Unit description

This unit examines new and emerging developments and challenges that international managers are currently facing and are likely to face in the coming years while managing across borders, where people from diverse cultures interact, both within and between firms. Given that changes in the global business environment continue unabated, particular attention is paid to managing the increasingly diverse workforce in the Australian context, as well as in the context of Australian firms that conduct business in Asia and beyond. The unit provides a setting for understanding the implications of this diversity on the management of cross-cultural dynamics in a multi-cultural business environment. The unit equips students with knowledge of mandatory policy requirements when managing a diverse workplace in order to avoid expensive law suits and punitive damages.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Each of these groups will be allocated a weekly case to discuss, analyse and present in class. The case allocation will be done in a draw in the first tutorial. Every student will read the case and come ready for the quiz, questioning the presenting group and partaking in discussions led and monitored by the tutor. Students will be noted for their participation in class. You will not be able to ride on the backs of other team members.

Before presenting the case, the presenting group will hand in their group case analysis report to the tutor. At the end of the tutorial, each student needs to hand in the completed quiz to the tutor.

The case analysis report should include the following:

A. Introduction.

B. Body. This should include the following sections: identification of major stakeholders and their problems, objective and concern, positive and negative views, analysis of alternative solutions, recommended solutions, and managerial implications.

C. Conclusion. Briefly summarise the essential complexities posted in the case and the significance of the recommended solutions and managerial implications. Marks will be allocated to each of these.

D. Referencing. The analysis of a case study is usually your own depiction of the case scenario, referencing will be minimal. If you do use some outside material to support your analysis, referencing should be in Harvard style.

LEARNING AND TEACHING ACTIVITIES

This unit will be taught via the participant-centred and experiential learning method of teaching. “Experiential learning takes place when a person is involved in an activity, then looks back and evaluates it, determines what was useful or important to remember and uses this information to perform another activity” (John Dewey, 1938). Face-to-face lectures would comprise of seminars of two hours' duration. Students will partake in lectures, cases, video cases, and discussions/ activities (experiential exercises) in class.

Students are advised to attend all lectures and tutorials and participate in case discussions, missing classes and not participating in case discussions will affect grades.

Case studies will be extensively used. Case analyses are intended to be analytical critiques on some central issues of the case being discussed. As this is a discussion-oriented class, students will read all of the case studies indicated on the course schedule and come prepared to discuss and defend themselves in the tutorials. Every student is expected to participate. In your case analyses, please refrain from writing a summary of the case or repackaging the information already provided in the case. Based on the information provided in the case, be analytically judgmental, propose alternative managerial views and action plans, and discuss the relevance and appropriateness of the frameworks proposed in the readings and lectures to the case. In short, write what you think of the situation in the case and not merely repeat what the author says. The course teaches several models for cultural analysis of case studies. Some examples are: Hofstede, Trompenaars, and Edward Hall. These models are to be used for case analysis, group case study assignments and media article analysis.

This unit is presented through the following learning media:

- Thirteen weekly classroom lectures combined with small group tutorial discussions, case studies, in lecture activities and videos.

- Students must attend at least 80% of the tutorials. Lectures are supported online on iLearn: <http://ilearn.mq.edu.au>
- Lecture notes, assignment details, assessment methods, case studies, reading and reference materials and a sample exam paper are posted on iLearn.
- Tutorial activity: Every week one student group will discuss, analyse and present a relevant case study in the tutorial. Each group only presents once. The weightage of this presentation is 10%.
- Every presenting group will hand in a case analysis report to the tutor. The weightage of this submission is 15%.
- At the end of the presentation, tutors will lead a discussion of the case. Every student needs complete a short quiz based on the case study of that week. The weightage of the weekly quizzes is 5%.
- All students will upload a research report that critiques and analyses a media article on cross cultural management issues in week 6, which carries a weightage of 30%.
- The total assignment weightage is 60% and the final exam will be 40%.
