Prerequisites
Admission to MA in Education Studies or MEChild or PGDipEChild or PGCertEChild or MEd or MEdLead or PGDipEdLead or PGCertEdLead or PGDipEdS or PGCertEdS or MHEd or PGDipHEd or PGCertHEd or MSpecEd or PGDipSpecEd or PGCertSpEd or MTeach(Birth to Five Years) or GradCertEdS or GradCertHEd or GradCertClinEdSim or MTransInterPed or PGDipTransInterPed or MIndigenousEd or PGDipIndigenousEd or PGCertIndigenousEd or GradDiplIndigenousEd

Corequisites
Co-badged status

Unit description
Changes in society and community expectations inevitably bring new challenges to Higher Education. Take for example, the issues associated with globalisation and increasing student diversity, or the question of the need for ethical, socially responsible and creative graduates. Each of these challenges has implications for curriculum design and teaching practices. This unit will explore theory and research about learning and teaching in Higher Education in the context of these contemporary challenges. In particular the unit seeks to equip participants with the knowledge to better facilitate student learning and to evaluate current practice based on sound pedagogical principles and theories.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
2. explore and critique literature on Higher Education related to contemporary challenges 
3. investigate theoretical and practical questions related to curriculum design 
4. evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories 
5. devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues 
6. competently contribute to and demonstrate leadership of an online learning community; 
7. demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

**Article Appraisal**

Due: **March 22**  
Weighting: **15%**

Write a 1000 word appraisal of an article about to the purpose of higher education

This Assessment Task relates to the following Learning Outcomes:

- discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching 
- explore and critique literature on Higher Education related to contemporary challenges 
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

**Project Proposal**

Due: **April 22**  
Weighting: **0%**

Submit a project proposal for approval and discussion with your unit convenor
This Assessment Task relates to the following Learning Outcomes:

- investigate theoretical and practical questions related to curriculum design
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

**Presentation**

**Due:** May 9  
**Weighting:** 20%

Develop and present an oral or online presentation to the group about your evaluation strategy and receive peer feedback to inform your final report.

This Assessment Task relates to the following Learning Outcomes:

- explore and critique literature on Higher Education related to contemporary challenges
- investigate theoretical and practical questions related to curriculum design
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

**Online Learning Community**

**Due:** May 27  
**Weighting:** 25%

Contribute to discussion forums throughout the semester and lead/moderate one discussion forum on iLearn.

This Assessment Task relates to the following Learning Outcomes:

- discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
- explore and critique literature on Higher Education related to contemporary challenges
- investigate theoretical and practical questions related to curriculum design
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
- competently contribute to and demonstrate leadership of an online learning community;
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

Evaluation Strategy
Due: June 7
Weighting: 40%

Develop an evaluation strategy (3,000 words) for a learning and/or teaching situation. You can choose something relevant to your own experience in consultation with your unit convenor.

This Assessment Task relates to the following Learning Outcomes:
- explore and critique literature on Higher Education related to contemporary challenges
- investigate theoretical and practical questions related to curriculum design
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

Delivery and Resources
This is an online unit and you will need regular access to the internet to participate.

There are five modules on the iLearn site to work through and your learning is supported through learning activities and/or on campus classes. Using the iLearn Discussion Forum we aim to foster an online learning community to promote debate, discussion and exploration of ideas between all participants. This will require regular participation each week, and there is an assessment task connected with the forum.

Internal students must attend the on campus sessions, four of which are held on Wednesday evenings from 5.00pm-7.00pm in room E6A 116; dates are listed on the unit schedule. There is also one Saturday on campus session on May 9, from 9.30-3.30. External students who reside in or near Sydney and who would like to attend are most welcome. External students who do not attend the on campus sessions are expected to complete the Learning Activities that are set for each module.

You are expected to submit written assessment tasks by the published due date UNLESS you have received written permission to submit your work at a later date from the Unit convenor.
Extensions will only be granted in exceptional, unforeseen circumstances (known workload is not a legitimate or sufficient reason for the granting of an extension). However, some consideration may be available for a student who is prevented by serious and unavoidable disruption from completing any Unit requirements in accordance with their ability. All students have the right to submit an application for Disruptions to Study. Details of how the University defines serious and unavoidable disruption to studies, and information about the processes involved, are contained in the Disruptions to Study Policy (see policies and procedures). Please read this policy carefully as you will need considerable documentation to support your application, more than just a medical certificate.

