Unit description

International business includes all business activities that involve business organisations from two or more countries. Although international business has many similarities with domestic business, there are significant differences which this unit examines. At an international level, managers must accommodate a highly complex environment. Key variables in this environment include: different currencies; different government policies concerning trade; subsidies and controls on foreign investment; as well as the variables that exist in any domestic environment such as competition, costs and customer characteristics. Topics examined in the unit include: forms of international business; the political and cultural context of international business; theories of international trade and investment; regional economic integration; and an introduction to multilateral institutions such as the IMF, the World Bank group and the World Trade Organisation.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

Analyse the complexity of the international business environment by understanding international business trends along with the changes and contrasts between foreign markets through the differences in their legal, cultural, economic, and political systems.

Identify the core principles of contemporary IB theory to international business development and practice through the study of international trade and investment, FDI, regional economic integration and international monetary systems.

Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.

Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## Assessment Tasks

Name	Weighting	Due
<u>Presentation</u>	10%	Week 5&6
<u>Individual Assignment</u>	30%	Week 8
<u>Group Report</u>	20%	Week 11
<u>Final Examination</u>	40%	City Campus Examination Period

### Presentation

Due: **Week 5&6**

Weighting: **10%**

Submission: This must be submitted in Week 5&6 to your tutor in your regular tutorial class.

Extension: Only by prior arrangement with the Lecturer in Charge

Penalties: 10% for each day late.

What is required to complete the unit satisfactorily:

#### 1. PRESENTATION

**The Presentation is worth 15% of your final grade. It is due in weeks 5 and 6 in tutorials. It is marked individually.**

You will be required to join a group (of no more than four students, preferably three). In your group you will give a presentation on an international firm that is related to one of the topics discussed in this course.

**The firm to be examined is of your choosing and must be based around the following:**

- must be a well-known, easily identifiable firm.
- must be related to one lecture topic and integrate theory and analysis where appropriate.
- must not choose a firm that you have used previously ie previous assignment or lecture/tutorial case study

It is expected that your presentation will not exceed 12 minutes with each student talking for no longer than 3 minutes. The presentation will cover key issues. These should include:

- Brief background of the firm and how it relates to international business
- How does the case study relate to a specific lecture topic?
- What difficulties/issues is the firm currently facing in its international operations? How would you address these difficulties/issues?

Presentations will start in **Week Five** in tutorials and it is expected that you will provide a printed copy of the slides to the tutor along with the presentation. Although your presentation will be presented as a group you will be individually assessed based on the marking criteria attached to the unit guide. There will be an emphasis on your presentation style and delivery as well as content. It is expected that every group member participates equally.

No extensions will be granted. Students who have not submitted the task in their given presentation week will be awarded a mark of 0 for the task, except for cases in which an application for special consideration is made and approved.

Students are reminded that simply **reading** the presentation to the class is **not acceptable**.

The **assessment sheet** for the presentation is attached to the unit outline.

On successful completion you will be able to:

- Analyse the complexity of the international business environment by understanding international business trends along with the changes and contrasts between foreign markets through the differences in their legal, cultural, economic, and political systems.
- Identify the core principles of contemporary IB theory to international business

development and practice through the study of international trade and investment, FDI, regional economic integration and international monetary systems.

- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## Individual Assignment

Due: **Week 8**

Weighting: **30%**

Submission: This must be submitted in Week 8 to your tutor in your regular tutorial class.

Extension: Only by prior arrangement with the Lecturer in Charge

Penalties: 10% for each day late.

What is required to complete the unit satisfactorily:

### 2. INDIVIDUAL ASSIGNMENT

**The individual assignment is worth 25% of your final grade.**

Each student will be expected to submit an individual assignment of 2,000 words in their Week 8 tutorials and via Turnitin. The required format for the assignment is an **ESSAY**. The topic is as follows:

***Choose and collect two newspaper or periodical articles that have relevance for international firms from developed markets doing business in emerging/developing markets.***

**Your chosen articles must be published between 3<sup>rd</sup> March and 27<sup>th</sup> April 2014 in one of the following newspapers or periodicals:**

***The Sydney Morning Herald, The Australian, The Australian Financial Review, The Wall Street Journal (US edition), Business Review Weekly, The Economist***

Based on your articles you should address the following points within your essay:

1. What are the implications for international firms doing business within an emerging/developing market? Do you consider the legal, political, cultural and economic differences between home and host countries to be important considerations for international firms?

2. In your opinion, what is the most relevant macro-environment factor for an international business when choosing to internationalise into an emerging/developing market? Discuss any **international business concepts or theories** that could be used to help justify your answer.

**Include copies of both articles (either the original ‘cut-outs’ or a print out of the article from the newspaper’s website) as appendices to your assignment.**

Your essay should incorporate at least 12 different references. These can be sourced from the following:

- Academic articles
- Relevant textbooks
- Periodicals
- Newspapers
- Relevant online sources

The 12 references should be evenly balanced between these five resource options. Examples of all of these reference options are detailed on pages 4-5 of this guide.

