Unit description
This unit is designed to support students in their transition to university by enabling them to understand and achieve standards of performance required in an academic environment. The unit provides a three-level focus which is initiated by facilitating the development of academic practices, behaviours and values. Secondly, it fosters a level of familiarity with the disciplinary language, texts and conventions used when studying in programs offered by the Faculty of Science. Finally, it raises an awareness of the impact of scientific knowledge and the role of scientists when they act to solve problems and implement innovations affecting contemporary society. Learning and assessment activities are designed to build the capacity for independent and collaborative approaches to learning. Students are guided to develop their capacity for reading, thinking and expressing ideas effectively and critically.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes
1. Read efficiently to gather specific information and ideas from discipline-specific sources.
2. Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
3. Analyse the purpose, language and features of academic, disciplinary and professional genres.
4. Critically evaluate information and ideas from academic, disciplinary and professional sources.
5. Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
6. Apply academic referencing conventions accurately and appropriately.
7. Apply reasoning to formulate and support a position or argument.
8. Plan and produce texts to reflect academic and disciplinary standards.
9. Engage in independent and collaborative learning activities.

General Assessment Information
For all but the oral presentation, you are expected to bring a completed first draft of the assignment to your tutorial, usually one week before the final submission is due. The draft will be peer-reviewed and edited in the tutorial, following which you have a week to re-write the assignment and produce a final copy for submission and marking.

Peer review will take place in groups, so you MUST bring a printed copy of your draft for each member of your group. Please note that it is not sufficient to bring an electronic copy of your draft, nor is it appropriate to bring an incomplete version.

You will need to submit your edited draft together with your final draft in order to have your assignment marked.

All assignments (except the oral presentation) need to be submitted to Turnitin using the link available on the ACSC100 iLearn website:

Assessment Tasks

<table>
<thead>

### Critical Summary

**Due:** 20.3.2015  
**Weighting:** 15%

Summary of an article

This Assessment Task relates to the following Learning Outcomes:

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Analyse the purpose, language and features of academic, disciplinary and professional genres.
- Critically evaluate information and ideas from academic, disciplinary and professional sources.
- Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
- Apply academic referencing conventions accurately and appropriately.

### Information report

**Due:** 24.4.2015  
**Weighting:** 20%

An information report for an academic audience outlining a major issue with regard to a topic of social concern, indicating potential areas of further research

This Assessment Task relates to the following Learning Outcomes:

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
• Analyse the purpose, language and features of academic, disciplinary and professional genres.
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Group Oral Presentation
Due: Week 9 tutorial
Weighting: 15%

Group oral presentation on scientific information regarding a social issue.

This Assessment Task relates to the following Learning Outcomes:
• Read efficiently to gather specific information and ideas from discipline-specific sources.
• Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
• Analyse the purpose, language and features of academic, disciplinary and professional genres.
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Brochure
Due: 22.5.2015
Weighting: 15%

An informative brochure presenting information from the report to a popular audience
This Assessment Task relates to the following Learning Outcomes:

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Engage in independent and collaborative learning activities.

**Research report**

Due: **5.6.2015**  
Weighting: **35%**

Formal report on research

This Assessment Task relates to the following Learning Outcomes:

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Analyse the purpose, language and features of academic, disciplinary and professional genres.
- Critically evaluate information and ideas from academic, disciplinary and professional sources.
- Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
- Apply academic referencing conventions accurately and appropriately.
- Apply reasoning to formulate and support a position or argument.
- Plan and produce texts to reflect academic and disciplinary standards.
- Engage in independent and collaborative learning activities.

**Delivery and Resources**

**Attendance:** ACSC100 incorporates weekly 2 hour lectures and 2 hour tutorials. Students need to attend a minimum of 80% of tutorials, and are strongly encouraged to attend all lectures, as these incorporate extensive student participation.

**Expectations:** Students are expected to carry out extensive reading and to bring draft copies of assignments to tutorials for evaluation, editing and feedback.

**iLearn and Echo:** Power point slides and lecture and tutorial worksheets will be posted on the iLearn site for ACSC100 (https://ilearn.mq.edu.au)
Lectures will be recorded on Echo.

### Expressing your voice and referring to the work of others

- What is voice?
- Distinguishing between your voice and the voice of others
- Using citation effectively
- Using reporting verbs
- Writing bibliographies and reference lists

### Writing reports

- Purpose and audience of information reports
- Report structure
- Integrating tabular evidence
- Writing data commentaries
- Synthesising information
- Deconstructing model report
- Peer-review of individual reports
- Tutor feedback on draft reports

### Draft Assignment 2:
- Report

Jean Brick
## Mid Semester break

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)
Results
Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Student Support
Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills
Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help/.

When using the University's IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
Discipline Specific Knowledge and Skills
Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.
This graduate capability is supported by:

**Learning outcomes**

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Analyse the purpose, language and features of academic, disciplinary and professional genres.
- Critically evaluate information and ideas from academic, disciplinary and professional sources.
- Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
- Apply academic referencing conventions accurately and appropriately.
- Apply reasoning to formulate and support a position or argument.
- Plan and produce texts to reflect academic and disciplinary standards.
- Engage in independent and collaborative learning activities.

**Assessment tasks**

- Critical Summary
- Information report
- Group Oral Presentation
- Research report

**Problem Solving and Research Capability**

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

**Learning outcomes**

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Analyse the purpose, language and features of academic, disciplinary and professional genres.
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Assessment tasks
• Information report
• Research report

Effective Communication
We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes
• Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Assessment tasks
• Critical Summary
• Information report
• Group Oral Presentation
• Brochure
• Research report
Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

**Learning outcomes**

- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
- Analyse the purpose, language and features of academic, disciplinary and professional genres.
- Critically evaluate information and ideas from academic, disciplinary and professional sources.
- Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
- Apply academic referencing conventions accurately and appropriately.
- Apply reasoning to formulate and support a position or argument.
- Plan and produce texts to reflect academic and disciplinary standards.
- Engage in independent and collaborative learning activities.

**Assessment tasks**

- Critical Summary
- Information report

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

**Learning outcomes**

- Read efficiently to gather specific information and ideas from discipline-specific sources.
- Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
• Analyse the purpose, language and features of academic, disciplinary and professional genres.
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Assessment tasks

• Critical Summary
• Information report

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

• Read efficiently to gather specific information and ideas from discipline-specific sources.
• Demonstrate an ability to interpret and apply concepts from sources used in the discipline.
• Analyse the purpose, language and features of academic, disciplinary and professional genres.
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.
Assessment tasks

• Critical Summary
• Information report
• Group Oral Presentation
• Research report

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply reasoning to formulate and support a position or argument.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Assessment task

• Group Oral Presentation

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Apply academic referencing conventions accurately and appropriately.
• Plan and produce texts to reflect academic and disciplinary standards.
• Engage in independent and collaborative learning activities.

Assessment tasks
• Critical Summary
• Information report
• Group Oral Presentation
• Brochure
• Research report

Socially and Environmentally Active and Responsible
We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes
• Critically evaluate information and ideas from academic, disciplinary and professional sources.
• Express ideas using appropriate language and structure for academic and professional purposes in written and/or oral texts.
• Engage in independent and collaborative learning activities.
