Unit description

In spite of the rapid spread of globalisation and the cross-border interaction of non-governmental actors, international relations are still dominated by states. The states are military organisations structurally geared to resolve conflicts by the use of organised violence, ie their military. Apart from states, other groups – both clandestine terrorist groups and mass political movements – use organised violence in the international arena. This unit will address the question: what conflicts in the international area are most likely to lead to violence? In other words, what is so attractive about violence as a means of conflict-resolution? In an attempt to answer these questions, the unit will examine theoretical approaches to the problem of violence in international conflicts as well as different case studies of interstate warfare (World War II, Iran-Iraq war), international terrorism (Al-Qaeda, PLO) military and humanitarian intervention in civil wars and secessionist conflict (Kosovo, Rwanda, Afghanistan).

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

an understanding of important recent cases of use of violence in war

an understanding of recent theories of war in international relations and a capacity to apply these theories to particular cases

a capacity to critically assess the ends and means of the use of violence in international relations

an ability to undertake independent research in this field

a capacity to communicate effectively in both written work and oral presentations. This involves being able to identify and organise knowledge in the field and to be able to formulate persuasive, coherent, and critical arguments

an ability to work collaboratively with one's peers on common projects in this field

## General Assessment Information

STUDENTS HAVE TO PASS ALL FOUR ASSESSMENTS IN ORDER TO PASS THE UNIT.

Research essay is the most challenging assessment in the unit and those students who have inadequate essay writing skills should seek support for their writing skills. The University offers a wide variety of academic writing workshops both for undergraduates and postgraduates as well as other types of support in this area (see under Student Support, Policies and Procedures below). You are strongly recommended to take those workshops, in particular if you are not a native speaker of English.

Students who have inadequate writing skills in English are likely to fail in this unit.

## Assessment Tasks

Name	Weighting	Due
<a href="#"><u>Short paper</u></a>	10%	27 March
<a href="#"><u>Online discussion</u></a>	10%	throughout the semester
<a href="#"><u>Research essay</u></a>	40%	11 May 2013
<a href="#"><u>Examination</u></a>	40%	to be set by the Registrar

## Short paper

Due: **27 March**

Weighting: **10%**

The paper, not exceeding 900 words (3 typed pages), will discuss **one** of the three set questions which will be posted on the unit web page 3 weeks before the due date. These questions will deal with the issues discussed in lectures and readings in the first four weeks of the unit. The aim of this paper is to test the comprehension of external students and their engagement with the unit. It should also provide students with some feedback on their work and thus enable them to improve their performance in the research essay.

A student would have to pass this assessment task in order to proceed with the unit.

Students should upload the paper via the Turnitin facility on the unit webpage on due date.

On successful completion you will be able to:

- an understanding of important recent cases of use of violence in war
- an understanding of recent theories of war in international relations and a capacity to apply these theories to particular cases
- a capacity to critically assess the ends and means of the use of violence in international relations
- an ability to undertake independent research in this field
- a capacity to communicate effectively in both written work and oral presentations. This involves being able to identify and organise knowledge in the field and to be able to formulate persuasive, coherent, and critical arguments

## Online discussion

Due: **throughout the semester**

Weighting: **10%**

The online discussion should to some extent replace the tutorial discussions.

The unit convenor will post one question per week on the weekly external students discussion board (separate from the general discussion board). All external students are expected to answer at least four of these questions by posting their answers. The answers should be based on readings and/or lectures. Each answer is worth 2.5 points. The students can get the total of 10 points (marks) for the four answers they provide.

Students are encouraged to post more than 4 required answers. They are also encouraged to engage in discussion on these topics in the weekly discussion board. But no more than 10 points can be gained

through the only discussion.

On successful completion you will be able to:

- an understanding of recent theories of war in international relations and a capacity to apply these theories to particular cases
- an ability to work collaboratively with one's peers on common projects in this field

## Research essay

Due: **11 May 2013**

Weighting: **40%**

The research essay needs to be written in reply to ONE of the essay questions which will be posted on the unit web page.

Length: 2500 words (**excluding** footnotes and bibliographies). The essay should be based on research using secondary and/or primary sources. For this purpose it is highly recommended that you read beyond that required within the required readings and the recommended text.

The essay **has** to follow the essay writing guide posted on the unit webpage. In addition, you should make use of any writing workshops and resources available through the University Student support.

The essay will be marked according to the Marking Criteria posted on the Unit webpage.

The essay needs to be uploaded by due date using the Turnitin facility on the unit web page.

On successful completion you will be able to:

- an understanding of important recent cases of use of violence in war
- an understanding of recent theories of war in international relations and a capacity to apply these theories to particular cases
- a capacity to critically assess the ends and means of the use of violence in international relations
- an ability to undertake independent research in this field
- a capacity to communicate effectively in both written work and oral presentations. This involves being able to identify and organise knowledge in the field and to be able to formulate persuasive, coherent, and critical arguments

## Examination

Due: **to be set by the Registrar**

Weighting: **40%**

The examination will cover all the topics covered in this unit. The answers will be given in the form of short essays. The aim is to test comprehension of the principal topics and the student's

ability to apply the concepts introduced in the course to the issues discussed in the course. The examination aims to test **not** the ability to memorize dates and events (only a limited memory of those is needed) but the ability to offer a coherent account of theoretical approaches and relevant case-studies. The questions will be based on the readings and lectures only.

For **external** students: A take-home examination will be made available on the unit website on the day of the formal examination for internal students. The take home examination will have to be completed and posted using the Turnitin facility within 24 hours of the original posting of the take home examination (time allowance will be made for students taking the exam overseas to compensate for different time zones).

On successful completion you will be able to:

- an understanding of important recent cases of use of violence in war
- a capacity to critically assess the ends and means of the use of violence in international relations
- a capacity to communicate effectively in both written work and oral presentations. This involves being able to identify and organise knowledge in the field and to be able to formulate persuasive, coherent, and critical arguments

## Delivery and Resources

There is a two hour lecture and one hour tutorial in this unit. Online discussion replaces to some extent tutorials for external students.

The lecture powepoints will be available on the unit's webpage a day before the lecture.

Lectures are taped and are accessible via iLearn to both internal and external students. *Three lectures: week 2, 11 and 12 are flipped - you will watch pre-recorded videos and discuss their content online (internal students discuss these in class).*

Each weekly topic will have a required reading. The list of readings will be posted on the unit webpage. The readings will be available at the Reserve or E-reserve of the Library.

There is no single textbook. The book that is used most often is in the required readings is:

*Leashing the Dogs of War: Conflict Management in the Divided World.* Edited by Chester A. Crocker, Fen Osler Hampson and Pamela Aall. United States Institute of Peace Press, 2008.

A separate list of sources for the research essay will be posted on the unit webpage.

## Unit Schedule

Here is a list of weekly topics. Each of those topics has required readings which will be posted on the unit web page. You are asked to read the required texts before the class.

Classes in week 2, 11 and 12 will be flipped: this means that you will watch videos at home and read the required material (including the written lecture in week 11) and then we shall have an

online discussion regarding what you have seen and read.
