Delivery and Resources

Lectures and Tutorials

The main means of presentation is by way of 13 two-hour lectures and 12 weekly tutorials of one hour duration. Lectures cover the basic material as outlined in the listed topics, as well as noting where each topic fits into the overall framework of the tax regime.

Each week's lecture outlines (PowerPoint slides) will be posted on i-Learn prior to the formal lecture. They are not intended to be a substitute for lecture attendance. They cannot be relied upon to the exclusion of the allocated reading tasks for each week. You are expected to prepare your own notes from the prescribed reading set out in this unit's **Assessment Guide** to supplement the material set out in the lecture outlines.

The Lectures will also be recorded on Echo 360 on a weekly basis.

The tutorial questions for each week's class are to be found in the unit's **Tutorial Guide**. The tutorial questions have been designed to provide a practical application of the principles discussed in lectures. Tutorials will involve an analysis and discussion of preset questions based on the previous week's lecture. They therefore complement and consolidate the topics covered in lectures. It is essential that adequate preparation be undertaken BEFORE each tutorial in order for the full benefit to be gained.

Students - **(including those enrolled in the i-Lecture stream)** - will also be expected to participate in tutorials through the submission of hand-written responses (to the questions in Tutorials 2 - 13), contributing to class discussions, formal presentations during tutorials, and showing an interest in other learning activities conducted by the tutor.

Classes

- The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>
- Students can only change their allocated lecture or tutorial class in the first three (3) weeks through the e-Student system and only when there is a vacancy in that class or lecture.
- If a student changes classes in the first three weeks, it is their responsibility to inform both their old tutor and their new tutor. Failure to inform tutors about the change in class allocation may result in a student not obtaining all the class marks for which all students are eligible.
- You must attend your official tutorial class. Tutors will keep attendance records and you can only attend class or sit for the class presentation in your registered tutorial. Please ensure that you know your tutor's name and your tutorial number as this information is required to be noted on your weekly written presentation report is handed in at tutorials.
- **Participation:** Students are expected to attend and participate in at least 10 out of 12 tutorial classes during the session. Failure to do so will result in 0.5 marks per missed tutorial being deducted from the overall tutorial participation mark that would have been allocated to you.
- **Students enrolled in the i-Lecture stream are expected to attend the weekly tutorials and to participate in completing the "Assessed Coursework" components of this unit.**
- In cases where classes have been missed because of illness or misadventure, it is up to the student to provide relevant documentation - (such as medical certificates or other reports) - explaining the reasons for their absence. The documentation must be lodged with BESS in accordance with the disruption to studies procedure.
- Students are expected to arrive on time and not to leave until the class ends.
- If you have a recurring problem that makes you late, or compels you to leave early, have the courtesy to discuss this with your lecturer/tutor.
- Students who disturb or disrupt in lectures and tutorial class will be asked to leave.

Note: *Students enrolled in the i-Lecture stream of this unit are expected to turn up to the Lecture Theatre, to sit for the Class Test on the day it is scheduled.*

Changes from Previous Offering

An indicative outline of the estimated breakdown of workloads in this unit has been included for this Session's offering.

Research and Practice, Global and Sustainability

This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing ability in students to research and locate information within the accounting and legal disciplines. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career.

The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