Students are expected to maintain an appropriate standard in presenting their essay. Remember to acknowledge your sources throughout the paper using the Harvard referencing system. The report is to be typed and 1.5 spaced (a standard 12 point font should be used). It should be checked for spelling, consistency and clarity of expression.

No extensions will be granted. Late tasks will be accepted up to 72 hours after the submission deadline. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved.

Your essay must be submitted to **Turnitin**.

On successful completion you will be able to:

- Analyse the complexity of the international business environment by understanding international business trends along with the changes and contrasts between foreign markets through the differences in their legal, cultural, economic, and political systems.

- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## Group Report

Due: **Week 11**

Weighting: **20%**

Submission: Hard copy to your tutor in Week 10

Extension: Only by arrangement with Lecturer in Charge

Penalties: 10% for each day that it is late

What is required to complete the unit satisfactorily:

## 3. GROUP REPORT

**The Group Report is worth 20% of the final grade. It is due in Week 11 in tutorials.**

In the same group as the group presentation you will develop a 4500 word written **REPORT** on the details below:

You have been asked to write a report outlining how Australia would be able to build sustainable, national competitive advantage in **one** of the three following industries.

- Video games industry
- Pharmaceutical industry
- International education

Your report should draw upon **new trade theory** and **Porter's theory of national competitive advantage** as the basis of your analysis.

**In the body of your report you will need to provide the following**

- Brief outline of each of the theories
- Outline the current position and issues of the Australian industry you have chosen
- Outline and justify what industry strategies and government policies you would recommend be adopted to improve Australia's position in the industry for the short and long term.

As this is a group exercise all members of the group are expected to contribute actively and substantially. While it is understood that some members of the group may provide more input in the research, whereas others may do more of the actual written work, the group will be required to acknowledge that all group members have given quality time to the project.

While writing your report, you should incorporate relevant theories and concepts to justify your arguments. Remember to acknowledge your sources throughout the paper using the Harvard referencing system (in-text referencing).

The report is to be typed and 1.5 spaced (a standard 12 point font should be used). It should be checked for spelling, consistency and clarity of expression.

Your report should incorporate at **least 30 different references**. These can be sourced from the following:

- Academic articles
- Relevant textbooks
- Periodicals
- Newspapers
- Relevant online sources

**The 30 references need to be evenly balanced between these five resource options.**

Examples of all of these reference options are detailed in this outline.

No extensions will be granted. Late tasks will be accepted up to 72 hours after the submission deadline. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for special consideration is made and approved.

**All group work is peer moderated (see Appendix 1)**

In Week 10 each student will submit a peer evaluation assessment for each member in their group (including themselves). This will then allow a peer factor to be allocated to the Group's raw score for each individual student, allowing a dispersion of marks within the same group.

**This peer factor is kept confidential. (See Appendix 1)**

On successful completion you will be able to:

- Identify the core principles of contemporary IB theory to international business development and practice through the study of international trade and investment, FDI,

regional economic integration and international monetary systems.

- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## Final Examination

Due: **City Campus Examination Period**

Weighting: **40%**

Examination conditions:

A compulsory two hour final exam will be set during the exam period. The examination will be 'closed book'. The format of the final exam will be long essay questions.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.

<http://www.timetables.mq.edu.au/exam>

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration. The University's policy on special consideration process is available at [http://www.mq.edu.au/policy/docs/special\\_consideration/policy.html](http://www.mq.edu.au/policy/docs/special_consideration/policy.html)

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. (Individual Faculties may wish to signal when the Faculties' Supplementary Exams are normally scheduled.)

The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at: <http://www.mq.edu.au/policy/docs/examination/policy.htm>

On successful completion you will be able to:

- Analyse the complexity of the international business environment by understanding international business trends along with the changes and contrasts between foreign markets through the differences in their legal, cultural, economic, and political systems.
- Identify the core principles of contemporary IB theory to international business development and practice through the study of international trade and investment, FDI, regional economic integration and international monetary systems.
- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## IT Help at Macquarie City Campus

If you wish to receive IT help, we would be glad to assist you at <http://informatics.mq.edu.au/help/> or call 02 9850-4357.

When using the university's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students and it outlines what can be done.

Students must use their Macquarie University email addresses to communicate with staff as it is University policy that the University issued email account is used for official University communication.

Students are expected to act responsibly when utilising Macquarie City Campus IT facilities. The following regulations apply to the use of computing facilities and online services:

- Accessing inappropriate web sites or downloading inappropriate material is not permitted.

- Material that is not related to coursework for approved unit is deemed inappropriate.
- Downloading copyright material without permission from the copyright owner is illegal, and strictly prohibited. Students detected undertaking such activities will face disciplinary action, which may result in criminal proceedings.

