Unit description

This unit introduces a psychological perspective into the study of language. In particular, we are concerned with the way in which people's knowledge of language is represented in the brain, and the psychological processes that are involved in acquiring and using that knowledge. Topics covered in the unit include: word recognition; skilled reading and reading development; acquired and developmental reading disorders; acquired spelling disorders; sentence comprehension; semantic memory and the neuropsychology of semantic memory; language production; aphasia; and first language acquisition, both normal and disordered.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

- A basic understanding of theories and research in psycholinguistics
- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

## General Assessment Information

### Tutorial Attendance

Although no mark is assigned for participation in this unit, **it is an assessment requirement that students attend at least 75% of tutorial classes during semester.**

### Late Penalties

There are two points to note in regard to late submission of assignments:

1. Unless students have negotiated an extension based on documented evidence of significant disruption to their studies, a penalty of 5% per day will apply to late submission of assignments.
2. Again, unless otherwise negotiated, assignments will not be accepted at all AFTER the date on which the marked assignments are returned to all students in the unit.

## Assessment Tasks

Name	Weighting	Due
<u>Assessment 1</u>	20%	Thursday 4 September
<u>Assessment 2</u>	30%	Thursday 30 October
<u>Assessment 3</u>	45%	Exam period
<u>Assessment 4</u>	5%	End of semester

## Assessment 1

Due: **Thursday 4 September**

Weighting: **20%**

A written critique of a published research paper, which can be written in point form. The paper to be critiqued for this assignment will be made available to students in week 2. The critique should be a maximum of 1,200 words (four double-spaced A4 pages), and printed in a 12-point font with 2.54 cm margins. The word limit includes in-text referencing but does not include the title page or the reference list at the end.

On successful completion you will be able to:

- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues

## Assessment 2

Due: **Thursday 30 October**

Weighting: **30%**

A research report based on a class experiment. The data for this assignment will be made available to students by week 8. The report should be a maximum of 2,400 words (eight double-spaced A4 pages), and printed in 12-point font with 2.54 cm margins. The word limit includes in-text referencing but does not include the reference list at the end, nor the tables and figures, abstract, title page or appendices.

On successful completion you will be able to:

- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues

## Assessment 3

Due: **Exam period**

Weighting: **45%**

A closed-book end-of-year exam comprising multiple-choice and short-answer questions and covering both lecture and tutorial content.

On successful completion you will be able to:

- A basic understanding of theories and research in psycholinguistics
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

## Assessment 4

Due: **End of semester**

Weighting: **5%**

Participation in a psycholinguistic experiment.

On successful completion you will be able to:

- Understanding of the methods of data collection that psycholinguists use

## Delivery and Resources

### Classes

Lectures: Students attend one 2-hour lecture per week for this unit, which will be offered at two alternative times: Wednesdays from 2 pm to 4 pm in W5A T1 (Theatre) or Thursdays from 1 pm to 3 pm in E7B T4. The lecture programme is outlined in this guide.

Tutorials: There is one 1-hour tutorial per week for this unit. Tutorials begin in the second week of semester. Seven optional tutorial times are offered as indicated below.

Note: Students will be able to access the recording of the lecture through iLearn, but must attend the compulsory tutorial class each week. **It is an assessment requirement of this unit that students attend at least 75% of tutorial classes during semester.**

Tutorial Options			
Day	Start Time	Room	Tutor
Wednesday	11 am	C5C 240	Jo Fitzgibbon
Wednesday	12 pm	C5C 240	Jo Fitzgibbon
Wednesday	4 pm	W5A 105	Jo Fitzgibbon
Wednesday	5 pm	W5A 101	Jo Fitzgibbon
Thursday	9 am	C3A 310	Caroline Moir
Thursday	10 am	C4A 312	Caroline Moir
Thursday	11 am	W5A 101	Jo Fitzgibbon

## Required and recommended texts and/or materials

The prescribed text for this unit is: Harley, T. A. (2014). *The psychology of language: From data to theory (4<sup>th</sup> edition)*. Hove, East Sussex: Psychology Press Ltd. It is available in hardcover, paperback, or a Kindle edition. One electronic copy of this text is available in the library reserve section.

