Special Consideration policy (link provided under 'Policies and Procedures' below).
