Unit description

This important unit introduces and explains core professional capabilities that must be possessed by accountants. It explores and analyses the roles and functions of the accounting profession and its impact on and interface with society at large. It considers in detail a wide variety of issues including general theories of ethics and also the nature and application of the mandatory accounting professional ethical framework. The unit explores a range of governance issues that must be understood by accountants, including corporate social responsibility, corporate law and competition and consumer law. 'Corporate social responsibility' aspects are wide-ranging and include environmental and social reporting and intergenerational concerns. Students' skills are extended with a focus on both developing practical problem solving capabilities and effective communication in complex managerial and related circumstances. This unit is undertaken concurrently with the student being also enrolled in the Ethics and Governance segment of the CPA Australia Professional Program.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

Distinguish between the accounting profession generally and the varied roles of professional accountants

Engage with the strategic, leadership and global issues driving accountants and the accounting profession

Identify governance and regulatory frameworks affecting entities and the local and global perspectives of stakeholders in relation to these frameworks

Apply and communicate professional understanding of complex concepts involving ethics, governance and relevant judgment as required by accountants operating in a global context

Identify the nature, role and vital importance of corporate social responsibility and sustainable development

Assessment Tasks

Name	Weighting	Due
1. Presentation	10%	As advised

Name	Weighting	Due
2. Class Test	35%	During Week 9 - date TBA
3. Final Examination	30%	11 April start - CPA Australia
4. Group Assessment Task	25%	Weeks 7, 14 & 15

1. Presentation

Due: As advised

Weighting: 10%

Submission: Your presentation and submission are to comprise a single newly developed (by you) multiple choice question that you write and present. The total duration of the presentation and explanation MUST NOT EXCEED 7 minutes. There is no word limit applicable to accompanying documentation but obviously total words will reflect the time limit in a realistic way. When creating your question and explanation you are required to use class content, the CPA118 CPA Australia Ethics and Governance Study Book and any further relevant research. You need to write a UNIQUE and NEWLY DEVELOPED multiple choice question. You must also write a clear explanation clearly identifying which answers are wrong and why and which answers are correct and why. This Minor Presentation may require you to undertake additional research, reading and critical thought. You will be marked on the quality of the work undertaken and the communication achieved in the presentation. Detailed marking criteria are on the Feedback Sheet which will is provided to all students in the ACCG913 Unit Assessment Guide.

You will be marked according to your level of research and preparation, your understanding, accuracy, comprehensiveness and ability to explain the key issues to your fellow students, and your use of presentation aids. A schedule of presentation times will be set for every student. A hard copy of your question and presentation materials must be handed to your lecturer before delivering your presentation.

You are expected to display your knowledge and the communication skills at a standard expected of a postgraduate student. All students must present by Week 10 – all feedback to students will be finalised at or before the classes of Week 11.

You MUST 'hand in' a printed version of all presentation materials and additional explanation materials at the start of your presentation. This must be attached to the Feedback cover sheet – which must be STAPLED as the front page of your 'handed in' materials. Professional presentation of the document submitted and the quality of oral presentation are important!

The task will be discussed in further detail in classes before any presentations take place.

Extension: No extension will be granted without a Disruption to Studies application being lodged within University rules and subsequently approved.

Penalties: Zero mark for non-submission.

On successful completion you will be able to:

- Distinguish between the accounting profession generally and the varied roles of professional accountants
- Engage with the strategic, leadership and global issues driving accountants and the accounting profession
- Identify governance and regulatory frameworks affecting entities and the local and global perspectives of stakeholders in relation to these frameworks
- Apply and communicate professional understanding of complex concepts involving ethics, governance and relevant judgment as required by accountants operating in a global context

2. Class Test

Due: During Week 9 - date TBA Weighting: 35%

Submission: The test will take place during Week 9 of classes. The precise date, time and location will be advised on iLearn and in classes. The test will have a duration of two hours and thirty minutes (including 10 minutes reading time). It will be conducted as an invigilated exam and University ID will be required in the exam room.