See the unit website for details of other required readings for tutorials and assessment exercises.

## Unit web page

The web page for this unit can be found at: <https://ilearn.mq.edu.au>

## Technologies used and required

- Word processing for completing assignments 1 and 2; internet access (for downloading lecture and tutorial materials).
- No other technologies.

## Changes since last offering

- None.

## Unit Schedule

Week	Lecture Topic	Textbook Chapter
1	What is psycholinguistics? Course outline.	1-3
2	Language comprehension: Recognising words	6
3	Language comprehension: Understanding words	11
4	Language comprehension: Understanding sentences	10, 12
5	Language production, typical and disordered	13
6	Skilled adult reading and writing and acquired dyslexia and dysgraphia	7
7	Typical reading development	8
	<b>Mid-semester Break (2 weeks)</b>	
8	Developmental disorders of reading	8
9	Reading development in special populations	N/A
10	Language acquisition, theoretical perspectives	3, 4

11	Language acquisition, developmental disorders	3, 4
12	Language development in infancy	4
13	Later language development	4

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy [http://mq.edu.au/policy/docs/academic\\_honesty/policy.html](http://mq.edu.au/policy/docs/academic_honesty/policy.html)

Assessment Policy <http://mq.edu.au/policy/docs/assessment/policy.html>

Grading Policy <http://mq.edu.au/policy/docs/grading/policy.html>

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Grievance Management Policy [http://mq.edu.au/policy/docs/grievance\\_management/policy.html](http://mq.edu.au/policy/docs/grievance_management/policy.html)

Disruption to Studies Policy [http://www.mq.edu.au/policy/docs/disruption\\_studies/policy.html](http://www.mq.edu.au/policy/docs/disruption_studies/policy.html) *The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.*

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

## Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student\\_conduct/](https://students.mq.edu.au/support/student_conduct/)

## Final Exams

The University Examination period in **Session 2**, is from **11 to 29 November 2013**.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.

<http://www.timetables.mq.edu.au/exam>

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. Information about unavoidable disruption and the special consideration process is available at [http://www.ling.mq.edu.au/support/process\\_special.htm](http://www.ling.mq.edu.au/support/process_special.htm)

If a Supplementary Examination is granted as a result of the Special Consideration process, the examination will be scheduled after the conclusion of the official examination period. The format of a supplementary examination is at each unit convener's discretion and is subject to change from the original final examination.

**Supplementary Exams are only offered to students who have completed all other assessments for the unit and were unable to sit the final exam because of documented illness or unavoidable disruption.**

Instructions on applying for sitting of a supplementary exam are available from the website, [http://www.ling.mq.edu.au/support/process\\_special.htm](http://www.ling.mq.edu.au/support/process_special.htm). It is the student's responsibility to follow the steps outlined in this website. Students awarded a supplementary will NOT be sent a letter. It is the student's responsibility to check the web and their student email to see whether a supplementary exam has been granted. Students who are granted to sit for a supplementary exam must make themselves available to sit for the supplementary exam on the specified date. There will be only one alternative time. It is the student's responsibility to email the unit convenor to confirm attendance at the supplementary exams.

You are advised that it is Macquarie University policy not to set early examinations for individuals or groups of students. All students are expected to ensure that they are available until the end of the teaching session, which is the final day of the official examination period.

## Academic Honesty

Academic honesty is an integral part of the core values and principles contained in the Macquarie University Ethics Statement. The Policy covering Academic Honesty is available on the web at: [http://www.mq.edu.au/policy/docs/academic\\_honesty/policy.html](http://www.mq.edu.au/policy/docs/academic_honesty/policy.html)

Plagiarism is an example of dishonest academic behaviour and is defined by the Policy on Academic honesty as: "Using the work or ideas of another person and presenting this as your own without clear acknowledgement of the source of the work or ideas".

