Unit description

This advanced financial accounting unit provides an in-depth examination of the corporate reporting and governance framework in Australia. In particular, it examines the role of institutions that influence the timing and content of financial reporting in Australia, as well as the financial reporting obligations imposed by the Corporations Act 2001 (Cth). The role of corporate governance is a particular focus of the unit, and the Australian Stock Exchange's Corporate Governance Principles and Recommendations 2010 will be considered in detail. Finally, a number of important Australian/International accounting standards dealing with disclosure will be reviewed.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Apply financial reporting requirements in the Australian and global context

Analyse and discuss the challenges of international convergence, harmonisation and

adoption of accounting standards

Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports

Evaluate references from web sites which provide current and future reporting requirements

Develop research skills to articulate clearly well-reasoned solutions and conclusions on topics examined in the unit.

Assessment Tasks

Name	Weighting	Due
<u>Report</u>	15%	7 October 2016
<u>Class Test</u>	15%	9 September 2016
<u>Assignment</u>	20%	Over the Session
<u>Final Examination</u>	50%	November 2016

Report

Due: **7 October 2016**

Weighting: **15%**

Quantitative Research Project

Assessment of AASB Research Report No. 1 June 2014: [Application of the Reporting Entity Concept and Lodgement of Special Purpose Financial Statements](#)

http://www.aasb.gov.au/admin/file/content102/c3/AASB_RR-1_06-14_Reporting_Entities_and_SPFSSs.pdf

Workload: At least 12 hours in the Mid-Session break.

Extensions

No extensions will be granted. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission - 20% penalty). This penalty does not apply for cases in which an application for disruption of studies is made and approved. No submission will be accepted after solutions have been posted.

Turnitin

All text based assessments must be submitted through Turnitin as per instructions provided in

the unit guide. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted and only Turnitin records will be taken as records of submission.

Multiple submissions may be possible in some units via Turnitin prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it approximately takes 24 hours for the report to be generated. This may be after the due date so students should plan any resubmissions carefully. Please refer to these instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff. Should you have questions about Turnitin or experience issues submitting through the system, you must inform your unit coordinator immediately. If the issue is technical in nature may also lodge OneHelp Ticket, refer to the IT help page.

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work submitted and is unable to do so, they may be awarded zero (0) for that particular assessment task.

On successful completion you will be able to:

- Analyse and discuss the challenges of international convergence, harmonisation and adoption of accounting standards
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports
- Evaluate references from web sites which provide current and future reporting requirements
- Develop research skills to articulate clearly well-reasoned solutions and conclusions on topics examined in the unit.

Class Test

Due: **9 September 2016**

Weighting: **15%**

A Class Test will be held during the class on Friday 9 September 2016. All topics up to and including the topic for the class of 2 September 2016 are examinable. Further information regarding the format of this Class Test will be provided in class.

Extensions:

The only exception to not sitting the Class Test at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Disruption to Studies (DTS). The University's policy on Disruption to Studies is available at

http://www.mq.edu.au/policy/docs/disruption_studies/policy.html

Upon the approval of DTS you will be provided with a supplementary test

Workload: 12 hours.

On successful completion you will be able to:

- Apply financial reporting requirements in the Australian and global context
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports

Assignment

Due: **Over the Session**

Weighting: **20%**

I. WEEKLY ASSIGNMENTS (10%)

During the Session, 3 of your weekly assignments will be collected for the purpose of assessing whether or not you are making sufficient effort in preparing answers to assignment questions. No advance notice will be given that a particular weekly assignment will be collected. It is only possible to submit your assignment in the session in which the assignment is due.

This part of the assessment is worth 10%. The best 2 of the 3 collections will be counted towards this assessment. The following grading system will apply: An assignment deemed by the lecturer to be satisfactory (i.e. where all questions have been satisfactorily attempted, with a "satisfactory attempt" meaning a genuine attempt to **fully** answer all questions) will be graded as "S" (satisfactory) and will earn the full 5%.

An assignment deemed by the lecturer to be incomplete (i.e. a small number of the questions have not been attempted or not fully answered but a genuine attempt has been made to fully answer the other questions) will be graded as "I" (incomplete) and will earn 3%..

An assignment deemed by the lecturer to be unsatisfactory (i.e. not assessed as falling within the other two categories) will be graded as "U" (unsatisfactory) which earns 0%.

Weekly assignments must be word-processed (typed). Under no circumstances will **handwritten assignments** be accepted. In addition, your student number must appear in the top right-hand corner of each page of the assignment.