The test will cover all of the CPA Australia Ethics and Governance Subject Book Modules and all related content (including readings, case studies, questions and solution) as well as all assumed prior learning/knowledge (as identified in the CPA Subject Book). The test will be conducted as a fully open book exam which is the same approach that you will see in the CPA Australia Final Exam.

The test will consist of multiple choice questions and also short answer style questions to be answered by students. The value of all questions will be stated clearly and all multiple choice questions will be the same value.

Assessment Task 2 is designed to comprise valuable formative assessment.

Accordingly, shortly after marking is complete, you will receive full feedback about this test in class. You will receive your own marked exam script (this will be re-collected at the end of the class) for review and discussion.

Extension: No extensions are possible for this specific formative assessment task so there **will not be a specific supplementary test available for Assessment Task 2**. A student who is absent from this test must correctly complete and submit a valid "Disruption to Studies" application. If this application is approved by the relevant Faculty authorities this will permit the student to sit an alternative assessment examination. This **alternative assessment will be a newly created full exam that will be conducted on a closed book basis** very shortly after the CPA Australia exams are concluded.

Penalties: Students who do not sit for Assessment Task 2 on the initial required date will score zero marks for this assessment item and cannot pass this Unit.

Documented absence that is substantiated by a Disruption to Studies application which meets University requirements, and that is approved, will allow a student to sit the alternative assessment as discussed above in 'Extension'.

On successful completion you will be able to:

- Distinguish between the accounting profession generally and the varied roles of professional accountants
- Engage with the strategic, leadership and global issues driving accountants and the accounting profession
- Identify governance and regulatory frameworks affecting entities and the local and global perspectives of stakeholders in relation to these frameworks
- Apply and communicate professional understanding of complex concepts involving ethics, governance and relevant judgment as required by accountants operating in a global context
- Identify the nature, role and vital importance of corporate social responsibility and sustainable development

3. Final Examination

Due: **11 April start - CPA Australia** Weighting: **30%**

The CPA Australia examination is conducted by CPA Australia at a time and location designated by CPA Australia and according to rules and conditions set by CPA Australia. You can expect to be advised in writing of these rules and further exam details. This written advice will be sent directly to you by CPA Australia and NOT by Macquarie University.

Submission: Subject to the rules applicable to CPA Australia candidature

Extension: Subject to the rules applicable to CPA Australia candidature

Penalties: Students who do not achieve at least a Pass grade in this exam will not be awarded a Pass grade in ACCG913. Students who do not achieve a Pass grade should discuss this with MACC administration staff.

On successful completion you will be able to:

- Distinguish between the accounting profession generally and the varied roles of professional accountants
- Engage with the strategic, leadership and global issues driving accountants and the accounting profession

- Identify governance and regulatory frameworks affecting entities and the local and global perspectives of stakeholders in relation to these frameworks
- Apply and communicate professional understanding of complex concepts involving ethics, governance and relevant judgment as required by accountants operating in a global context
- Identify the nature, role and vital importance of corporate social responsibility and sustainable development

4. Group Assessment Task

Due: Weeks 7, 14 & 15 Weighting: 25%

Submission: Students will form into self-select groups (minimum 4, maximum 5 members). Groups will choose a topic from a list of topics provided in the ACCG913 Unit Assessment Guide. Your choice of group membership must be finalised and approved by your lecturer before or in the Week 4 class. Your group topics must be selected, advised to and approved by your lecturer before or in the Week 6 class. Any uncertainties including group membership and topics will be clarified or mandated by your lecturer in class.

Each group is required to submit a **Group Planning Paper** in the Week 7 class. Maximum 600 word length (word length limit excludes planning diagrams). 5 marks of the 25 marks available. In Weeks 14 and 15 (as shown in the Unit Timetable/Class Diary) each group is required to submit a professionally prepared **Full Report** and also **Presentation Documents** that support a professionally structured **Oral Presentation**. 20 marks of the 25 marks.

All group members are required to participate in all aspects of the Group Task. Detailed requirements are stated in the ACCG913 Unit Assessment Guide.

The Group Report itself must be submitted with an accompanying Turnitin Assessment Summary Report that must be acknowledged and signed by all group members. The Turnitin procedure will be provided on iLearn.

