Unit description
This unit explores recent developments in educational psychology and child development and examines links to teaching and learning and other relevant workplace learning contexts. The seminars explore topical research findings in several areas such as the development of motivation and engagement in students, student social interactions and bullying, and the psychological theories behind common instructional approaches. The learning tasks will develop skills in understanding approaches to research and the way in which research problems are identified, described and investigated in this discipline.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Acquire a coherent and advanced knowledge of the principles and concepts within the discipline area of educational psychology particularly selected current issues and advancements in the field
2. Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
3. Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
4. Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

### Discussion Participation

**Due:** Weekly  
**Weighting:** 10%

Discussion responses to weekly topic questions, engagement and contribution to the peer discussion group, value-adding and building understanding of topics through communication with peers.

This Assessment Task relates to the following Learning Outcomes:
- Acquire a coherent and advanced knowledge of the principles and concepts within the discipline area of educational psychology particularly selected current issues and advancements in the field
- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.
Reading Blogs
Due: Various
Weighting: 30%
Three critical reflections on readings valued at 10% each

This Assessment Task relates to the following Learning Outcomes:

- Acquire a coherent and advanced knowledge of the principles and concepts within the discipline area of educational psychology particularly selected current issues and advancements in the field
- Demonstrate an advanced knowledge of research principles and methods in the discipline area of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

Synopsis
Due: March 30th
Weighting: 10%
Identify an educational psychology principle or construct for further research and methodological investigation and evidence of an initial literature search.

This Assessment Task relates to the following Learning Outcomes:

- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

Independent Study Topic Paper
Due: May 29th
Weighting: 40%
A literature and methodological review and report of independent study findings
This Assessment Task relates to the following Learning Outcomes:

- Acquire a coherent and advanced knowledge of the principles and concepts within the discipline area of educational psychology particularly selected current issues and advancements in the field
- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

**Independent Study Presentation**

Due: **Weeks 12-13**  
Weighting: **10%**

A brief oral/online presentation (with slides or other materials to support presentation) based on the findings of your independent study topic investigation. Peer assessed and Convenor assessed.

This Assessment Task relates to the following Learning Outcomes:

- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

**Delivery and Resources**

This unit contains seminars as well as an independent study periods which require you to work independently and access the iLearn website to participate in the unit.

**This unit is offered in Online mode and Internal Seminars** are held on **Tuesdays from 5-7pm.** Please check the timetable for specific room location.

*Internal classes may be subject to sufficient numbers of students electing this option.*

**Independent study periods** will include online activities to complete on a regular basis. Please check the iLearn website and your email for regular updates.
WEBSITE

The unit webpage can be found at http://ilearn.mq.edu.au. Students will need to use their student username and password to log in and then choose EDCN811 from their My Online Units menu. Please note if you have problems accessing the website or any ICT related problems please call the IT Services help desk.

Unit Schedule

This unit commences in Week 2 of Semester 1. This is due to the staggered offerings of BPhil units to ensure students can choose a number of options in any semester with no clashes of offerings.

Seminars: The unit will comprise a number of seminars which will include a recorded 'lecture' component (uploaded to iLearn) and associated activities which include assigned readings, activities and discussion tasks posted online or completed in face to face classes.

Independent online activities: A major component of this unit is the completion of an independent study project and appropriate time is embedded in weekly activities to support independent learning time.

Synopsis
An early formative assessment task

Research Paper
An independent study topic report

Presentation
A report on independent study topic findings.
Policies and Procedures
Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Code of Conduct
Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

Results
Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Student Support
Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

Learning Skills
Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au
Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help/.

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
PG - Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Acquire a coherent and advanced knowledge of the principles and concepts within the discipline area of educational psychology particularly selected current issues and advancements in the field
- Demonstrate an advanced knowledge of research principles and methods in the discipline area of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

Assessment tasks

- Discussion Participation
- Reading Blogs
- Synopsis
- Independent Study Topic Paper
- Independent Study Presentation
PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcome**
- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology

**Assessment tasks**
- Reading Blogs
- Independent Study Topic Paper
- Independent Study Presentation

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

**Learning outcomes**
- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

**Assessment tasks**
- Discussion Participation
- Reading Blogs
- Synopsis
PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcomes**

- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
- Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
- Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

**Assessment tasks**

- Discussion Participation
- Reading Blogs
- Synopsis
- Independent Study Topic Paper
- Independent Study Presentation

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues.

This graduate capability is supported by:

**Learning outcomes**

- Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
• Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

Assessment tasks

• Discussion Participation
• Reading Blogs
• Synopsis
• Independent Study Topic Paper
• Independent Study Presentation

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

• Demonstrate an advanced knowledge of research principles and methods in the discipline are of educational psychology
• Think critically and make informed and logical judgments of the arguments of others to arrive at reasoned and meaningful arguments and positions, and formulate and apply ideas to new contexts particularly your individually identified research topic.
• Develop a high level of oral, written, and technological communication skills, within the discipline of educational psychology including an ability to discuss educational problems with peers and present information in an academic and professional manner.

Assessment tasks

• Discussion Participation
• Reading Blogs
• Synopsis
• Independent Study Topic Paper
• Independent Study Presentation

Changes from Previous Offering

This unit is being offered in 100% online study mode for the first time.
Changes since First Published
