Unit description

In competitive business environments, developing and managing superior value offerings for customers is vital. Managing the marketing offering of a firm is central to market success. To that end, practitioners need to own a set of skills and be able to utilise a mix of tools to target and satisfy their consumers' needs. This unit develops students' knowledge and skills to identify target markets, shape a product mix, deliver value to target markets through a communication mix, identify distribution channels, and formulate a pricing mix. Students develop skills of setting objectives, identifying problems, identifying and evaluating alternatives, and implementing an optimal decision.