Each member of each group MUST submit a correctly completed Peer Evaluation Sheet at the time of presentations in Week 14 or 15. This Peer Evaluation provides the basis for ensuring that each individual's mark within he group is correctly assessed. The Peer Evaluation process, explanation and documentation are contained in the ACCG913 Unit Assessment Guide.

Marked out of 25: 5 marks for the Planning Paper. 10 marks for the Report. 10 marks for the Presentation and presentation documentation.

Extension: No extension will be granted.

Penalties: A mark of ZERO will be assigned for late submission or where all submission requirements are not met. Where any aspect of this assessment item is not completed on time and fully by a group member that group member will score zero marks for the entire assessment component (that is the student will score zero out of 25) unless a Disruption to

Studies application is lodged according to university requirements and that application is subsequently approved. If such approval is given then alternative additional assessment activities will be prescribed for that student.

On successful completion you will be able to:

- Distinguish between the accounting profession generally and the varied roles of professional accountants
- Engage with the strategic, leadership and global issues driving accountants and the accounting profession
- Identify governance and regulatory frameworks affecting entities and the local and global perspectives of stakeholders in relation to these frameworks
- Apply and communicate professional understanding of complex concepts involving ethics, governance and relevant judgment as required by accountants operating in a global context
- Identify the nature, role and vital importance of corporate social responsibility and sustainable development

Delivery and Resources

Classes

- Classes: Times and Locations will be advised on iLearn you will attend one three hour class each week
- To complete the unit successfully, you should attend one three hour class per week. Please attend only the class in which you are formally enrolled. If you unavoidably miss a class in any week you may change class that week and you do not need to seek permission. Attendance is not compulsory but rolls are marked, in part so that students become known in classes.
- Please refer to the class diary at the end of this unit guide for detailed weekly class content.
- The University web site shows timetables: http://www.timetables.mq.edu.au/

Required and Recommended Texts and/or Materials

Required Texts/Materials

 CPA Professional Program: CPA 118 Ethics and Governance Subject Book, Deakin University and CPA Australia, 2016 Edition as updated. The CPA Australia Subject Book is provided to you by CPA Australia. You may also find a full software version on the CPA MyOnline Learning website. • CPA Australia Members Handbook, available online at http://www.cpaaustralia.com.au

Reference Texts/Materials

APES 110 Compiled Code of Professional Ethics for Professional Accountants, available online at <u>http://www.apesb.org.au</u>

The CPA Australia 'CPA118 Ethics & Governance Subject Book' provides a comprehensive reference list at the end of each module containing all references cited by the authors. These CPA Australia references will assist you in undertaking further study and they will be very valuable for assignments and research generally. Additional materials and references will be made available or advised in iLearn. Please note you MUST refer to iLearn regularly.

Technology Used and Required

• The principal technology used in this unit comprises web based access to resource materials (see above) and the learning management system called 'iLearn'.

• Regular access to iLearn is strongly encouraged so that you have access to:

- Resources developed for each class
- Additional recommended reading and research resources
- Additional information regarding assessment items that may be required
- Any new information that may arise in relation to contingencies including in relation to any changes in dates, timetables or class details
- iLearn communication and discussion tools as an effective means to enhance learning for all students and staff.
- Please note that <u>YOUR OWN University email address must be used for both</u>
 <u>receiving and sending university emails.</u>

Unit web page - iLearn

- Course information is available on (iLearn).
- iLearn access is at http://www.learn.mq.edu.au
- Advice for iLearn including login advice and relevant support is all available at the iLearn site.
- The student web page for this unit is located on iLearn. This includes course material, announcements and results.
- Each week on iLearn you will find Class Guidance Notes and/or In-Class Discussion Questions. You will also find relevant reference materials and addresses for reference materials.

Learning and Teaching Activities

Each 3 hour class will consist of a combination of activities including seminar presentations by the lecturer and student presentations and discussions which will review key concepts. You are

encouraged to engage in class discussion relating to questions posed, case studies and their analysis, current events/issues and practical, problem solving exercises. In addition to other assessment tasks, all students are required to participate in preparing and presenting a substantive Group Assessment Task (the 'Group Task').

