This document is available for download from the unit iLearn site.

Also read the following docs:

- The Insurance Information form.
- The insurance certificates of currency 1 and 2 (these can be provided to the organisation upon request).

Diary Postings

Due: **Every Second Week**

Weighting: **15%**

Every second week during your placement, you are required to post a 100 to 200 word diary entry on the unit iLearn site, as well as at least five responses to other students' posts. In the diary entries you will briefly outline the activities you undertook for your placement that week, and make at least one critical observation about your placement. This may be, for example, a difficulty you faced, or something you learned about the media industry in general; it may also be something you will reflect on later in your End of Placement Report. The purpose of this is to share experiences with your fellow enrolled students and with the unit convenor, and also to encourage ongoing reflection while you are undertaking your placement.

This is also one of the systems that the unit convenor has put in place to monitor and detect when something has gone wrong with your placement. It is therefore of utmost importance that you complete this task. Note that any work place bullying and resulting psychological damage

counts. The University has a duty of care for you and therefore this is one of the work placement safety monitoring systems that has been put in place for you. Note however, that this is not the only system, if anything problematic occurs during your placement, you are required to contact the unit convenor immediately on:

02 9850 2107

brent.keogh@mq.edu.au

Assessment Criteria

Postings on iLearn will be examined with address to the following criteria:

- Do the postings demonstrate an adequate familiarity with and communication of how your work placement is meeting the learning outcomes specified in the unit guide?

On successful completion you will be able to:

- Identify specialised skills, capabilities and knowledge acquired from their Master's degree in International Communications and apply these to their internship project(s) and related tasks.

This essay involves an engagement with theoretical areas or issues around your placement. It forms the critical analysis part of your internship assessment, where you relate your experience to academic studies you have undertaken in media units. Research essays should be 3500 words and need to be word-processed, with normal referencing procedures.

To relate your internship experience to your academic studies, select one of these five broad topics and critically discuss or evaluate this/these issue/s in the light of the practical industry work you have completed as part of your internship:

- Global communication and the transnational political economy
- Ethics, communication and the public sphere
- Local and global cultures and transnational media
- Digital communication and news
- Transnational media corporations

Reference your essay with academic material related to your internship experience. If your internship focuses on writing in general, refer to theories of writing. For example, if your internship is in the field of Public Relations, you might link your experience to theories of persuasion. If you need an extension this must be agreed on after discussion with the ICOM828 convenor, who may ask for documentation. You must apply for an extension before the assignment due date. Extensions asked for after the due date will not be granted. Penalties will be imposed for late submission of this assignment. Your International Communications Internship

Note that any work place bullying and resulting psychological damage counts. The University has a duty of care for each student and therefore you will need to complete assessment task number 2, as this is one of the ways in which your placement is monitored. (l) Assign all intellectual property in any materials including but not limited to reports, data, presentations, programmes, designs, diagrams, drawings produced by me during the Participation Activity to the Organisation from the time of its creation or development. This assignment will come into effect from the date on which I commence the Participation Activity or the date upon which the relevant rights come into existence where the material or any part of it is created after I commence the Participation Activity; and

(m) Give the Organisation all reasonable assistance to facilitate any application for any formal protection of these materials and shall sign, execute and deliver any documents, forms and papers required to be produced or obtained in connection with any such application at the Organisation's sole cost and expense.

Unit Schedule

Frequently Asked Questions (FAQs)

1. Do we have to find our own placement?

Yes – (see memorandum below for more details). You should work independently to find a placement. The course convenor has an industry 'ideas list' database that has been accumulated primarily through past placements. You can access this database if you so desire. You can also book a time to consult with the unit convenor concerning your placement. Once you have found an organisation that is willing to host you for your work placement, you will need to complete the first assessment task. This assessment task is designed to enable you to demonstrate that you are capable of developing negotiating skills with people from a variety of professional backgrounds. This includes being able to execute student and placement agreements in a competent and timely manner. You will be assessed in terms of the timeliness and competence you display when working with your chosen organisation to execute the following agreements.

If you can't find one yourself, think about where you would like to be working and look at relevant companies to approach and contact them. We encourage you to find something you really want to do. If you can't find something, or if you are finding that no-one is responding, then contact the convenor.

2. How many hours do we have to work?

100 hours during the timeframe of S1, which works out at approx. 1 day per teaching week.

3. How do we split the 100 hours?

You can negotiate that with your host organisation and their requirements.

4. What is deadline for handing in the Student Proposal Form?

If you submit the form any later than Week 5, you will find it more difficult to accommodate the 100 hours, so it is recommended that you secure your placement earlier in the semester. If you are struggling to sort out a placement, it is essential to contact the convenor to discuss problems you are facing.

5. What if my internship doesn't work out with my placement?

This could happen due to a restructure of the organisation, or a change in supervisor, if you find that you aren't learning anything or if there are human resource issues. Your convenor should be alerted to these issues in advance so that the problems can either be resolved or an alternative sought. But please make sure you discuss any potential issues with your convenor and also suggest that the supervisor makes contact too. We will help you find a second placement where you can do the balance of the hours.

6. How is my internship assessed? Does my supervisor have a role in how I am assessed?

There are four assessment tasks. Look at the unit guide or iLearn for assessment task details. Your supervisor will send the convenor a brief report at the end of the placement but this will not impact on your academic performance.

7. What happens if I haven't completed my 100 hours by the end of the semester?

Your final essay must be handed in on the due date even if you haven't completed the hours, and you are still required to complete the hours in order to pass. If you are finding it difficult to complete the hours, please contact the convenor as early as possible to find a solution.

8. Am I covered by insurance for my internship?

Yes. If you are officially enrolled in the unit and you are undertaking the internship in the timeframe in which the unit runs (see forms on iLearn).

Memorandum to ICOM828 Students

ICOM828 requires students to identify their own internship site and then submit their materials for approval. Recommendations for internship sites are available from the unit convenor. Whether planning, creating, or selecting an internship, student interns should be applying certain general principles in order to ensure an optimal experience (see unit learning outcomes). An internship that does not challenge or lead to professional or personal growth will be of little long-term value. If students already have work experience in a particular area but still wish to pursue an internship in a similar area, they should approach the internship from a new perspective, one that will not be a matter of repeating tasks they already have experienced.

Instructions for Students

Students are required to:

- a. Read the unit outline that you will be emailed (to your "**firstname.lastname@students.mq.edu.au**" email address) and/or download a copy via the unit iLearn site.
- b. Work independently to find a placement. The course convenor has an industry contacts database that has been accumulated primarily through past placements. You can access this database if you so desire. You can also book a time to consult with the unit convenor concerning your placement.
