Unit description

This unit examines the structure and components of national security, including the roles of the intelligence and law enforcement communities, and considers which areas of the public and private sectors need to play a part in maintaining national security. The unit examines different homeland security models and what comprises an effective counter-terrorism strategy. Please note: this unit will be offered as block sessions in Sydney.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Demonstrate a higher level understanding of the concept of national security and counter terrorism

Display engagement with the fields of national security and counter terrorism through the

examination and exploration of critical texts, concepts and theories relating to the field.
Investigate a substantial body of contemporary national security and counter terrorism literature.

Demonstrate higher order communication skills including the ability to present sustained and persuasive arguments cogently and coherently.

Model research skills, particularly the ability to select appropriately and integrate knowledge from diverse sources to evaluate its significance and relevance, synthesise material and present findings, rationally and lucidly.

Demonstrate higher level skills in critical analysis.

General Assessment Information

A marking template (provided for student information on iLearn) will be used as a general marking guideline. A completed template will be provided to each student after the assignment has been marked. Students are expected to complete assignments on time unless there are compelling extenuating circumstances that must be notified to the convenor before the assignment's due date. A penalty of 5% of the student's mark will be deducted for each complete day the assignment is overdue.

Delivery and Resources

DELIVERY AND RESOURCES

UNIT REQUIREMENTS AND EXPECTATIONS

- You should spend an average of at least 12 hours per week on this unit. This includes listening to pre-recorded lectures prior to seminar discussions and reading weekly required readings detailed in iLearn.
- Internal students are expected to attend all seminar sessions and external students are expected to contribute to on-line discussions.
- Students are required to submit all major assessment tasks in order to pass the unit.

REQUIRED READINGS

- The citations for all the required readings for this unit are available to enrolled students through the unit iLearn site, and at Macquarie University's Library EReserve site. Electronic copies of required readings may be accessed at the EReserve site.

TECHNOLOGY USED AND REQUIRED

- Personal PC and internet access are essential for this unit. Basic computer skills and skills in word processing are also a requirement.
- This unit has an online presence. Login is via: <https://ilearn.mq.edu.au/>
- Students are required to have regular access to a computer and the internet. Mobile devices alone are not sufficient.

- For technical support go to: http://mq.edu.au/about_us/offices_and_units/informatics/help
- For student quick guides on the use of iLearn go to: http://mq.edu.au/iLearn/student_info/guides.htm

SUBMITTING ASSESSMENT TASKS

- All assessment tasks are to be submitted, marked and returned electronically. This will only happen through the unit iLearn site.
- Assessment tasks must be submitted either as a PDF or MS word document by the due date.
- Most assessment tasks will be subject to a 'Turnitin' review as an automatic part of the submission process.
- The granting of extensions of up to one week are at the discretion of the unit convener. Any requests for extensions must be made in writing before the due date for the submission of the assessment task. Extensions beyond one week are subject to the university's Disruptions Policy (http://www.mq.edu.au/policy/docs/disruption_studies/policy.html#purpose).

LATE SUBMISSION OF ASSESSMENT TASKS

- If an assignment is submitted late, 5% of the available mark will be deducted for each day (including weekends) the paper is late.
- For example, if a paper is worth 20 marks, 1 mark will be deducted from the grade given for each day that it is late (i.e. a student given 15/20 who submitted 4 days late will lose 4 marks = 11/20).
- The same principle applies if an extension is granted and the assignment is submitted later than the amended date.

WORD LIMITS FOR ASSESSMENT TASKS

- Stated word limits do not include references, bibliography, or title page.
- Word limits can generally deviate by 10% either over or under the stated figure.
- If the number of words exceeds the limit by more than 10%, then penalties will apply. These penalties are 5% of the awarded mark for every 100 words over the word limit. If a

paper is 300 words over, for instance, it will lose $3 \times 5\% = 15\%$ of the total mark awarded for the assignment. This percentage is taken off the total mark, i.e. if a paper was graded at a credit (65%) and was 300 words over, it would be reduced by 15 marks to a pass (50%).

- The application of this penalty is at the discretion of the course convener.

REASSESSMENT OF ASSIGNMENTS DURING THE SEMESTER

- Macquarie University operates a Grade Appeal Policy in cases where students feel their work was graded inappropriately (<http://mq.edu.au/policy/docs/gradeappeal/policy.html>). This process involves all assignments submitted for that unit being reassessed. However, in exceptional cases students may request that a single piece of work is reassessed. The Department process for the reassessment of assignments for marking during the semester is as follows:
 - You must consult with the unit convenor - A reassessment will only be granted if you have sought and received feedback about your performance on the assessment from the convenor.
 - Apply to PICT's Director of Learning and Teaching (or delegated authority) for a reassessment - no more than 7 days after the unit convenor or class tutor has returned the assessment to you. You must make a sound academic case, which demonstrates that you have consulted the unit convenor and as a result of this there is evidence that either the marking criteria were not provided, or there is insufficient feedback to justify the mark given.
 - If appropriate, the Head of Department (or delegated authority) will organise the reassessment of work.
 - The mark determined after reassessment will be the final mark in that assessment task, and this mark can be lower than the original.

Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Demonstrate a higher level understanding of the concept of national security and counter terrorism
- Display engagement with the fields of national security and counter terrorism through the examination and exploration of critical texts, concepts and theories relating to the field.
- Investigate a substantial body of contemporary national security and counter terrorism literature.
- Demonstrate higher order communication skills including the ability to present sustained and persuasive arguments cogently and coherently.
- Model research skills, particularly the ability to select appropriately and integrate knowledge from diverse sources to evaluate its significance and relevance, synthesise material and present findings, rationally and lucidly.
- Demonstrate higher level skills in critical analysis.

Assessment tasks

- PowerPoint briefing
- Reading critique
- Research essay

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience,

of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Demonstrate a higher level understanding of the concept of national security and counter terrorism
- Display engagement with the fields of national security and counter terrorism through the examination and exploration of critical texts, concepts and theories relating to the field.
- Investigate a substantial body of contemporary national security and counter terrorism literature.
- Demonstrate higher order communication skills including the ability to present sustained and persuasive arguments cogently and coherently.
