Unit description

This unit draws upon concepts from interdisciplinary sources as well as practical industry and firm-level case studies in order to examine various issues relevant to conducting business across national borders. It will introduce students to vital matters in strategic decision making by providing insights on the practices and policies used by competing businesses worldwide for developing strategies for competitive advantage. Specifically this Unit explores the challenges, dynamics and processes involved in managing a multi-national company. Concepts developed in the unit will be applied to the solution of 'real world' problems through the use of the latest case studies, and other learning strategies throughout the semester.

General Assessment Information

WARNING on late submission/assessment task:

NO extensions for any assessment tasks will be granted except for cases in which an application for Disruption of Studies is made and approved. For individual assignments, there will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 20% penalty). This penalty does not apply for cases in which an application for Disruptions to Study is made and approved.

Assessment Tasks

Name	Weighting	Due
<u>Group presentation</u>	40%	week 6-13 in class
<u>Individual Assignment (A)</u>	30%	13 October 5 pm in class
<u>Individual Assignment (B)</u>	30%	3 November 5 pm in class

Group presentation

Due: **week 6-13 in class**

Weighting: **40%**

Introduction of the group presentation:

There will be 10-12 groups for group presentations (subject to change depending on the number of students enrolled). From week 6 to week 13, each group will need to make a presentation in the seminar class, based on an allocated case study. The case reading material (on iLearn) provides only a basic background and case questions, students are expected to search additional and/or updated information (e.g. newspapers and other media outlets) relevant to their presentation topics. Students should introduce the case first and then analyse the case questions through reference to course material as well as additional research. The presentation should be about 30-40 minutes, depending on the number of students in the group and the number of questions for the case. Beyond addressing the case questions, students are encouraged to raise and/or solve additional research questions based on for example updated information about the case. The presentation will be followed by questions from audience and discussions chaired by your lecturer/tutor.

Each group member is expected to participate in the presentation. Each group should determine the format of presentation and prepare powerpoint handouts for the audience. Student presentations will provide a focus for class discussion within these weeks' seminars. Your

lecturer/tutor will mark and comment on a marking sheet and return to you in the following week's class. The mark will include the average mark from peer reviews provided by other groups.

Components of this assessment: 20% group mark + 20% individual mark

This assessment is composed of two parts: **a group mark** on group presentation performance (20%) and **an individual mark** on individual performance during the presentation (20%). While every group member will receive the same group mark for group presentation performance, it is possible that each member will receive a different individual mark (and hence different total mark for this assessment task) as a result of differential performance at individual level.

On your presentation day, each group **MUST** submit a **Members' Contribution Report** summarizing each member's contribution to the group project. A separate Group Project Guide on how to prepare for your group project presentation and members' contribution reports will be uploaded to iLearn and will be discussed in classes. The Guide also provides detailed marking criteria for group performance and individual performance.

Research and Practice

The group presentation requires students to collaborate within a team and search additional information (e.g. newspapers and other media outlets) relevant to their presentation topics.

On successful completion you will be able to:

- Develop a deep understanding of the key theories and concepts in strategic management and their implications for international business
- Critically apply relevant theories, concepts and techniques to analyze strategic issues in international business
- Develop capabilities to make effective recommendations for successful strategy implementation
- Collaborate with a team to develop solutions for an international business case

Individual Assignment (A)

Due: **13 October 5 pm in class**

Weighting: **30%**

For **Individual Assignment (A)**, each student will need to prepare a 2,000 word (excluding bibliography) essay on a case study. A separate individual assignment document detailing case questions, marking criteria and submission guidelines will be uploaded to iLearn by week 3. Students should search the information (e.g. newspapers and other media outlets) relevant to the case and analyse the case questions through reference to concepts and frameworks introduced in the unit. Your lecturer will discuss some specific issues on assignment preparation before mid-session break.

A **hard copy** of your assignment should be either submitted to your lecturer in class on 13 October Thursday **OR** submitted to your lecturer on an earlier date. An **electronic copy** should be submitted to Turnitin in the iLearn system for checking plagiarism. Note though an electronic submission to Turnitin is not a substitute for the hard copy submission, **You MUST submit both by the deadline.**

NO EXTENSIONS WILL BE GRANTED EXCEPT WHERE THERE ARE EXTENUATING CIRCUMSTANCES SUPPORTED BY MEDICAL EVIDENCE OR IN INSTANCES WHERE PRIOR AGREEMENT HAS BEEN MADE WITH THE LECTURER. THIS MUST BE AGREED ON IN ADVANCE OF THE DUE DATE.

FOR LATE SUBMISSIONS, THERE WILL BE A DEDUCTION OF 10% OF THE TOTAL AVAILABLE MARKS MADE FROM THE TOTAL AWARDED MARK FOR EACH 24 HOUR PERIOD OR PART THEREOF THAT THE SUBMISSION IS LATE (i.e. 25 HOURS LATE IN SUBMISSION - 20% PENALTY). THIS PENALTY DOES NOT APPLY FOR CASES IN WHICH AN APPLICATION FOR DISRUPTION OF STUDIES IS MADE AND APPROVED.

Individual Assignment (B)

Due: **3 November 5 pm in class**

Weighting: **30%**

For **Individual Assignment (B)**, each student will need to prepare a 2000-word (excluding bibliography) critical literature review on the key ideas of transaction costs theory (covered mainly in weeks 3-5) and explain to what extent do you think such a theory can provide MNEs guidance on how to choose between different modes of international business organization when expanding overseas (e.g. the choice between export and FDI)?

To provide a rigorous review and critique, you are expected to read widely and incorporate at least 20 different references from academic articles. A separate Individual Assignment Document detailing the submission guideline and marking criteria will be uploaded to the iLearn.

A **hard copy** of your assignment should be either submitted to your lecturer in class on 3 November Thursday **OR** submitted to your lecturer on an earlier date. An **electronic copy** should be submitted to Turnitin in the iLearn system for checking plagiarism. - The web page for this unit can be found at: iLearn <http://ilearn.mq.edu.au>

Teaching and Learning Strategy

- The teaching and learning philosophy of the course is '*We teach principles, you develop capabilities*'. The theoretical principles provide the basis of various conceptual frameworks and models, which in turn help us to make sense of a variety of strategic issues firms face in a complex and uncertain global business environment.
- While these principles constitute the basis for a systematic examination of international business strategy and management, they do not necessarily explain why a particular firm

succeeded or failed. The successful application of the concepts and theories introduced in this course depends on your ability to use them in a particular situation that a firm faces.

- Throughout the course, we will use examples, case studies and discussion questions to illustrate the concepts and frameworks. Students should not only try to understand the theories, concepts and frameworks discussed in the lectures, but also make efforts to apply them in class discussions, presentations and assignments.