Plagiarism is a serious breach of the University's rules and carries significant penalties. The Academic honesty Procedure is available at [http://www.mq.edu.au/policy/docs/academic\\_honesty/procedure.html](http://www.mq.edu.au/policy/docs/academic_honesty/procedure.html)

This procedure notes the following responsibilities for students:

- Act in accordance with the principles of the Academic Honesty Policy.
- Become familiar with what academic dishonesty is, what are appropriate referencing techniques and the consequences of poor practice.
- Seek assistance from the unit convenor (or their nominee) to remedy any deficits or if you are unsure of discipline specific practice.
- Submit only work of which you are the author or that properly acknowledges others.
- Do not lend your original work to any other person for any reason.
- Keep drafts of your own authored work and notes showing the authorship or source of ideas that are not your own.

The penalties which can be applied for academic dishonesty are outlined in the Academic Dishonesty – Schedule of Penalties which can be found at: [http://www.mq.edu.au/policy/docs/academic\\_honesty/schedule\\_penalties.html](http://www.mq.edu.au/policy/docs/academic_honesty/schedule_penalties.html)

The penalties range from applying a fail grade for the assessment task or requiring the student to re-submit the assessment task for a mark no greater than 50 to applying a fail grade to the unit of study and referral to the University Discipline committee.

You must read the University's Policy and Procedure on Academic Honesty.

**In summary, remember that you, as a good student, are responsible for ensuring academic integrity practices are followed at all times. Your first step is to read the University's Academic Honesty Policy, and make sure you know what constitutes good practice. Then make sure you know how to reference and cite correctly. There are other practices we need to consider, and one of these is the potential for collusion.**

**Informal study groups are encouraged as a good way to assist your learning, but please remember that all your independently assessed assignments must be totally independently completed. Unless you are doing a group project where each member contributes to producing one piece of work, for which you get the one mark, using part or all of someone else's work constitutes collusion and breaches the University's Academic Honesty policy.**

**Do not collude with any other student by selling, giving, lending, explaining or showing all or parts of your independently assessed work/answers/past or current assignments, and do not ask to buy, borrow, see and use all or parts of the work of another student.**

## University Policy on Grading

Academic Senate has a set of guidelines for the achievement of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).

On occasion your raw mark for a unit (i.e., the total of your marks for each assessment item) may not be the same as the SNG which you receive.

For more information please refer to the Macquarie University Handbook.

## Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

## Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)

- [Ask a Learning Adviser](#)

## Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

## Student Enquiries

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://ask.mq.edu.au)

## IT Help

For help with University computer systems and technology, visit <http://informatics.mq.edu.au/help/>.

When using the University's IT, you must adhere to the [Acceptable Use Policy](#). The policy applies to all who connect to the MQ network including students.

## Graduate Capabilities

### Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

#### Learning outcomes

- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

#### Assessment tasks

- Assessment 1
- Assessment 2
- Assessment 3

## Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue

knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

## **Learning outcomes**

- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues

## **Assessment task**

- Assessment 1

## **Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

## **Learning outcomes**

- A basic understanding of theories and research in psycholinguistics
- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

## **Assessment tasks**

- Assessment 1
- Assessment 2
- Assessment 3
- Assessment 4

## Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

### Learning outcomes

- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

### Assessment tasks

- Assessment 1
- Assessment 2
- Assessment 3

## Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

### Learning outcomes

- Understanding of the kinds of questions that psycholinguists ask
- Understanding of the methods of data collection that psycholinguists use
- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

## Assessment tasks

- Assessment 1
- Assessment 2
- Assessment 4

## Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

## Learning outcomes

- Understanding of the kinds of questions that psycholinguists ask
- Ability to interpret empirical data in relation to theoretical questions/issues

## Assessment tasks

- Assessment 1
- Assessment 2

## Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

## Learning outcomes

- Ability to read, understand and provide a critical analysis of empirical research articles in psycholinguistics.
- Ability to interpret empirical data in relation to theoretical questions/issues
- Knowledge of language disorder

## Assessment tasks

- Assessment 1
- Assessment 2
- Assessment 3

## Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

### Learning outcomes

- Understanding of the methods of data collection that psycholinguists use
- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing

### Assessment tasks

- Assessment 1
- Assessment 2

## Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

### Learning outcomes

- Knowledge of language disorder
- Knowledge of how the performance of people with atypical or disordered language can be used to evaluate psycholinguistic theories of typical language processing
