Research and Practice, Global and Sustainability

Students are expected to spend 150 hours working on this unit. As a guide a student should spend these approximate amounts of time on each of the following activities:

	Activities	Hours
1	Weekly Seminars	39
2	Class Test 1	20
3	Class Test 2	20
4	Case Study Report	25
5	Case Study Presentation	6
6	Readings and Self Study	40
	Total	150

The unit gives you opportunities to conduct your own research and gives you practice in applying research findings in your assessment tasks. Students will be required to use library resources to research beyond these materials in undertaking research to complete their tasks.

The unit introduces addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in seminars. We promote sustainability by developing ability in students to research and locate information within the Forensic Accounting discipline. We aim to provide students with an opportunity to obtain skills that will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter in the prescribed text containing all references used by the authors. These provide some guidance to references that could be used to research particular issues.
