Co-badged status

Unit description
This unit builds upon the foundations laid by introductory units such as ISYS302 and ISYS360 to provide students with a more thorough understanding of the strategic, infrastructural and socio-technical aspects of project management. At one level, this unit is intended as a training ground for participants who wish to extend their existing ICT project planning and management skills in the more technical aspects of disciplines such as strategic planning, capital budgeting, risk analysis and post-implementation review. At another, we examine the political and organisational context into which this discipline fits, with a view to equipping candidates with the background required to make the transition into a project-sponsorship role.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Analyse and Develop and an effective business case for IT and business related projects
2. Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects

4. Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

**Project Management Assignment**

**Due:** Week 7  
**Weighting:** 20%

**Submission**

The assessment task is to write 2000 word report regarding the importance of strategically managing multiple projects for one organisation. You will use scholarly references that will address the issue(s) Refer to ilearn for the details of the assessment.

**Extension**

No extensions will be granted. Late tasks will be accepted up to 72* hours after the submission deadline. There will be a deduction of 20%* of the available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 40% penalty). *This penalty does not apply for cases in which a disruption of studies is made and approved.

**What is required to complete the unit satisfactorily**

Satisfactory completion of all assessment tasks.

This Assessment Task relates to the following Learning Outcomes:

- Analyse and Develop an effective business case for IT and business related projects
Big Data & Project Management

Due: Week 12
Weighting: 22%

Submission

We live in a world where companies are seeing value in data that we may of in the past not considered to be important. You will explore the notion of how do companies tap into the use of Big Data and more importantly how is this strategically project managed. NB. This assessment has an option to do this in groups of 2-3 persons. Consult your lecturer about this. (Refer to ilearn for the details of the assessment)

Extension

No extensions will be granted. Late tasks will be accepted up to 72* hours after the submission deadline. There will be a deduction of 20%* of the available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 40% penalty). *This penalty does not apply for cases in which a disruption of studies is made and approved.

What is required to complete the unit satisfactorily

Satisfactory completion of all assessment tasks.

This Assessment Task relates to the following Learning Outcomes:

- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

Quizzes

Due: Varies: Wk 5 & 8 & 11
Weighting: 18%
Quizzes
In weeks 5, 8 and 11 there will be a short quiz in the lecture time. Each quiz is worth 6% towards your final grade (i.e. 18% in total). These quizzes will cover important parts of the unit material and, as well as assessing your current level of mastery of it, give you and your lecturer an opportunity to address any problem areas before the final exam. The quizzes will normally not take the whole class and will be followed by that week’s lecture. Please be on time to these classes, as the quiz will be the first thing in the class.

Extension
No extensions will be granted. Students will need to apply for disruption of studies and await the university’s decision on what the student will do.

What is required to complete the unit satisfactorily
Satisfactory completion of all quizzes

This Assessment Task relates to the following Learning Outcomes:
• Analyse and Develop an effective business case for IT and business related projects

Final Written Exam
Due: Examination Period
Weighting: 40%

Examination conditions
Three (3) hour exam plus 10 minutes reading time.

What is required to complete the unit satisfactorily
Satisfactory performance in all assessment components including the final exam.

Supplementary Exams
If a Supplementary Examination is granted as a result of a Disruption of Studies process the examination will be scheduled as per the Supplementary Examination timetable of the Faculty. Please note that the supplementary examination will be of the similar format as the final examination.

This Assessment Task relates to the following Learning Outcomes:
• Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply Portfolio Management concepts in the context of IT strategic management a. Selecting an IT portfolio b. Managing portfolio risk c. Managing the IT portfolio d. Identifying and managing benefits and financial metrics of business value

Delivery and Resources

Classes

Each week you should attend a three-hour seminar. For details of days, times and rooms consult the timetables webpage.

Technology to be used and required

We will be using the Computing Lab to give you access to Project Management Software. You will also be able to download your own copy for your PC, Laptop or Mac. It won't run on an Ipad. Details of the software will be available in lectures.

Students will need to be able to access ilearn and to download materials from it for class. Students are required to ensure that they either bring hardcopies of all specified materials to class or ensure that they can access and use electronic copies of documents and readings in class. For this an ipad, tablet or laptop (mac or PC) is highly recommended.

The textbook is available as an ebook and also a hard copy text. (Details are below):

Resources to assist your learning

Textbook

The textbook(s) for ITEC844 used this semester is:

Project Management: Achieving Competitive Advantage, Global Edition (4e)

ISBN: 9781292094793 Publisher: Pearson

Unit material

Material for the unit can be found on ilearn.

News Forum

Your lecturers will post regular reminders in regards to assessments and/or anything that is happening in the week. It is your responsibility to keep up to date with everything with the unit.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit [ask.mq.edu.au](http://ask.mq.edu.au).

Assessment policy (Including Extensions and Re-submissions)

If you cannot complete a piece of work please see the convenor before the due date.

Late assignments (without prior consent), will attract a 10% per day (24 hours) penalty. Students who anticipate that they will not be able to submit an assignment on time due to illness or other life issue, such as work commitments or family crisis, must request an extension at least 24 hours prior to the due date for the assignment and provide substantiating evidence of the reason for the delay. No extensions will be granted without these conditions being met. Check also the special consideration policy.

