<tr>
<td>This unit provides students with experience undertaking applied or policy related research as part of a program of working within a research team or project in the field. Through on-campus workshops and a period of practical internship of approximately three weeks, students learn first-hand about social research and gain valuable experience undertaking social inquiry. Students should have completed at least one research methods unit prior to undertaking this unit, and enrol at least three months prior to the relevant study period in order to allow adequate preparation time. Students who enrol after teaching begins will not be guaranteed a place.</td>
</tr>

# Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/](http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/)

# Learning Outcomes

1. Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.
2. Engage professionally in an organisation through a social, quality assurance, or policy related research project. Demonstrate critically reflective practice on the experience of the work placement and the research process. Produce a critically reflective account of the work experience.

3. Demonstrate decision-making skills, creativity, and independence to make informed judgements in relation to the research project.

4. Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.

5. Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

**Project Management Plan**

Due: see description

Weighting: 20%

Produce a Project Management Plan (PMP) within the first 20 hours of placement. The PMP should have a title, should state the background, scope and purpose of the project, a detailed schedule of tasks to be completed, a plan for monitoring the project, an identification of stakeholders and an identification of risks and issues. Detailed guidelines for this assignment as well as a rubric stating the assessment criteria will be available on iLearn.

This Assessment Task relates to the following Learning Outcomes:

- Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.
• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.

Engagement

Due: ongoing
Weighting: 20%

Engagement throughout the semester will be assessed based on the a) Class attendance and associated tasks b) Participation during workshops and online discussions c) Presentation to class and partners in workshop 4

This Assessment Task relates to the following Learning Outcomes:
• Engage professionally in an organisation through a social, quality assurance, or policy related research project. Demonstrate critically reflective practice on the experience of the work placement and the research process. Produce a critically reflective account of the work experience.
• Demonstrate decision-making skills, creativity, and independence to make informed judgements in relation to the research project.
• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.
• Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

Supervisor's feedback report

Due: n/a
Weighting: 20%

Your workplace supervisor will be requested to complete a form at the end of your placement to provide detailed feedback on your performance.

This Assessment Task relates to the following Learning Outcomes:
• Engage professionally in an organisation through a social, quality assurance, or policy related research project. Demonstrate critically reflective practice on the experience of the work placement and the research process. Produce a critically reflective account of the work experience.
• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.
• Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

Final Report
Due: 12 June 2015
Weighting: 40%

The final assignment will consist of a report on the internship which will include a section with information on your organisation and project, a section with examples of work completed and a final section reflecting on the experience. The report must be submitted via turnitin. Detailed guidelines for this assignment as well as a rubric stating the assessment criteria will be available on iLearn.

This Assessment Task relates to the following Learning Outcomes:
• Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.
• Demonstrate decision-making skills, creativity, and independence to make informed judgements in relation to the research project.
• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.
• Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

Delivery and Resources

Unit Requirements
The unit has an academic component (delivered through 5 workshops) and a practical component (students' research work for an organisation)

For the academic component students will be required to:
• Submit the required assessment tasks in a timely manner.
• Complete all the required readings for the unit.
• Contribute to online discussions and activities.
For the practical component students will be required to:

- Define a work schedule with their host supervisors and commit to it.
- Work on a research project according to the research plan they discuss with their supervisors.
- Submit a final output of the research project to their organisations.

Assignment Submission and return of marked work

The Project Management Plan and Final Report are to be submitted via the Turnitin function inside the ilearn site. Likewise, marked work will be returned to students electronically via ilearn. Grademark will be used to mark students’ work.

Online forum discussions will be rated within each forum. Students will get a mark over 100 for each posting and can refer to the relevant rubric (Participation rubric) to understand why they received that rating.

Late submissions, Special Consideration and Extensions

Please email the unit convenor if you find yourself unable to meet the submission dates for assessments.

For all written assessment tasks, the Sociology Department applies the following penalties for late work (without an extension):

5% for the first day, then 1% for each subsequent day late.

Online forum postings that are submitted later than 2 days after the deadline will not be considered. The same penalties for late work specified above will apply.

Technology

SOC 849 iLearn Site. Learning and Teaching resources, assessment guidelines, and links to individual learning modules will be on SOC301’s ilearn page. You will also use the discussion boards to keep in touch with other students and share your experiences of your internship placement.

Academic Honesty Policy

Academic honesty is an integral part of the core values and principles contained in the Macquarie University Ethics Statement (http://www.mq.edu.au/ethics/ethic-statement-final.html). Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- All academic work claimed as original is the work of the author making the claim.
- All academic collaborations are acknowledged.
- Academic work is not falsified in any way
- When the ideas of others are used, these ideas are acknowledged appropriately.
The link below has more details about the policy, procedure and schedule of penalties that will apply to breaches of the Academic Honesty policy.