Non-compliance with these conditions may result in disciplinary action without further notice.

If you would like to borrow headphones for use in the Macquarie City Campus computer labs (210, 307, 311, 608) at any point, please ask at Level 2 Reception. You will be required to provide your MQC Student ID card. This will be held as a deposit while using the equipment.

For assistance in the computer labs, please see a Lab Demonstrator (usually they can be found in Lab 311, otherwise ask at Level 2 Reception).

## **Graduate Capabilities**

### **Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

### **Learning outcomes**

- Analyse the complexity of the international business environment by understanding international business trends along with the changes and contrasts between foreign markets through the differences in their legal, cultural, economic, and political systems.
- Identify the core principles of contemporary IB theory to international business development and practice through the study of international trade and investment, FDI, regional economic integration and international monetary systems.
- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.

## Assessment tasks

- Presentation
- Individual Assignment
- Group Report
- Final Examination

## Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## Assessment tasks

- Presentation
- Individual Assignment
- Group Report

## Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

- Analyse and integrate literature on international business to create a coherent, practical, rigorous argument.
- Critically evaluate and reflect upon international business decisions, systems and policies through the use of applied questions and case study analysis.

## **Assessment tasks**

- Presentation
- Individual Assignment
- Group Report
- Final Examination

## **Effective Communication**

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

<b>Understanding of questions and application of theory/ concepts (40%)</b>	<i>Not attempted/ entirely or significantly plagiarized from other sources.</i>	<i>Fails to answer the questions or misinterprets the questions.  Demonstrates minimal understanding or application of relevant theory/ concepts</i>	<i>May focus on only some aspects of the questions.  Demonstrates a basic understanding or application of the relevant theory/ concepts</i>	<i>Responds to most aspects of the questions. Demonstrates some understanding and application of key aspects of the relevant theory/ concepts</i>	<i>Responds to all aspects of the questions. Demonstrates a good understanding and application of the relevant theory/ concepts</i>	<i>Fully responds to all aspects of the questions. Demonstrates advanced understanding of the relevant theory.  Suggests possible extensions and applications of theory/concepts</i>
<b>Structure of argument  Depth of analysis (30%)</b>	<i>Not attempted/ entirely or significantly plagiarized from other sources</i>	<i>Presents ideas in a confusing way.  May simply describe superficial aspects of topic with little critical analysis. Draws irrelevant conclusions</i>	<i>Structures argument with some flaws in logic.  May simply restate or describe with little critical analysis. Draws limited conclusions.</i>	<i>Satisfactorily structures argument with credible logic. May sometimes describe rather than analyse or evaluate.  Draws limited conclusions.</i>	<i>Develops a clear, progressive and convincing argument throughout the work. Draws logical conclusions</i>	<i>Develops a compelling argument with creative examples and defensible generalisations.  Draws well-supported conclusions.</i>
<b>Quality of research (10%)</b>	<i>Not attempted/ entirely or significantly plagiarized from other sources</i>	<i>Uses a small number of references (fewer than the minimum) concerning the topic. Provides little evidence of research on the topic.</i>	<i>Relies extensively on textbook, or limited other sources. Provides little evidence of research on the topic. ## **APPENDIX 1**

### **STUDENT EVALUATION OF MEMBER PARTICIPATION**

In order to encourage equal participation on the part of all group members, each group will complete and turn in an evaluation of the group member (only for the Major Project group reports and presentations). This evaluation will indicate the percentage of contribution of group members to the group's over-all performance. An evaluation must accompany each written research project. Use the following format:

Student Name	% Participation	Individual Mark	Signature

Tutorial Instructor \_\_\_\_\_

Tutorial Group No \_\_\_\_\_ Date: \_\_\_\_\_

Group Project Name: \_\_\_\_\_ Mark \_\_\_\_\_

Each student should give each group member (including themselves) a participation mark out of 100%. Individual marks are calculated by multiplying the paper grade by the percentage awarded by peers. For example, if Joe Black was awarded 90% for his contribution to the research project and his group received 36 out of 40 points for the project, Joe's individual mark would be 32.4%. Another student, awarded 100%, would receive 36 points.

Students can give each of the group members 100%. If this is done, each student receives the mark that was awarded to the total project (in the above example, 36 points). No student should receive 0% unless the student really did nothing to contribute to the completion of the project (for example, did not go to meetings, did not complete assigned tasks, and did not contribute to the conceptualisation of the project).

**In completing this form you should take into account:**

1. Willingness of the individual to carry out jobs assigned
2. Ability of the individual to meet deadlines
3. Co-operation with other team members
4. Quality of the individual's work

## **Team Agreement - Group Project/Presentation Formation**

In order to encourage commitment on the part of all group members, each team member will sign this Team Agreement which defines how the group will operate during the conduct of the Group Project. Each member of the group is to sign below to indicate that they will abide by the conditions of the agreement as set out below.
