Unit description

This unit provides students with a graduate-level understanding of accounting as a business process of recording, measuring, classifying and reporting relevant economic, financial and other related information and transactions for use by a variety of stakeholders. Students completing the unit are expected to be able to prepare, analyse and discuss financial reports in various business contexts. Seminars cover the core aspects of the preparation and basic analysis of financial statements and the underlying policies and principles.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- identify users of financial information and the use of the information for decision making in business;
- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Assessment Tasks

Name	Weighting	Due
Assessed Coursework	10%	Twice randomly
Class Test	20%	week 6 & week 9
Assignment	20%	week 11
Final Examination	50%	Examination period

Assessed Coursework

Due: **Twice randomly**

Weighting: **10%**

Homework will be collected twice randomly during the session. The first homework collection will be an early diagnostic indicator for students at academic risk. Students with unsatisfactory

performance are asked to consult the lecturer about ways to improve their performance.

Submission

Hard copy of weekly homework will be randomly collected twice in your registered class.

Extension

No extensions will be granted. Students who have not submitted the homework will be awarded a mark of 0 for the task, except for cases in which an application for Disruption to Studies is made and approved. Based on Disruption to Studies, another random will be made.

On successful completion you will be able to:

- identify users of financial information and the use of the information for decision making in business;
- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Class Test

Due: **week 6 & week 9**

Weighting: **20%**

Students are required to attempt two in-class tests. The test weights 10% each. Detail information about in-class tests will be released on iLearn.

Submission

You can only attempt the tests in your registered class.

Extension

No extensions will be granted. Students who have not attempted the in-class test will be awarded a mark of 0 for the test, except for cases in which an application for Disruption to Studies is made and approved. Note that there will be no supplementary test. Students who are absent from the first in-class test will increase the weighting on the second in-class test and vice versa if an application for Disruption to Studies is made and approved. Students who miss both tests will shift the assessment percentage to Assessed Coursework and Assignment evenly if an application for Disruption to Studies is made and approved.

On successful completion you will be able to:

- identify users of financial information and the use of the information for decision making in business;

- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Assignment

Due: **week 11**

Weighting: **20%**

The assignment is an online accounting practice set assignment providing each student with a unique accounting scenario and therefore must be completed on an individual basis. The practice set assignment is a major learning activity, taking up to 30 study hours to complete over a number of days or weeks.

Submission

Submit online

Extension

No extensions will be granted. Students who have not submitted the practice set prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for Disruption to Studies is made and approved.

On successful completion you will be able to:

- identify users of financial information and the use of the information for decision making in business;
- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;

Final Examination

Due: **Examination period**

Weighting: **50%**

Submission

A final examination for this unit will be held during the University Examination period. It is a 3 hour exam. More information will be released in the revision lecture in week 13.

The University Examination period in Session 1 2016 is from 14 June to 1 July.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately

eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations. http://students.mq.edu.au/student_admin/exams/

Grade

Grade descriptors and other information concerning grading are contained in the Macquarie University Grading Policy which is available at: <http://www.mq.edu.au/policy/docs/grading/policy.html>

All final grades in the Department of Accounting and Corporate Governance are determined by a grading committee and are not the sole responsibility of the Unit Coordinator. Students will be awarded one of these grades plus a Standardised Numerical Grade (SNG). The SNG is not necessarily a summation of the individual assessment components. The final grade and SNG that are awarded reflect the corresponding grade descriptor in the Grading Policy.

In addition, there is a requirement to pass the final examination to be awarded a final grade of a Pass or a higher grade.

Extension

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Disruption to Studies. If a Supplementary Examination is granted as a result of the Disruption to Studies process the examination will be scheduled after the conclusion of the official examination period. Please note that the supplementary examination will be of similar format as the final examination. The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at:

<http://www.mq.edu.au/policy/docs/examination/policy.html>

Supplementary examination information for session 1 2016 is available at:

http://www.businessandeconomics.mq.edu.au/current_students/undergraduate/how_do_i_disruption_to_studies

The supplementary exam will be held in July, 2016 (TBC).

On successful completion you will be able to:

- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Delivery and Resources

Classes

The unit has 3 hours face-to-face teaching per week. The class will run in a seminar style.

The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>

Students are expected to spend 150 hours working on this unit. As a guide a student should spend these approximate amounts of time on each of the following activities:

Expectations and Workload

	Activities	Hours
1	Weekly Seminars/Lectures/Tutorials	39
2	Assessment Task 1 (Assessed Coursework – weighting: 10%)	36
3	Assessment Task 2 (Assignment – weighting: 20%)	30
4	Assessment Task 3 (In-class tests – weighting: 20%)	2
5	Assessment Task 4 (Final examination – weighting: 50%)	3
6	Readings/self-study/ tests and exam preparation	40
	TOTAL	150

Consultation

Consultation is available every week starting from week 3. Timetable will be provided on iLearn.

Textbook Required and Recommended Texts and/or Materials

Hoggett J., Edwards, L., Medlin, J. and Tilling, M. (2015), Accounting, 9th edition, John Wiley and Sons Australia

The prescribed textbook can be purchased from the Co-op Bookshop on campus. In addition, copies of the textbook are available in the reserve section of the library.

There are two purchase options:

(1) Binder Ready Version (BRV)

The BRV format means that they are loose-leaf pages of the text book and not bound into a book. The advantage is that students only carry with the chapters they require at a time and can add in other notes to their folders.

Online purchase <http://www.wileydirect.com.au/buy/accounting-9th-edition/>

(2) The BRV + WileyPLUS

Note that WileyPlus is not a required learning material in ACCG 611. Yet, it is possible for students to use WileyPlus on their own as a revision tool. Students who purchase WileyPLUS can use the following link to access <http://wadmin.wileyplus.com/edugen/secure/student/index-mwp.uni>

Please note that E-book is not allowed in ACCG 611.

Graduate Capabilities

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- identify users of financial information and the use of the information for decision making in business;
- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;

- review business operations and accounting process, and provide recommendations;

Assessment tasks

- Assessed Coursework
- Class Test
- Assignment
- Final Examination

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- identify users of financial information and the use of the information for decision making in business;
- explain underlying accounting concepts and account for business operations;
- apply underlying accounting concepts to the recording process and to the reporting of financial information;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Assessment tasks

- Assessed Coursework
- Class Test
- Assignment
- Final Examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- identify users of financial information and the use of the information for decision making in business;
- analyze financial position and financial performance of a business based on the information given;
- review business operations and accounting process, and provide recommendations;

Assessment tasks

- Assessed Coursework
- Class Test
- Assignment
- Final Examination

Research and Practice, Global and Sustainability

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing ability in students to research and locate information within accounting discipline. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