**University Grading Policy**

The grade a student receives will signify their overall performance in meeting the learning outcomes of a unit of study. Grades will not be awarded by reference to the achievement of other students nor allocated to fit a predetermined distribution. In determining a grade, due weight will be given to the learning outcomes and level of a unit (i.e. 100, 200, 300, 800 etc). Graded units will use the following grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>HD</td>
<td>High Distinction</td>
<td>85-100</td>
</tr>
<tr>
<td>D</td>
<td>Distinction</td>
<td>75-84</td>
</tr>
<tr>
<td>Cr</td>
<td>Credit</td>
<td>65-74</td>
</tr>
<tr>
<td>P</td>
<td>Pass</td>
<td>50-64</td>
</tr>
<tr>
<td>F</td>
<td>Fail</td>
<td>0-49</td>
</tr>
</tbody>
</table>

**REQUIRED READINGS**

The works listed below are required for specific workshops and online forum contributions. All readings will be available through e-Reserve.

RECOMMENDED READINGS

The following readings will enhance your understanding of the topics that underpin this unit. Except for the first resource listed which will be made available on iLearn, all readings can be obtained via e-Reserve.

Unit Schedule

For this unit you will be working between 100 and 150 hours for an organisation. Some students will be based at the host organisations, others will be able to complete part or most of their work from home or campus.

The internship is supported by 5 compulsory on-campus two-hour workshops (Weeks 9-11, 22-23). This component of the internship is as important as the professional work-based component.

There are two workshops you can choose from, Thursdays 9-11 AM or Fridays 2-6 PM. It doesn't matter if you already registered for one or the other, you can come to the one that suits you the most, and this may vary from workshop to workshop. For example, you can come to the 9 AM Thursday slot for workshop 1 and to the 2 PM Friday slot for workshop 2. I will ask you to sign in for each workshop beforehand so that I know who will be coming. A maximum of 25 students will be admitted in each workshop. The dates, times and locations listed below.
THU 9-11 AM WORKSHOPS: C5C209 Tutorial Room
FRI 2-4 PM WORKSHOPS: W6B357 201 Meeting Room

Policies and Procedures
Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

**Results**

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

**Learning Skills**

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at ask.mq.edu.au

**Equity Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

**IT Help**

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.
Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcome

- Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.

Assessment tasks

- Project Management Plan
- Supervisor’s feedback report
- Final Report

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.
- Demonstrate decision-making skills, creativity, and independence to make informed judgements in relation to the research project.

Assessment tasks

- Project Management Plan
- Final Report
PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

• Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.

• Demonstrate decision-making skills, creativity, and independence to make informed judgements in relation to the research project.

• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.

• Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

• Employ and critically assess knowledge and research methodologies learned in other units (SOC830/SOC831) to a real work scenario. Produce a report that shows your ability to appraise, analyse, interpret, justify and evaluate the information handled during the internship. Manage a research project following project management guidelines, and show problem solving skills during the life of the project.

• Engage professionally in an organisation through a social, quality assurance, or policy related research project. Demonstrate critically reflective practice on the experience of
the work placement and the research process. Produce a critically reflective account of
the work experience.
• Demonstrate decision-making skills, creativity, and independence to make informed
judgements in relation to the research project.

Assessment tasks
• Project Management Plan
• Final Report

PG - Effective Communication
Our postgraduates will be able to communicate effectively and convey their views to different
social, cultural, and professional audiences. They will be able to use a variety of technologically
supported media to communicate with empathy using a range of written, spoken or visual
formats.

This graduate capability is supported by:

Learning outcomes
• Employ and critically assess knowledge and research methodologies learned in other
units (SOC830/SOC831) to a real work scenario. Produce a report that shows your
ability to appraise, analyse, interpret, justify and evaluate the information handled during
the internship. Manage a research project following project management guidelines, and
show problem solving skills during the life of the project.
• Engage professionally in an organisation through a social, quality assurance, or policy
related research project. Demonstrate critically reflective practice on the experience of
the work placement and the research process. Produce a critically reflective account of
the work experience.

Assessment tasks
• Project Management Plan
• Engagement
• Final Report

PG - Engaged and Responsible, Active and Ethical Citizens
Our postgraduates will be ethically aware and capable of confident transformative action in
relation to their professional responsibilities and the wider community. They will have a sense of
connectedness with others and country and have a sense of mutual obligation. They will be able
to appreciate the impact of their professional roles for social justice and inclusion related to
national and global issues

This graduate capability is supported by:
Learning outcomes

• Engage professionally in an organisation through a social, quality assurance, or policy related research project. Demonstrate critically reflective practice on the experience of the work placement and the research process. Produce a critically reflective account of the work experience.

• Appraise ethical research practices and ethical conduct at the workplace. Engage in ethical practices during the internship.

• Assess how current ethical, social and environmental challenges present themselves at the workplace, and demonstrate through your work how you can contribute towards these.

Assessment tasks

• Engagement

• Supervisor's feedback report
