Co-badged status

Unit description

This unit is an introduction to the Japanese economy from Meiji to the current Heisei Recession. It serves also as an introduction to development economics. Basic economic models will be used to analyse the past Miracle growth of the Japanese economy. Some of these models, such as the Solow growth model and Friedman's Permanent Income Hypothesis, will be familiar from theoretical units, but will be taught from their basics with no assumed prior knowledge, for practical application in a real economy. Others models commonly found in the Japanese and Asian development literature, such as Harrod, Lewis and Fei-Ranis, are also presented and will be new ground for most students. Many of the problems encountered by the global economy since the beginning of this decade, such as deflation, liquidity traps and crippling public debt, were first seen in the Japanese economy in the 1990s. Also first seen in Japan were the attempted solutions to these problems, such as quantitative easing, and these make study of the Japanese economy particularly relevant now. The unit also covers the wide range of distinctive institutions characteristic of and often unique to the Japanese economy, such as sogo shosha, zaibatsu, and capital and financial keiretsu. This material will be particularly useful for students intending employment in Japanese firms or firms doing business with Japan.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are

available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Understand the characteristics and business institutions of the Japanese economy.

Understand the development strategy and growth path that created these economic and business institutions.

Be able to apply macroeconomic and microeconomic theory to analyse the past behaviour and future prospects of the Japanese and other economies.

Assessment Tasks

Name	Weighting	Due
Presentation	15%	Second half of Session
Class Test	30%	Week 8
Essay	25%	Week 11
Final Examination	30%	University Examination Period

Presentation

Due: **Second half of Session**

Weighting: **15%**

Once in the the session, in tutorial, you will make a short presentation (a maximum of five minutes) on a given topic, a selection of which will be published in Week 3. You will also have the opportunity to develop your own topic. You will present as part of a group, but you will be marked as an individual. As with most assessment tasks in the Unit, the aim is as much to enhance your skill set as to accumulate marks.

Class Test

Due: **Week 8**

Weighting: **30%**

The aim of this test is to help with the learning process, as much as it is for the purposes of assessment. The test will focus on the ideas, facts and concepts that are the building blocks for understanding what is going on in our region. Most of it is amenable to rote learning, and perfect scores of 30 out of 30 are rare but not impossible. This is material that will be useful long after the subject is over. It is material we want you to understand, and we will spend as much time in class as is necessary to make sure you have a comfortable understanding of it. The test will

consist of short answers, with an emphasis on facts and some theory. It will be of 1.5 hours duration.

On successful completion you will be able to:

- Understand the characteristics and business institutions of the Japanese economy.
- Understand the development strategy and growth path that created these economic and business institutions.
- Be able to apply macroeconomic and microeconomic theory to analyse the past behaviour and future prospects of the Japanese and other economies.

Essay

Due: **Week 11**

Weighting: **25%**

The essay is an important means of improving the student skill set as well as of accumulating marks. It will be submitted by email as a Word document. Details regarding submission will be available via a handout to be uploaded to iLearn during Week 3. It will be returned with comments by email as a pdf file.

The essay topics will be given in the Essay Guide in Week 3. As the development of the student's written communications skills is an important aim of the subject, additional information will be given regarding requirements and suggestions for format, content and research methods for the essay.

On successful completion you will be able to:

- Understand the characteristics and business institutions of the Japanese economy.

Final Examination

Due: **University Examination Period**

Weighting: **30%**

The Final Examination will be of 2.5 hours duration and consist of essay-style questions plus some short answer questions. More details regarding the final exam will be given towards the end of the session.

On successful completion you will be able to:

- Understand the characteristics and business institutions of the Japanese economy.
- Understand the development strategy and growth path that created these economic and business institutions.

Delivery and Resources

Classes

- This unit provides 3 hours face-to-face teaching per week consisting of 1 x 2 hour lecture and 1 x 1 hour tutorial
- The timetable for lectures and tutorials can be found on the University web site at: <http://www.timetables.mq.edu.au/>
- There is one stream of lectures each week at the following times and places:
- Lectures: Tuesday 2-4pm E7B 100
- Tutorials: See Macquarie University timetables website
- Your tutorial allocation may be changed in the first week of semester. Consult the Unit Convenor if you have difficulties with the tutorial time to which you are allocated.

Required and Recommended Texts and/or Materials

No textbook succeeds in covering all the aspects of the topic that we wish to cover, and few try. As a third year unit we will rely on academic journal articles to supplement the lecture material.

Technology Used and Required

- Much of the unit's material will be available at its iLearn website.
- Access to Powerpoint software would also be an advantage.

Unit Web Page

Lecture and tutorial material as well as up to date information concerning any aspect of the unit, including any changes to the schedule, will be available to students by logging on to iLearn at <http://ilearn.mq.edu.au>.

Learning and Teaching Activities

The core of the teaching of ECON394 is the lecture program. It is vital that students maintain consistent attendance at lectures. Students unable to meet this requirement should consult the lecturer at the beginning of semester. Consistent attendance at tutorials is similarly vital to success in the unit. The lectures will be supplemented by a discrete set of journal articles reflecting the major themes of the Unit. Assimilation of the material in these articles and in the lectures and tutorials will form an excellent basis for success in the Unit.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.ht

ml

Assessment Policy <http://mq.edu.au/policy/docs/assessment/policy.html>

Grading Policy <http://mq.edu.au/policy/docs/grading/policy.html>

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Grievance Management Policy http://mq.edu.au/policy/docs/grievance_management/policy.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html *The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.*

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Academic Honesty

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at http://www.mq.edu.au/policy/docs/academic_honesty/policy.html

Grades

Macquarie University uses the following grades in coursework units of study:

- HD - High Distinction
- D - Distinction
- CR - Credit
- P - Pass
- F - Fail

Grade descriptors and other information concerning grading are contained in the Macquarie University Grading Policy which is available at:

<http://www.mq.edu.au/policy/docs/grading/policy.html>

Grading Appeals and Final Examination Script Viewing

If, at the conclusion of the unit, you have performed below expectations, and are considering lodging an appeal of grade and/or viewing your final exam script please refer to the following website which provides information about these processes and the cut off dates in the first instance. Please read the instructions provided concerning what constitutes a valid grounds for appeal before appealing your grade.

http://www.businessandeconomics.mq.edu.au/new_and_current_students/undergraduate_current_students/how_do_i/grade_appeals/

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit <http://informatics.mq.edu.au/help/>.

When using the University's IT, you must adhere to the [Acceptable Use Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge,

scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Understand the characteristics and business institutions of the Japanese economy.
- Understand the development strategy and growth path that created these economic and business institutions.
- Be able to apply macroeconomic and microeconomic theory to analyse the past behaviour and future prospects of the Japanese and other economies.

Assessment tasks

- Class Test
- Final Examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Understand the characteristics and business institutions of the Japanese economy.
- Understand the development strategy and growth path that created these economic and business institutions.
- Be able to apply macroeconomic and microeconomic theory to analyse the past behaviour and future prospects of the Japanese and other economies.

Assessment tasks

- Presentation
- Essay

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing

data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcome

- Understand the development strategy and growth path that created these economic and business institutions.

Assessment task

- Essay

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcome

- Understand the development strategy and growth path that created these economic and business institutions.

Assessment tasks

- Presentation
- Class Test
- Essay
- Final Examination

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Understand the characteristics and business institutions of the Japanese economy.
- Be able to apply macroeconomic and microeconomic theory to analyse the past behaviour and future prospects of the Japanese and other economies.
