Unit description

This unit equips students to understand accounting as a useful tool for management decision making. Students develop an understanding of the principles of financial and management accounting from a user perspective. Topics include: the environment of accounting; recording business transactions; information on the income statement and balance sheet; analysis and interpretation of financial reports; budgeting; cost-volume-profit analysis; and financing a business. By the end of the unit students are able to explain the usefulness of financial and management accounting information and describe different types of accounting information for both internal and external users. Students develop graduate capabilities in a range of areas including critical analysis of accounting information, problem solving skills and written and oral communication skills.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

<u>Final Exmination</u>	50%	University exam period
<u>Assignment</u>	30%	In Week 11 tutorials
<u>Oral presentation</u>	10%	as rostered in tutorials

## Assessed Coursework

Due: **In tutorials**

Weighting: **10%**

Weekly homework will only be collected in registered tutorials. Emailed homework will not be collected.

Each submission is worth 1 mark, the best 10 contribute to the 10%.

Late submission will not be accepted. If necessary apply for Disruption to Studies with supporting documentation.

Homework will not be collected if your tutorial falls on a public holiday.

On successful completion you will be able to:

- Students will have acquired a body of theoretical and practical knowledge relevant to the topics set for this unit.
- Students will be able to integrate and apply the acquired body of knowledge for decision making and solving problems in business contexts.
- Students will have developed an awareness of the importance of sustainable business practices.

## Final Examination

Due: **University exam period**

Weighting: **50%**

This is a closed book exam. All topics covered in the session are examinable.

Further information and revision materials will be available in iLearn.

University rules and criteria for Disruption to Studies apply. The outcome of an approval for Disruption to Studies is a supplementary exam. The supplementary exam will be held in the scheduled period for FBE supplementary exams. Approved students must be available to sit for the supplementary exam in this period.

On successful completion you will be able to:

- Students will have acquired a body of theoretical and practical knowledge relevant to the topics set for this unit.
- Students will be able to integrate and apply the acquired body of knowledge for decision making and solving problems in business contexts.

## Assignment

Due: **In Week 11 tutorials**

Weighting: **30%**

This is a group assignment. A group mark will be given to each group based on the group's submission. There is a requirement to document the workload and contribution of each group member. Students are required to sign a document specifying individual member contribution towards the assignment. The unit coordinator reserves the right to moderate the marks of individual group members.

The assignment package will be available in iLearn in Week 4.

Due date: In Week 11 in the registered tutorial of the groups.

Penalty: Late submission will attract a deduction of 20% of the available mark per calendar day after the date of submission. Submission more than 5 days after the due date will result in a mark of zero.

There will be no extension for the due date.

On successful completion you will be able to:

- Students will have acquired a body of theoretical and practical knowledge relevant to the topics set for this unit.
- Students will be able to integrate and apply the acquired body of knowledge for decision making and solving problems in business contexts.
- Students will be able to communicate effectively with users from diverse business backgrounds.
- Students will have developed an awareness of the importance of sustainable business practices.

## Oral presentation

Due: **as rostered in tutorials**

Weighting: **10%**

Students will present in groups in their registered tutorials.

However, students will be assessed individually and an individual mark will be given to each presenter.

Further details will be available in iLearn in Week 4.

University rules and criteria for Disruption to Studies apply. Outcome of approval is oral presentation at another date.

On successful completion you will be able to:

- Students will be able to communicate effectively with users from diverse business backgrounds.

Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](http://ask.mq.edu.au).

## Academic Honesty

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty. Its fundamental principle is that all staff and students act with integrity in the creation, development, application and use of ideas and information. This means that:

- all academic work claimed as original is the work of the author making the claim
- all academic collaborations are acknowledged
- academic work is not falsified in any way
- when the ideas of others are used, these ideas are acknowledged appropriately.

Further information on the academic honesty can be found in the Macquarie University Academic Honesty Policy at [http://www.mq.edu.au/policy/docs/academic\\_honesty/policy.html](http://www.mq.edu.au/policy/docs/academic_honesty/policy.html)

## Graduate Capabilities

### Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

#### Learning outcomes

- Students will have acquired a body of theoretical and practical knowledge relevant to the topics set for this unit.
- Students will be able to integrate and apply the acquired body of knowledge for decision making and solving problems in business contexts.

#### Assessment tasks

- Assessed Coursework
- Final Exmination
- Assignment

### Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

#### Learning outcomes

- Students will have acquired a body of theoretical and practical knowledge relevant to the topics set for this unit.
- Students will be able to integrate and apply the acquired body of knowledge for decision making and solving problems in business contexts.

#### Assessment tasks

- Assessed Coursework
- Final Exmination

## Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

### Learning outcome

- Students will be able to communicate effectively with users from diverse business backgrounds.

### Assessment tasks

- Assignment
- Oral presentation

## Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

### Learning outcome

- Students will have developed an awareness of the importance of sustainable business practices.

### Assessment task

- Assignment

## Research & Practice and Global & Sustainability

This unit addresses global and sustainability issues in direct areas of study through learning materials, assessments and opportunities for academic discussion and debate. We promote sustainability by developing ability in students to research and locate information within the accounting discipline. We aim to provide students with opportunities to develop skills which will benefit them throughout their career.

The 30% written assignment assessment task titled “sourcing sustainable finance in a globally competitive market” provides invaluable learning experiences relating to these issues and concerns.