Extensions: No extensions will be granted, except for cases in which an application for disruption to studies is received (with any supporting documentation, e.g. medical certificate attached) and approved. In such cases another Assignment will be collected.

Workload: Lectures 39 hours; Assignments 60 hours

II. CLASS PRESENTATION (10%)

During the Session, each student will be allocated an assignment question and will be required to present their answer to the class. The presentation will be graded out of 10 marks (in total 10% of the Unit).

The Presentation will be assessed using the following criteria which covers both the technical correctness of the answer and quality of presentation: How well the material is structured; how effective the answer to the question is; how clearly and well communicated the key points are expressed; how well the class's attention is kept; how clear and concise the summary is.

Extensions: No extensions will be granted, except for cases in which an application for disruption to studies is received (with any supporting documentation, e.g. medical certificate attached) and approved. In such cases another Presentation will be requested.

On successful completion you will be able to:

- Apply financial reporting requirements in the Australian and global context
- Analyse and discuss the challenges of international convergence, harmonisation and adoption of accounting standards
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports
- Evaluate references from web sites which provide current and future reporting requirements
- Develop research skills to articulate clearly well-reasoned solutions and conclusions on topics examined in the unit.

Final Examination

Due: **November 2016**

Weighting: **50%**

A final examination is included as an assessment task for this unit to provide assurance that:

- i) the product belongs to the student, and
- ii) the student has attained the knowledge and skills tested in the exam.

To **pass** the unit a student must **pass the final examination** and achieve a passing grade in their overall marks.

The final examination for this unit will be held during the University Examination period. The University Examination period is in November 2016. More information about the final examination will be provided later in the Session.

You are expected to present yourself for examination at the time and place designated in the University Examination Timetable. The timetable will be available in Draft form approximately eight weeks before the commencement of the examinations and in Final form approximately four weeks before the commencement of the examinations.

The only exception to not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these circumstances you may wish to consider applying for Disruption to Studies. The University's policy on Disruption to Studies is available at

http://www.mq.edu.au/policy/docs/disruption_studies/policy.html

If a Supplementary Examination is granted as a result of the Disruption to Studies the examination will be scheduled as per the Supplementary Examination timetable of the Faculty. Please note that the supplementary examination will be of the similar format as the final examination.

[http:// exams.mq.edu.au/](http://exams.mq.edu.au/)

The Macquarie university examination policy details the principles and conduct of examinations at the University. The policy is available at: <http://www.mq.edu.au/policy/docs/examination/policy.htm>

Workload: At least 27 hours.

Total Workload as follows:

Lectures 39 hours

Weekly Assignments 60 hours

Mid-Session Test 12 hours

Research Project 12 hours

Final Exam preparation 27 hours

Total hours 150

On successful completion you will be able to:

- Apply financial reporting requirements in the Australian and global context
- Analyse and discuss the challenges of international convergence, harmonisation and

adoption of accounting standards

- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports

Graduate Capabilities

PG - Capable of Professional and Personal Judgment and Initiative

Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

Learning outcomes

- Analyse and discuss the challenges of international convergence, harmonisation and adoption of accounting standards
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports
- Develop research skills to articulate clearly well-reasoned solutions and conclusions on topics examined in the unit.

Assessment tasks

- Report
- Class Test
- Final Examination

PG - Critical, Analytical and Integrative Thinking

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

Learning outcomes

- Apply financial reporting requirements in the Australian and global context
- Analyse and discuss the challenges of international convergence, harmonisation and adoption of accounting standards
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports
- Evaluate references from web sites which provide current and future reporting requirements

Assessment tasks

- Report
- Class Test
- Assignment
- Final Examination

PG - Research and Problem Solving Capability

Our postgraduates will be capable of systematic enquiry; able to use research skills to create

new knowledge that can be applied to real world issues, or contribute to a field of study or practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

Learning outcomes

- Apply financial reporting requirements in the Australian and global context
- Analyse and discuss the challenges of international convergence, harmonisation and adoption of accounting standards
- Understand the merits of tiered financial reporting and apply the differing needs of users and preparers of financial reports
- Evaluate references from web sites which provide current and future reporting requirements
- Develop research skills to articulate clearly well-reasoned solutions and conclusions on topics examined in the unit.

Research and Practice, Global and Sustainability

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing ability in students to research and locate information within accounting discipline.

The Week 2 lecture topic on Integrated Reporting specifically considers the reporting of environmental, sustainability and governance by companies.

The Week 3 lecture looks at corporate governance from a global perspective.

The Week 5 lecture topic considers the globalisation of accounting standards and the implications for future accounting research.

We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
