Unit description

This unit will equip students with the ability to analyse complex business problems from the cross-functional and multi-dimensional perspective required by general managers. The unit examines the process of formulating competitive strategy at the business level based on systematic analysis of a firm's internal resources and capabilities in conjunction with a structured examination of the various dimensions of its environment. On the basis of this analysis, appropriate strategies with which to pursue sustainable competitive advantage and strategic congruence can be developed. Topics addressed include business-level and corporate-level strategy, innovation and entrepreneurship, and dynamic strategy and game theory.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

1. To understand the nature and scope of the strategic management process and of the

different strategic approaches available to an organisation

2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit

3. To be able to apply the key strategic management tools and models

## General Assessment Information

All students are expected to ensure that they are available from the start until the end of the teaching semester, which is the final day of the official examination period. Students are also expected to actively engage in class and to be able to find time to collaborate with group members outside of scheduled classes.

## Assessment Tasks

Name	Weighting	Due
<a href="#"><u>Individual Assignment</u></a>	30%	Week 6
<a href="#"><u>Group Assignment</u></a>	30%	Weeks 7,11 & 12
<a href="#"><u>Final examination</u></a>	40%	Examination period

### Individual Assignment

Due: **Week 6**

Weighting: **30%**

This assignment will cover material in the first half of the unit. It will require a thorough written response to specific questions. These specific questions will be presented on iLearn.

No extensions will be granted. Late tasks will be accepted up to 72 hours after the submission deadline. There will be a deduction of 10% from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for Disruption of Studies is made and approved.

#### Research and Practice

The assignment requires students to conduct original research, which involves the collection and analysis of information from a range of sources. This unit uses research from external sources as listed in the references lists on iLearn.

On successful completion you will be able to:

- 1. To understand the nature and scope of the strategic management process and of the different strategic approaches available to an organisation
- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of

congruence or strategic fit

- 3. To be able to apply the key strategic management tools and models

## Group Assignment

Due: **Weeks 7,11 & 12**

Weighting: **30%**

The assignment will focus on a detailed case analysis and will include the application of many of the concepts covered in lectures. It will require extensive collaboration between group members. The assessment submission will be in the form of: (1) a draft of the report and a plan for its completion (2) a moderate sized detailed written report and; (3) a short presentation of the key findings to the class; (4) Active participation in class discussions from week 4 through 13. In week 13, all students will have the option of submitting a peer assessment. These will be used to moderate marks within the group if group contributions have not been equal.

No extensions will be granted. Late tasks will be accepted up to 72 hours after the submission deadline. There will be a deduction of 10% from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission – 20% penalty). This penalty does not apply for cases in which an application for Disruption of Studies is made and approved.

### Research and Practice

The assignment requires students to conduct original research, which involves the collection and analysis of information from a range of sources. This unit uses research from external sources as listed in the references lists on iLearn.

On successful completion you will be able to:

- 1. To understand the nature and scope of the strategic management process and of the different strategic approaches available to an organisation
- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit
- 3. To be able to apply the key strategic management tools and models

## Final examination

Due: **Examination period**

Weighting: **40%**

The final examination is designed to assess the students' body of knowledge and critical thinking skills. The examination consists of questions requiring written responses. These questions require some elaboration and explanations of how concepts can be applied in practice. The exam is of three (3) hours duration and will be held in the examination period. The exam examines the range of topics covered in the lectures and readings.

### Research and Practice

The exam requires students to assimilate what they know from original research.

On successful completion you will be able to:

- 1. To understand the nature and scope of the strategic management process and of the different strategic approaches available to an organisation
- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit
- 3. To be able to apply the key strategic management tools and models

## Delivery and Resources

**Technology used:** iLearn (<https://ilearn.mq.edu.au>) and Macquarie University email.

Access to a personal computer is required to access iLearn; students are required to use word processing and Turnitin for submitting assignments. You will need to bring a WiFi enabled device to every class to use in student centred, problem based learning activities and for access to online analytical tools. The web page for this unit can be found at: iLearn <http://ilearn.mq.edu.au>

**The timetable for classes** can be found on the University web site at: <http://www.timetables.mq.edu.au/>

## Learning and Teaching Activities

### Active learning

This unit is taught using lectures and a combination of student presentations, video presentations and discussions. Students are expected to read prescribed text chapters before lectures, attend lectures, join in discussions and complete all assessments. Reflection is crucial to integrating unit material. Therefore active participation in discussions and exercises is of great importance not only to the participating student but to the whole class.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy [http://mq.edu.au/policy/docs/academic\\_honesty/policy.html](http://mq.edu.au/policy/docs/academic_honesty/policy.html)

**New Assessment Policy in effect from Session 2 2016** [http://mq.edu.au/policy/docs/assessment/policy\\_2016.html](http://mq.edu.au/policy/docs/assessment/policy_2016.html). ## Graduate Capabilities

### PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

#### Learning outcomes

- 1. To understand the nature and scope of the strategic management process and of the different strategic approaches available to an organisation
- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit
- 3. To be able to apply the key strategic management tools and models

#### Assessment tasks

- Group Assignment
- Final examination

#### Learning and teaching activities

- This unit is taught using lectures and a combination of student presentations, video presentations and discussions. Students are expected to read prescribed text chapters before lectures, attend lectures, join in discussions and complete all assessments. Reflection is crucial to integrating unit material. Therefore active participation in discussions and exercises is of great importance not only to the participating student but to the whole class.

### PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

#### Learning outcomes

- 1. To understand the nature and scope of the strategic management process and of the different strategic approaches available to an organisation

- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit

Therefore active participation in discussions and exercises is of great importance not only to the participating student but to the whole class.

## **PG - Research and Problem Solving Capability**

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

## **Learning outcome**

- 2. To be able to evaluate an organisation, its strategy, and its environment in terms of congruence or strategic fit

## Changes from Previous Offering

No changes since last offering – both the prior version of the textbook and the most recent one can be used.

## Global Contexts & Sustainability

In an ever more globalised and interconnected world, the sustainability of organisational practice is increasingly important. The concepts and frameworks introduced in this unit will help students analyse and make sense of some of the complexities underlying sustainable organisational practice.

## Research and Practice

The assignments requires students to conduct original research, which involves the collection and analysis of information from a range of sources. This unit uses research from external sources as listed in the references lists on iLearn.
