Unit description

This unit focuses on form and function in language through an exploration of both traditional and systemic functional grammars, the two most common approaches to grammar used in applied linguistics. The first part of the unit presents traditional grammar, and explores the extent to which it can be construed as a 'communicative grammar'. The second part presents systemic functional grammar, and explains how this approach links language forms with functions through taking account of contexts of language use. Participants in this unit can expect to consolidate their understanding of traditional grammar and gain a useful foundation in systemic functional grammar.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

The learning outcomes of this Unit are a basic understanding of two important theories of the grammar of English in applied linguistics: (1) traditional grammar; and (2) systemic functional grammar. Students should consolidate their understanding of the former; and develop a strong foundation in the latter. Students will develop an appropriate vocabulary for labelling parts of speech, in both traditional and functional terms. Students

will be able to analyse texts across a variety of genres using both approaches to grammar. Students will be able to explain the strengths and weaknesses of each approach to grammar both in abstract theoretical and practical terms.

Delivery and Resources

The learning and teaching strategies used in this Unit are face-to-face sessions, and self-study of readings and online coursenotes. The unit convenor will be contactable through email to answer any queries that might arise.

It is expected that students in this unit will read set readings, participate in small group discussions and follow current developments in the academic literature in specific areas of interest to them.
