Unit description
This unit provides insights into five broad aspects of management systems: environment of management; organisations and their behaviour; management of human resources; project management and control; contracts; assessment; control and quality management; user interface management; training; documentation and industrial relations legal issues; and management responsibility. From a practical perspective the unit involves examining new venture start-ups with high-tech industrial and commercial domains, with students working in groups on a project plan. The unit is aimed at students with a background that is typically technical although this is not essential.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

Delivery and Resources

The mandatory textbook is:

Do not buy earlier editions as the quiz questions in particular will directly relate only to the 7th edition. A less expensive e-book is available for $97 which will meet the unit requirements. See: [http://www.pearson.com.au/9781486006335](http://www.pearson.com.au/9781486006335)

All lecture slides will be available from iLearn. Audio from the lectures will be available via the Echo360 system with links from the unit’s iLearn home page.

Students will need to attend the workshops to engage in group discussions and receive a summary session from the lecturer. These workshops are an integral part of the unit and students are encouraged to participate. The final examination will include questions based on the workshops.

All assignments are accessed from iLearn and submitted through iLearn.

Assignments 1 and 2 are Turnitin assignments, submitted through iLearn, but sent to Turnitin for plagiarism checking. Students should allow up to 24 hours to receive Turnitin feedback reports.

Students who have poor levels of English are encouraged to take remedial classes and seek help early. Students are encouraged to use these resources:

Special consideration policy: [http://comp.mq.edu.au/undergrad/policies/special_consideration_policy.htm](http://comp.mq.edu.au/undergrad/policies/special_consideration_policy.htm)

Unit Schedule

Students are expected to have read the relevant textbook chapters ahead of attending lectures. Quizzes cover the majority of the textbook, so acquiring a copy of the textbook at the beginning of the course is essential.

Students are also expected to read business and IT sections of the news to keep up-to-date with the latest information, and contribute to lecture and workshop discussions.

This is an intensive delivery with 3 sessions per week on Monday, Tuesday and Thursday, with Echo recorded am lectures and pm Workshop Case Studies. Students are required to bring a
copy of the textbook to workshop sessions. It is advisable to have a downloaded copy of the textbook PowerPoints for lecture presentations.

The first half of the course is focused on the textbook. The individual assignment is due before the break so that marks can be returned to students before return for the second half of the unit in 2015. Additional material on the impact of technology on business is provided during the second half of the course with lectures on the collaborative economy, the future of work and a guest speaker from Microsoft. The Group Assignment is the focus of the second half with groups and topics decided in the first week and culminating in a significant business plan and individual student presentations.

**Assessment tasks**

- Assignment 1
- Assignment 2 Report
- Final Examination
- Assignment 2 Presentation

**Grading**

At the end of the semester, you will receive a grade that reflects your achievement in the unit

- **Fail (F):** does not provide evidence of attainment of all learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; and incomplete, confusing or lacking
communication of ideas in ways that give little attention to the conventions of the discipline.

• **Pass (P):** provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; and communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes.

• **Credit (Cr):** provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; plus communication of ideas fluently and clearly in terms of the conventions of the discipline.

• **Distinction (D):** provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.

• **High Distinction (HD):** provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application.

In this unit, your final grade depends on your performance in each part of the assessment. For each task, you receive a mark that combines your standard of performance regarding each learning outcome assessed by this task. Then the different component marks are added up to determine your total mark out of 100. Your grade then depends on this total mark and your overall standards of performance.

**In particular, in order to pass the unit, you must**

- Have performed satisfactorily in Assignments One and Two.
- Have attempted at least 2 out of the 4 iLearn quizzes.
- Have satisfactory performance in the final examination.

This means that you may fail the unit if you do not submit satisfactory submissions for the assignments, do not attempt the quizzes or do not perform satisfactorily in the exam.

**Department of Computing expectations are that students have to perform satisfactorily in the final exam as well as in their internal work/assignments.**
Obtaining a grade higher than a Pass (P) in this unit will require a student to obtain (in addition to the above):

- the required total number of marks (Credit - 65, Distinction - 75, High Distinction - 85).

**Standards**

**Staff-Student Liaison Committee**

The Department has established a Staff-Student Liaison Committee at each level (100, 200, 300) to provide all students studying a Computing unit the opportunity to discuss related issues or problems with both students and staff.

The committee meets three times during the semester. For each meeting, an agenda is issued and minutes are taken. These are posted on the web at [http://www.comp.mq.edu.au/undergrad/info/liaison/300-level/](http://www.comp.mq.edu.au/undergrad/info/liaison/300-level/)

If you have exhausted all other avenues, then you should consult the Director of Teaching (Dr. Steve Cassidy) or the Head of Department (Prof. Bernard Mans). You are entitled to have your concerns raised, discussed and resolved.

**Assessment policy**

If you cannot complete a piece of work please see the convenor before the due date. Check also the special consideration policy. A more detailed description of each task is given below.

**Assessment tasks explained**

As the table under assessment tasks indicates, there will be 7 assessment tasks.

- Four iLearn multiple choice quizzes
- One main individual assignment.
- One group assignment - individually moderated
- A presentation (in Session 12) on the group assignment. Attendance at the presentation is compulsory. This presentation is marked individually.
- One final examination.

See the Grading section for information on grades and performance criteria.

All assignments and quizzes should be completed or submitted via the online system at [http://learn.mq.edu.au/](http://learn.mq.edu.au/) by the time specified in the assignment description.

All work submitted should be readable and well presented.

Late work will be accepted with a penalty of 10% of the marks for the assignment per day, or part day, submitted late. Hence, an assignment submitted four and a half days late will get at most half the marks. If you cannot submit on time because of illness or other circumstances, please contact the lecturer before the due date.
Final Examination

For this unit, a final examination is fully appropriate to test learning and knowledge of all learning outcomes. In particular, it allows for accurate reflection of the degree of understanding of learning outcomes LO2, LO3 and LO4.

The final examination accounts for 40% of the final mark. The three hour exam will consist of 180 marks and include a series of short answer questions based on theory from the textbook and application from workshops and given scenarios.

It is a mandatory requirement that students achieve a satisfactory mark in the final examination in order to be able to pass the unit.

Regarding the examination process, note that

• the expected date for the examination for this unit is Tuesday, 27th January.

• you are expected to present yourself for examination at the time and place designated in the University Examination Timetable

• no early examinations for individuals or groups of students will be set. All students are expected to ensure that they are available until the end of the teaching semester, that is the final day of the official examination period

• the only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Special Consideration.

Standards

Four standards, namely HD, D, CR, P summarize as many different levels of achievement. Each standard is precisely defined to help students know what kind of performance is expected to deserve a certain mark. The standards corresponding to the learning outcomes of this unit are given below:
