Unit description
From the printing press to citizen journalism, from the telegraph to online gaming; how has
digital media evolved to its present-day state? This unit introduces students to contemporary
digital media including web and computer technologies, interactive media and games, image
and video, and sound, providing a contextual look at their existence. Students will think
critically about how technologies are shaped, and how they shape us, as well as considering
the histories and uses of various platforms. Teaching is geared towards forming a
foundational knowledge of media theory, as well as developing crucial analytical skills.
Additionally, students will undertake self-directed and collaborative projects involving hands-
on digital media production. The unit is interdisciplinary in scope, with an emphasis on
innovative digital media forms and practices today.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are

Learning Outcomes

1. Demonstrate an understanding of how technology interacts with media practices and
   cultures
2. Analyse and critique various contemporary media with regard to media theory and key
   precedents
3. Assess the historical and technological development of present-day media forms
4. Formulate arguments and creative works based on appropriate research and incorporating academic references

5. Develop academic communications skills through use of online learning systems

**Assessment Tasks**

**iLearn Quiz 1**

Due: **11:59pm Sunday, Week 5**

Weighting: **15%**

Students will undertake a timed multiple-choice quiz administered via iLearn. The content of the quiz will relate to readings, lectures, and tutorial discussions undertaken thus far in the unit. The quiz will be taken individually and will require students to be up-to-date on MAS110 material, including lectures and readings.

This assignment should be completed in a timely fashion and the quiz will close automatically at the stated deadline. Late attempts will only be allowed if accompanied by a medical certificate or other evidence of disruption to studies.

**Assessment criteria**

• Number of multiple-choice questions answered correctly

This Assessment Task relates to the following Learning Outcomes:

• Demonstrate an understanding of how technology interacts with media practices and cultures

• Analyse and critique various contemporary media with regard to media theory and key precedents

• Assess the historical and technological development of present-day media forms

**iLearn Quiz 2**

Due: **11:59pm Sunday, Week 12**

Weighting: **15%**
Students will undertake a timed short-answer quiz administered via iLearn. The content of this quiz will relate to readings, lectures, and tutorial discussions undertaken from Weeks 6–12. The quiz will be taken individually and will require students to be up-to-date on MAS110 material, including both readings and lectures.

This assignment should be completed in a timely fashion and the quiz will close automatically at the stated deadline. Late attempts will only be allowed if accompanied by a medical certificate or other evidence of disruption to studies.

**Assessment Criteria**

- Relation of responses to theories and examples from lectures and readings
- Evidence of understanding key unit content
- Clarity and writing style of response

This Assessment Task relates to the following Learning Outcomes:

- Demonstrate an understanding of how technology interacts with media practices and cultures
- Analyse and critique various contemporary media with regard to media theory and key precedents
- Assess the historical and technological development of present-day media forms
- Formulate arguments and creative works based on appropriate research and incorporating academic references

**Referencing Task**

Due: **11:59pm Friday 10th April**
Weighting: **20%**

Students will complete a referencing task to demonstrate they are familiar with academic referencing practices.

There are two parts to this assignment:

**Part 1**

Pick a topic or subject area to research which relates explicitly to one of the areas we have covered so far in MAS110 (e.g. the alphabet, printing press, telegraph/telephone, photography, recorded sound or broadcasting). Find three academic sources that you could use to write about this topic. For information on what counts as an academic source, see the 'What is an academic source' document on iLearn.

For each source, write one sentence on why it is an academic source.

For each source, write one or two sentences on why it is a useful source for your chosen topic using a quote from the text, with correct in-text referencing.

For each source provide an end-of-text (reference list) APA styled reference.
See the example below.

**NOTE:** Do not choose one of the set MAS110 readings, or the example provided below, as an academic source for this task.

**Part 2**

1. In your own words write a **one or two** sentence explanation of what Creative Commons is. It doesn’t have to be detailed it just has to clearly demonstrate you understand the concept.

2. Find **three** pieces of Creative Commons material that relate to your topic (images, songs, videos, etc.). This guide will help you find them: [http://creativecommons.org.au/learn/fact-sheets/find-cc-materials/](http://creativecommons.org.au/learn/fact-sheets/find-cc-materials/)

Correctly reference/attribute your three sources using the guide on this page: [http://wiki.creativecommons.org/Best_practices_for_attribution](http://wiki.creativecommons.org/Best_practices_for_attribution)

Students should submit their response (Part 1 and Part 2) in a single document via Turnitin. This document should include the student number, tutors name and tutorial time at the top of the document.

---

**Examples:**

**Part 1**

**Article:** James Coyle: ‘To Buy or to Pirate: The Matrix of Music Consumers’

**Topic:** The Internet and its effect on the consumption of music (Recorded Sound).

**Why it is an academic source:** This article is an academic source as it is published in the *Journal of Business Research*, a peer-reviewed journal.

**Why it is useful:** It is of relevance to this topic as it discusses how pirated music has become a recent issue, as the development of MP3 files, as opposed to CDs, enable an individual to "download just one song" (Coyle 2009, p. 1033) online, without realising the full effects this has on the music industry. Coyle discusses how pirating MP3 files has become a new way that listeners consume music, instead of purchasing it.

**Part 2**

"*Creative Commons 10th Birthday Celebration San Francisco*" by tvol is licensed under **CC BY 2.0**
Remember you need three sources each for both Part 1 and Part 2. Part 2 also needs the one-sentence definition of Creative Commons.

Late assignments, unless the student has been approved for special consideration, will be penalised at a rate of 10% per day.

**Assessment Criteria**

- Evidence of understanding of what constitutes an academic source
- Evidence of understanding of what constitutes Creative Commons
- Ability to relate chosen sources to unit themes
- Correct APA referencing and Creative Common attribution
- Clarity and writing style of response

This Assessment Task relates to the following Learning Outcomes:

- Demonstrate an understanding of how technology interacts with media practices and cultures
- Formulate arguments and creative works based on appropriate research and incorporating academic references
- Develop academic communications skills through use of online learning systems

**Major Assignment**

**Due:** 5pm Friday, Week 13  
**Weighting:** 40%

Students will undertake a creative research project relating an academic theory of their choice to a technology/case study of their choice.

They will critically analyse the selected technology/case study using the chosen theory. This will be discussed further in tutorials.

Students should pick a specific technology/case study, not a broad technological category or format (e.g. Do not analyse the printing press: look at Gutenberg’s movable type printing press. Do not choose the Internet; pick a specific Internet technology such as the BitTorrent protocol or streaming video).

Projects must demonstrate an application of academic theory, and an ability to undertake critical analysis. They must show an understanding of key concepts discussed in MAS110, and build
upon ideas from the required readings, as well as showing explicit evidence of self-directed academic research via in-text referencing and a reference list.

Students are to choose one of the following formats in which to submit, and adhere to these length requirements as a guide, +/- 20%:

1. Video (uploaded to YouTube): 3 minutes (e.g. photo essay, self-shot footage, animation)
2. Image/text: 750 words plus images (e.g. webcomic, illustrated blogpost)
3. Text: 1000 words (e.g. blogpost)
4. Hypertext/interactive: 500 words plus functionality
5. Spoken/music/podcast (uploaded to SoundCloud/YouTube): 3 minutes
6. Other platforms: seek permission from tutor and negotiate an appropriate length.

NB. You may not use any audiovisual materials in your creative project to which you do not have the appropriate rights (e.g. embedding someone else's YouTube video in your YouTube video), as this breaches the policies of media services including YouTube, Vimeo, and SoundCloud. You should use self-created material, or (appropriately cited and licensed) Creative Commons material. If the service detects that you are using copyrighted material in your creative work, it may remove your work, thus preventing your tutor from marking it. **Ensuring that your work does not breach copyright and these websites' terms and conditions is your own responsibility.**

The creative work will additionally be accompanied by a 500-word written rationale, detailing the process of making the creative work. This rationale should include:

1. A brief academic justification of the chosen technology/case study topic
2. An account of the (academic) research used
3. A reflection of the creative process and use of technologies, including an objective critique of the creative affordances of the chosen presentation technology, and challenges faced / problems solved (if applicable)
4. In-text and end-of-text references
5. A hyperlink (URL) to the creative work. The creative work must be accessible, or a penalty will be incurred, potentially resulting an a mark of zero.
6. A full transcript of the creative work (e.g. podcast script, blog text, etc.)

This major assignment should demonstrate sustained effort. All technical (i.e. all non-iLearn) aspects of the creative project are students’ own responsibility, and you should be confident that you are competent enough to submit.

Late assignments, unless accompanied by medical certification or an application for special consideration, will be penalised at a rate of 10% per day.

**Assessment Criteria:**
This Assessment Task relates to the following Learning Outcomes:

- Demonstrate an understanding of how technology interacts with media practices and cultures
- Analyse and critique various contemporary media with regard to media theory and key precedents
- Assess the historical and technological development of present-day media forms
- Formulate arguments and creative works based on appropriate research and incorporating academic references
- Develop academic communications skills through use of online learning systems

In-class participation

Due: Tutorials throughout semester
Weighting: 10%

The purpose of tutorials is for students to discuss the weekly topics and readings to enrich their understanding. All students are required to participate in tutorial discussion. This means arriving at tutorials having completed set readings and being prepared to discuss issues arising. The format of tutorials is based around student-led discussions. Your responses to your peers will form the basis of your participation mark.

Attendance is not the same as participation. Students receive no marks for simply attending tutorials.

Missing more than two tutorials without medical certification or application for special consideration will result in a 50% deduction of your tutorial participation mark (i.e. a Fail grade).

Assessment Criteria:

- Evidence of engagement with the readings
- Evidence of engagement with lecture material
- Ability to relate key theoretical ideas to previous readings and/or independent research
- Willingness to contribute to class discussion by asking relevant questions, answering other students questions, treating other students with respect and behaving appropriately (e.g. not talking whilst tutor or other students talking)

This Assessment Task relates to the following Learning Outcomes:
• Demonstrate an understanding of how technology interacts with media practices and cultures
• Analyse and critique various contemporary media with regard to media theory and key precedents
• Assess the historical and technological development of present-day media forms
• Formulate arguments and creative works based on appropriate research and incorporating academic references

Delivery and Resources

Lectures: MAS110 lectures are ONLINE ONLY. There is no physical lecture. A number of Media lecturers contribute to MAS110, focusing on their respective areas of expertise. Students are expected to engage with lectures, take notes, and to actively relate lecture content to tutorial discussions, online participation, and assessments.

Tutorials: Tutorials begin in WEEK 1. Participation in tutorial activities and in-class exercises form an integral part of MAS110. Students are expected to arrive punctually and actively participate in class work. A mark is allocated for in-class participation in this unit and an roll will be taken at the beginning of each class. If students arrive over 15 minutes late for a tutorial or leave early, they will be deemed absent for that class.

Students should note that they are expected to attend all tutorials over the semester. Missing more than two tutorials will automatically result in a 50% penalty within the in-class Participation component. If missing a tutorial for serious reasons, medical certificates or Special Consideration documentation must be supplied to avoid this penalty.

Assessments: All assessments must be completed. If a student fails to complete an assessment they will severely compromise their ability to complete this unit. Penalties for late submission vary depending on the assessment; check ‘Assessment Tasks’ for details. If completing/submitting an assignment late for serious reasons, medical certificates or Special Consideration documentation must be supplied.

Special Consideration Policy: http://www.mq.edu.au/policy/docs/special_consideration/policy.html

Applying for Special Consideration: Students applying for Special Consideration for circumstances of three (3) consecutive days duration, within a study period, which (optionally) prevent completion of a formal examination must submit an on-line application with the Faculty of Arts. For an application to be valid, it must include a completed Application for Special Consideration form and all supporting documentation.

The online Special Consideration application is found at: http://www.arts.mq.edu.au/current_students/undergraduate/admin_central/special_consideration

Required and recommended texts and/or materials: All required readings for MAS110 are provided via e-Reserve or via iLearn. Any further recommended readings or material for each week will be listed on iLearn.
Technologies used: The iLearn site for MAS110 is accessible at: http://ilearn.mq.edu.au/. A computer and Internet access are required to complete assessments in MAS110. Basic computer skills (e.g., internet browsing) and skills in word processing are also a requirement.

Assessment Submission: All assignments for MAS110 will be completed/submitted online, via iLearn. Further details on submission will be explained in tutorials.

Return of marked work: During semester, marked work will be returned to students either online or in tutorials.

Examinations: There is no exam for MAS110.

Changes made to previous offerings: The structure and content of this unit has been updated to complement further Media offerings within the Department of Media, Music, Communication, and Cultural Studies. The unit examines disruptive technologies across different media forms and disciplines and aims to provide a critical perspective and foundation for diverse Media students.

Unit Schedule

Weekly topic schedule

Week 1 - Introduction
Week 2 - The Alphabet
Week 3 - The Printing Press
Week 4 - Telephony/Telegraph
Week 5 - Photography/Semiotics
Week 6 - Recorded Sound
Week 7 - Broadcasting
Week 8 - Moving Image
Week 9 – Computers
Week 10 - The Internet
Week 11 -Participation and Play
Week 12 - Mobility
Week 13 - Project week

Required readings (available via Library e-Reserve)

Alphabet

Printing Press

Conboy, Martin & Steel, John (2008), The Future of Newspapers, Journalism Studies 9:5, pp. 650–661

Hirst, Martin and Harrison, John (2007), Communication and New Media: from broadcast to narrowcast, Oxford University Press, Oxford, chapter 5: pp. 79–102

Telegraph/Telephony

Photography

Recorded sound

Broadcasting

The Moving Image
Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Additional information

MMCCS website https://www.mq.edu.au/about_us/faculties_and_departments/faculty_of_arts/department_of_media_music_communication_and_cultural_studies/

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

• Workshops
• StudyWise
• Academic Integrity Module for Students
• Ask a Learning Adviser

Student Enquiry Service

For all student enquiries, visit Student Connect at ask.mq.edu.au
Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help/. When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Discipline Specific Knowledge and Skills
Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

• Demonstrate an understanding of how technology interacts with media practices and cultures
• Analyse and critique various contemporary media with regard to media theory and key precedents
• Assess the historical and technological development of present-day media forms

Assessment tasks

• iLearn Quiz 1
• iLearn Quiz 2
• Referencing Task
• Major Assignment
• In-class participation

Critical, Analytical and Integrative Thinking
We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and
systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

**Learning outcomes**

- Demonstrate an understanding of how technology interacts with media practices and cultures
- Analyse and critique various contemporary media with regard to media theory and key precedents

**Assessment tasks**

- iLearn Quiz 1
- iLearn Quiz 2
- Referencing Task
- Major Assignment
- In-class participation

**Problem Solving and Research Capability**

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

**Learning outcome**

- Formulate arguments and creative works based on appropriate research and incorporating academic references

**Assessment tasks**

- iLearn Quiz 1
- iLearn Quiz 2
- Referencing Task
- Major Assignment
- In-class participation

**Creative and Innovative**

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.
This graduate capability is supported by:

**Learning outcomes**

- Analyse and critique various contemporary media with regard to media theory and key precedents
- Formulate arguments and creative works based on appropriate research and incorporating academic references

**Assessment tasks**

- Referencing Task
- Major Assignment
- In-class participation

**Effective Communication**

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

**Learning outcomes**

- Formulate arguments and creative works based on appropriate research and incorporating academic references
- Develop academic communications skills through use of online learning systems

**Assessment tasks**

- iLearn Quiz 2
- Referencing Task
- Major Assignment
- In-class participation

**Engaged and Ethical Local and Global citizens**

As local citizens our graduates will be aware of indigenous perspectives and of the nation’s historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:
Learning outcomes

- Assess the historical and technological development of present-day media forms
- Develop academic communications skills through use of online learning systems

Assessment task

- Referencing Task

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcome

- Develop academic communications skills through use of online learning systems

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- Develop academic communications skills through use of online learning systems

Assessment tasks

- Major Assignment
- In-class participation

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:
Learning outcomes

• Demonstrate an understanding of how technology interacts with media practices and cultures
• Analyse and critique various contemporary media with regard to media theory and key precedents
• Assess the historical and technological development of present-day media forms
• Formulate arguments and creative works based on appropriate research and incorporating academic references
• Develop academic communications skills through use of online learning systems

Assessment tasks

• Major Assignment
• In-class participation