A revision class will be held prior to the external CPA Program exam and will include analysis, questions and cases designed to explore the entire course. All students will be required to complete a group presentation based on a group prepared report which is to be submitted at the same time as the group presentation.

The material to be covered each week is identified in this Unit Guide.

Preparation for classes

It is essential that you prepare for each class by reading all materials and references carefully. This will include carefully working through the relevant CPA module, noting any issues which you might like to discuss in class and, of course, contributing to in-class discussions and overall 'group learning'.

In addition to your CPA Study Book Modules, you may download additional relevant class materials required each week from iLearn – login at https://ilearn.mq.edu.au/login/MQ/.

These class materials will be placed on iLearn prior to class time. It is your responsibility to ensure that you access and have copies of relevant material prior to classes. You should allow time for thorough reading of all materials before each class.

Learning and Teaching Activities

Learning and Teaching Activities

Your class will meet on scheduled dates for a 3 hour seminar during the session. In between classes (and also in weeks where classes are not scheduled) you are required to continue your study and research and to work through the relevant modules in the CPA Subject Book and related content as well as work on assessment tasks. Check iLearn each week before class for any last minute changes to class content, times or locations. Please note that you must not change between classes of each lecturer as in any week classes may not be exactly in parallel as each lecturer will carry course progress in minor ways consistent with the professional needs of students in each class as well as due to the impact of public holidays on classes. In each class there will be a Lecture/Seminar on issues involving the relevant content from the CPA118 Ethics and Governance Subject Book Module topics. Lectures will last about 2 to 2.5 hours and, to lessen your in-class writing burdens, notes will be provided in advance on the iLearn system (formerly Blackboard). The address is www.ilearn.mg.edu.au. Students can access the Web site for ACCG913 from either their home/office or at University computers. In addition to lectures there will be in-class activities of various types, including assessed student work, for the balance of each 3 hour class period. For each module, PowerPoint lecture notes will be placed on iLearn before the class. They are NOT intended to, nor do they stand alone nor do they in any way replace compulsory lecture attendance and FULL READING OF THE CPA Modules. They are provided for your convenience. You must also properly construct your own notes based on your own readings and you are expected to note and record any additional comments, supplements and corrections to these notes. You are not entitled to rely on lecturer provided notes for full study purposes nor most importantly can they be taken as being a defined indicator of CPA exam content - you must learn fully from the CPA Australia Subject Book and related content to be sure of success in CPA Australia examinations. Please see the schedule of classes and

topics which is provided in this Unit Guide and as the "Class Diary" in the Unit Assessment Guide.

Changes from Previous Offering

The unit syllabus has been updated in minor ways in relation to dates and content coverage. Minor changes have occurred in relation to the Peer Assessment mechanisms for Group Assignment work. It is noted that the CPA Australia Subject Book Modules are changed in content and are also re-named. Previously they were titled "CPA Australia Segment Study Guide".

Research & Practice, Global & Sustainability

- ACCG913 CPA Ethics and Governance identifies and requires the use of research sources and the practical application of sound academic approaches. Multiple references are provided in the CPA Australia CPA Professional Program CPA118 Ethics and Governance Subject Book.
- Additional relevant materials, including materials expanding on CPA references, will be placed on iLearn and these will be referred to in classes and will also comprise content for class seminar discussion.
- The unit requires students to conduct their own relevant research activities. References, including to legal sources, are provided. In the context of developing 'lifelong learning' skills it is important that students develop strong ability to conduct relevant systematic research. Effective Masters graduates must be able to identify research locations and construct targeted learning and experiential materials relevant to targeted needs.
- ACCG913 CPA Ethics and Governance addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars.
- We promote sustainability by developing an inherent ability in our students to research and locate relevant information within the accounting discipline generally and in particular within the critically important area of Ethics and Governance.

- The unit specifically addresses the application of sustainability concepts in a global context and in relation to the social, environmental and economic requirements of stakeholders and societies generally.
- By developing and fine-tuning this capability within students, we aim to provide skills which will benefit our graduates' careers and societies generally.
