Unit description

The concept of business models applies to a broad spectrum of the business community, encompassing venture start-ups, existing private, public and social organisations. This unit takes a practical approach to analyse the value of business models and how sustainable values may be created and captured among different organisations. It looks at the role of critical elements such as sources of revenue, resources, capabilities, cost structure and key stakeholders, and how these elements are orchestrated to create organisation value and sustainability. This unit offers an opportunity to develop skill sets that help to develop innovative business models, and/or refine existing models, and challenges students to apply this knowledge to create business models or refine existing business models.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Describe and evaluate a range of business models and their applications in the context of the broader business environment.

ULO2: Critically analyse a range of business model frameworks.

ULO3: Apply the discipline of business models and analytical techniques to sustainable business operations.

ULO4: Identify a project and develop a business model to create sustainable values.

General Assessment Information

Unless a *Special Consideration* request has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern. For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to apply for *Special Consideration*.
