Unit description

Human beings are fundamentally social creatures who depend on one another for their survival and well-being, both physical and psychological. Everyone is born with powerful needs for love, friendship and belonging; similarly, we fear and avoid rejection, loneliness and the disapproval of others. Despite the central role they play in our lives, however, developing and maintaining happy and healthy relationships with family members, spouses, friends and even workmates is not easy, and professional psychologists spend the bulk of their time dealing with clients' relationship problems. This unit examines a variety of relationship topics from a social psychological perspective including attraction, love- and mate selection; kinship, friendship and enemyship; jealousy, betrayal and forgiveness; communication, conflict and aggression; and the processes involved in relationship breakdown and repair. Throughout, there is a strong emphasis on critically examining so-called 'pop' psychological approaches to relationships, and students are encouraged to examine the complexities of relationship structures and processes from different cultural perspectives.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes

On successful completion of this unit, you will be able to:

explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived

analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships

understand the strengths and weaknesses of research methods used in relationship research

apply findings from empirical research on relationships to real-world relationship issues critique so-called pop-psychological approaches to relationships from an informed, scientific perspective and effectively communicate findings

Assessment Tasks

Name	Weighting	Due
Research Report	20%	Thursday 8th September
Essay	30%	Thursday 20th October
Exam	40%	University examination period
Tutorial assessment	10%	by end of semester

Research Report

Due: Thursday 8th September

Weighting: 20%

The purpose of this report is to give students some experience of finding and critically reviewing relevant psychological literature on a relationship-related question of their own choosing. Markers will be looking for a well-structured, coherent and thoughtful critique of the chosen literature. Details will be available on the PSY350 iLearn Website.

On successful completion you will be able to:

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship

research

- · apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Essay

Due: Thursday 20th October

Weighting: 30%

The essay is designed to assess students' ability to critically evaluate scientific knowledge and formulate a coherent and intelligent discussion of the relevant issues of a topic within the psychology of human relationships. The essay questions will be available on the PSY350 iLearn web site.

On successful completion you will be able to:

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship research
- apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Exam

Due: University examination period

Weighting: 40%

The multiple choice exam is designed to assess knowledge and understanding of material covered in the lectures, textbook, and readings. It will comprise 80 questions, each worth 0.5 marks

On successful completion you will be able to:

- understand the strengths and weaknesses of research methods used in relationship research
- · apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Tutorial assessment

Due: by end of semester

Weighting: 10%

Details will be presented on the PSY350 Website and in tutorials. Note, tutorials are compulsory and run fortnightly for 2 hours.

On successful completion you will be able to:

- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship research
- · apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Delivery and Resources

Teaching and Learning strategy

The unit is taught through lectures and prescribed readings covering the core material and tutorials. The tutorials comprise practical activities and class discussions which have been designed to develop graduate attributes, enhance student involvement, and provide focus on certain topics. Students are expected to (a) listen to lectures and attend tutorials, (b) complete all forms of assessment, (c) read the prescribed materials, and (d) contribute to tutorial exercises and discussions. Note that attendance in tutorials is compulsory.

Webpage of unit

Login via the Online Teaching system: https://ilearn.mq.edu.au. Evening students will be able to listen to the recorded lectures online but must attend their assigned tutorial. Students enrolled in the iLecture mode can access the iLecture recording of the lecture, but must attend the compulsory tutorial/practical class.

Policies and Procedures

Macquarie University policies and procedures are accessible from <u>Policy Central</u>. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

New Assessment Policy in effect from Session 2 2016 http://mq.edu.au/policy/docs/assessment/policy_2016.html. For more information visit http://students.mq.edu.au/events/2016/07/19/new_assessment_policy_in_place_from_session_2/

Assessment Policy prior to Session 2 2016 http://mq.edu.au/policy/docs/assessment/policy.html

Grading Policy prior to Session 2 2016 http://mq.edu.au/policy/docs/grading/policy.html

Grade Appeal Policy http://mq.edu.au/policy/docs/gradeappeal/policy.html

Complaint Management Procedure for Students and Members of the Public http://www.mq.edu.au/policy/docs/complaint_management/procedure.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the <u>Learning and Teaching Category</u> of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in <a href="extraction-color: blue} eStudent. For more information visit <a href="extraction-color: blue} ask.m q.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (<u>mq.edu.au/learningskills</u>) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

Student Services and Support

Students with a disability are encouraged to contact the <u>Disability Service</u> who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/ offices and units/information technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Assessment task

Tutorial assessment

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

· apply findings from empirical research on relationships to real-world relationship issues

Assessment task

· Tutorial assessment

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

apply findings from empirical research on relationships to real-world relationship issues

critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Assessment task

Tutorial assessment

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship research
- apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Assessment tasks

- Research Report
- Essay
- Exam
- Tutorial assessment

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship research
- · apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Assessment tasks

- Research Report
- Essay
- Exam
- · Tutorial assessment

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- analyse the strengths and weaknesses of competing explanations of issues in the field of human relationships
- understand the strengths and weaknesses of research methods used in relationship research
- apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Assessment tasks

Research Report

- Essay
- Exam
- Tutorial assessment

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- explain contemporary issues in the psychology of human relationships literature and the theories from which they are derived
- apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings

Assessment tasks

- · Tutorial assessment

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcome

apply findings from empirical research on relationships to real-world relationship issues

Assessment task

Tutorial assessment

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and

country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- understand the strengths and weaknesses of research methods used in relationship research
- apply findings from empirical research on relationships to real-world relationship issues
- critique so-called pop-psychological approaches to relationships from an informed,
 scientific perspective and effectively communicate findings