Students who fail to grasp the point of an assignment but have demonstrated significant effort and genuine willingness to learn, may in special circumstances be granted the opportunity to resubmit an assignment in order to obtain a pass mark. Students resubmitting will not be able to score higher than a pass for the resubmitted assignment. This is entirely at the discretion of the Convenor and will only be granted in exceptional circumstances.

**Conditions for Passing the Subject**

Participation and attendance, including peer review, are key elements of assessment and students must perform satisfactorily in all assessment items including in participation, attendance and peer review to pass the subject.

**Submission Method for Assessment Tasks**

All assignments should be handed in via the online system at [https://ilearn.mq.edu.au/login/MQ/](https://ilearn.mq.edu.au/login/MQ/) by the time specified in the assignment description.

All work submitted should be readable and well presented.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)
Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Enquiry Service

For all student enquiries, visit Student Connect at ask.mq.edu.au

Equity Support

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Analyse and Develop and an effective business case for IT and business related projects
- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics
Assessment tasks

- Project Management Assignment
- Big Data & Project Management
- Quizzes
- Final Written Exam

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
- Apply Portfolio Management concepts in the context of IT strategic management:
  a. Selecting an IT portfolio
  b. Managing portfolio risk
  c. Managing the IT portfolio
  d. Identifying and managing benefits and financial metrics of business value
- Apply IT leadership focusing on integrating the following issues:
  a. strategy
  b. IT governance
  c. realization of business value
  d. metrics

Assessment tasks

- Project Management Assignment
- Big Data & Project Management
- Quizzes
- Final Written Exam

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Analyse and Develop and an effective business case for IT and business related projects
• Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply Portfolio Management concepts in the context of IT strategic management a. Selecting an IT portfolio b. Managing portfolio risk c. Managing the IT portfolio d. Identifying and managing benefits and financial metrics of business value
• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

Assessment tasks

• Project Management Assignment
• Big Data & Project Management
• Final Written Exam

PG - Effective Communication

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

Learning outcomes

• Analyse and Develop and an effective business case for IT and business related projects
• Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply Portfolio Management concepts in the context of IT strategic management a. Selecting an IT portfolio b. Managing portfolio risk c. Managing the IT portfolio d. Identifying and managing benefits and financial metrics of business value
• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues.

This graduate capability is supported by:
Learning outcome

• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

• Evaluate and explain the strategic thinking used in the development of an IT portfolio of projects
• Apply IT leadership focusing on integrating the following issues: a. strategy b. IT governance; c. realization of business value; d. metrics

Assessment tasks

• Big Data & Project Management
• Quizzes
• Final Written Exam

Changes from Previous Offering

The unit has been overhauled thank to feedback from students and the department. All assessments are new, a new textbook also. The unit is now more aligned to be a Strategic Project Management unit.

Standards and Grading

Grading Standards

Unlike many units, ITEC844 covers a wide range of areas, but at limited depth. Therefore it is not appropriate to identify core knowledge and assess the students' mastery of that at increasing levels of complexity. Instead, the assessment of learning outcomes is based in large part on the amount of knowledge the student gains across the range of the unit, as assessed by performance in the (Individual and Group) assignments, quizzes and final examination.

</table>

Your final grade will depend on your performance in each part of the assessment of the unit. In particular, to obtain a grade of Pass (P) or higher in this unit you will of satisfied the following:

- obtain a mark of at least 40% overall for the assignments.
- obtain a mark of at least 40% in the final exam.
- obtain an overall mark of at least 50% (calculated according to the weightings given above).

Obtaining a higher grade than a Pass (P) in this unit will require a student to obtain (in addition to the above):

- the required total number of marks (Credit - 65, Distinction - 75, High Distinction - 85).
- The following minimal results in both the practical and final exam for grades higher than a pass:
  - 60% in the quizzes overall.
  - 60% in the final exam.
Policies

Macquarie is developing a number of policies in the area of learning and teaching. Approved policies and associated guidelines and procedures can be found at Policy Central. There you will find the University’s policy and associated procedures on:

- Assessment
- Special Consideration
- Plagiarism
- Grade Appeal

Assessment

The procedure implementing the new assessment policy can be found here.

Disruption of Studies

Disruption of Studies is intended for a student who is prevented by serious and unavoidable disruption from completing any unit requirements in accordance with their ability. In this case, you should follow the procedure implementing the policy available here.

If a Supplementary Examination is granted as a result of the Special Consideration process the examination will be scheduled after the conclusion of the official examination period. For details of the Special Consideration policy specific to the Department of Computing, see the Department’s policy page.

Plagiarism

Plagiarism involves using the work of another person and presenting it as one’s own. The Department, in line with University policy, treats all cases seriously. In particular, the Department, and the University, keeps a record of all plagiarism cases. This record is referred to so that an appropriate penalty can be applied to each case. More details are available here.

Grade Appeal

In case of problems arising from the final unit grade provided by academic staff members, the first step is to request a review of your grade. The Department recommends that you submit a request in writing to the convenor of the unit in order to arrange a review session. If this review does not resolve the problem, a formal Grade Appeal can be lodged via www.ask.mq.edu.au