The textbook for this unit is:

If you are already familiar with this text, and/or would like an additional or supplementary text, we suggest: Tennant, M.,McMullen, C. & Kaczynski, D. (2009) Teaching, Learning and Research in Higher Education. A critical approach. Routledge. ISBN: 0415962633

Please note: a previous version of this unit guide listed Biggs & Tang 2011 as the text (see details below). If you have already purchased this book, then you do not need to buy Hunt & Chalmers as well. Just let the unit convenor know. You certainly do not need all 3 texts.

Assessment tasks are due by 5pm on the day designated (except if you are giving an on campus presentation). All assignments are to be uploaded into iLearn. If you are having difficulties with uploading please contact the unit convenor. Before starting each assessment task you should consult the associated rubric to get an idea of how the task will be assessed. All assessment tasks will need to be submitted through Turnitin, and there are instructions and details in the iLearn unit.

For consultation about any aspect of the unit please contact the unit convenor and make an appointment (perhaps even a phone appointment). Appointments can be made by mutual agreement between Monday and Thursday.

This year we have done a major redevelopment of the material in the unit and contextualised pedagogical theory and practice in contemporary challenges that face educators today. We hope that you enjoy the challenge. Also, in response to feedback from students in previous years, some changes have been made. These include: reducing the number of discussions that are scheduled to be led by students, introducing a policy of removing overly long posts from the discussion forum, and one learning activity has also been removed to provide more time for students to prepare their final report.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your
student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Student Support
Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills
Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

• Workshops
• StudyWise
• Academic Integrity Module for Students
• Ask a Learning Adviser

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://informatics.mq.edu.au/help/.

When using the University’s IT, you must adhere to the Acceptable Use Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities
PG - Discipline Knowledge and Skills
Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes
• discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
• explore and critique literature on Higher Education related to contemporary challenges
• investigate theoretical and practical questions related to curriculum design
• evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
• devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
• competently contribute to and demonstrate leadership of an online learning community;

Assessment tasks

• Article Appraisal
• Project Proposal
• Presentation
• Online Learning Community
• Evaluation Strategy

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

• investigate theoretical and practical questions related to curriculum design
• evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
• devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues

Assessment tasks

• Project Proposal
• Presentation
• Evaluation Strategy

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.
This graduate capability is supported by:

**Learning outcomes**

- discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
- explore and critique literature on Higher Education related to contemporary challenges
- investigate theoretical and practical questions related to curriculum design
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues
- competently contribute to and demonstrate leadership of an online learning community;

**Assessment tasks**

- Article Appraisal
- Project Proposal
- Presentation
- Online Learning Community
- Evaluation Strategy

**PG - Effective Communication**

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcomes**

- discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
- explore and critique literature on Higher Education related to contemporary challenges
- competently contribute to and demonstrate leadership of an online learning community;
- demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

**Assessment tasks**

- Article Appraisal
- Presentation
- Online Learning Community
PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues.

This graduate capability is supported by:

**Learning outcomes**

- discuss and debate the purpose or purposes of Higher Education and some of the contemporary challenges for learning and teaching
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues

**Assessment tasks**

- Presentation
- Online Learning Community
- Evaluation Strategy

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

**Learning outcomes**

- investigate theoretical and practical questions related to curriculum design
- evaluate current programs, teaching practices and/or curriculum design (including assessment and feedback) based on sound pedagogical principles and theories
- devise evidence-based solutions to real world problems related to curriculum, learning and teaching or other relevant Higher Education issues

**Assessment tasks**

- Project Proposal
- Presentation
Changes from Previous Offering

The unit has been substantially redeveloped since the last offering. The material has been updated and contextualised within some of the significant contemporary challenges facing educators in the 21st century. We hope you enjoy this new approach.

In addition, in response to feedback from students in previous years, additional changes have been made, including: reducing the number of discussions that are scheduled to be led by students, introducing a policy of removing overly long posts from the discussion forum, and one learning activity has also been removed to provide more time for students to prepare their final report. There will also be formative feedback on discussion forum performance sporadically throughout the unit.
