Co-badged status

Unit description
This unit explores the value of teaching History in the current educational context and provides relevant and innovative pedagogies for secondary History teachers. Current syllabus developments and directions in teaching History are examined, and student-based and cooperative learning strategies are modelled and discussed. There is a strong focus on developing students’ understanding of literacy, aboriginal education, multiculturalism, and civics and citizenship education. The unit examines how teachers can implement technology into their classroom practice to develop historical skills and understandings. The unit is closely related to TEP401. Please consult the Secondary TEP guide for recommended prior discipline studies.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes
1. H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
2. H2 research, select, evaluate and create appropriate resources for teaching and learning history
3. H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
4. H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
5. H5 use historical understandings and skills and the process of historical inquiry to teach history
6. H6 integrate ICT into the teaching of history
7. H7 demonstrate understanding of NSW Board of Studies assessment requirements for Higher School Certificate
8. H8 design assessment strategies that demonstrate the achievement of outcomes

**Workshop/ilearn Participation**

Due: **throughout course**

Weighting: **10%**

Activity and flipped engagement, contribution and participation

This Assessment Task relates to the following Learning Outcomes:
- H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
- H2 research, select, evaluate and create appropriate resources for teaching and learning history
- H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
- H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
• H6 integrate ICT into the teaching of history

Lesson sequence including skill

Due: 17 March
Weighting: 20%

Showing the teaching and development of an historical skill with reflection.

This Assessment Task relates to the following Learning Outcomes:
• H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
• H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills

In class presentation

Due: 31/3/2015 @ 7/4/2015
Weighting: 30%

Describing and presenting concepts

This Assessment Task relates to the following Learning Outcomes:
• H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
• H2 research, select, evaluate and create appropriate resources for teaching and learning history
• H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
• H6 integrate ICT into the teaching of history
• H7 demonstrate understanding of NSW Board of Studies assessment requirements for Higher School Certificate

Teaching program

Due: 2/6/2016
Weighting: 40%

Depth Study writing

This Assessment Task relates to the following Learning Outcomes:
• H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
• H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
• H5 use historical understandings and skills and the process of historical inquiry to teach history
• H8 design assessment strategies that demonstrate the achievement of outcomes

**Delivery and Resources**

*Presentation of written work and teaching resources*

All assignments must be presented in word processed format. Use of appropriate and relevant computer programs is an important part of your development and presentation as a professional and will be expected of you as a beginning teacher. Teaching materials (such as source sheets, study guides, assignment guidelines etc.) should also be word processed, of a professional standard and ready for classroom use. There will be occasions when it is appropriate to use free-hand for labelling, captions, drawing or graphics, but once again a high standard of presentation is required. Teaching materials convey information or instructions and should also model effective communication and presentation.

**Standard of Literacy**

You are expected to demonstrate a high level of literacy competence in your written work in order to pass each assignment. Repetitive grammatical errors will be considered evidence of lack of knowledge of correct grammatical forms, e.g. plural nouns, possessive case etc., and will be penalised. *Please take care to spell-check and proof-read your work before submitting it for marking.* Tasks with errors in spelling, grammar and punctuation cannot access the highest grade. It may be helpful to have a peer red your work for such errors.

**IMPORTANT INFORMATION about submitting your tasks.**

1. **ATTACH** and sign a personalised barcoded cover sheet to the front of your assignment. These can be downloaded from [http://www.humansciences.mq.edu.au/current_students/undergraduate/assignment_cover_sheet](http://www.humansciences.mq.edu.au/current_students/undergraduate/assignment_cover_sheet).
2. **CLEARLY LABEL** all components and resources and attach them to the relevant task.
3. **INCLUDE** a footer with your name and task number on each page.
4. **ATTACH** relevant marking criteria.
5. **SUBMIT TASKS ON TIME**, i.e. by 4.00 pm on the due date.

Please keep a photocopy or electronic copy of your assignments. In all but exceptional circumstances, claims about ‘lost’ assignments cannot be made where these copies cannot be produced. Electronic submissions will be returned to you at your Macquarie student email address.
Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Academic Integrity Module for Students
Graduate Capabilities

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

• H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
• H5 use historical understandings and skills and the process of historical inquiry to teach history
• H6 integrate ICT into the teaching of history
• H8 design assessment strategies that demonstrate the achievement of outcomes

Assessment tasks

• Workshop/ilearn Participation
• Lesson sequence including skill
• In class presentation
• Teaching program
Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

**Learning outcomes**

- H2 research, select, evaluate and create appropriate resources for teaching and learning history
- H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
- H6 integrate ICT into the teaching of history
- H8 design assessment strategies that demonstrate the achievement of outcomes

**Assessment tasks**

- Workshop/ilearn Participation
- In class presentation
- Teaching program

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

**Learning outcomes**

- H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
- H5 use historical understandings and skills and the process of historical inquiry to teach history

**Assessment tasks**

- Workshop/ilearn Participation
- Lesson sequence includng skill
- Teaching program
Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

**Learning outcomes**

- H1 demonstrate understanding of the knowledge base underpinning the principles and practices of teaching and learning history
- H2 research, select, evaluate and create appropriate resources for teaching and learning history
- H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
- H5 use historical understandings and skills and the process of historical inquiry to teach history
- H8 design assessment strategies that demonstrate the achievement of outcomes

**Assessment tasks**

- Workshop/ilearn Participation
- Lesson sequence including skill
- In class presentation
- Teaching program

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

**Learning outcomes**

- H2 research, select, evaluate and create appropriate resources for teaching and learning history
H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
H6 integrate ICT into the teaching of history
H8 design assessment strategies that demonstrate the achievement of outcomes

Assessment tasks
- Workshop/ilearn Participation
- In class presentation
- Teaching program

Creative and Innovative
Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes
- H2 research, select, evaluate and create appropriate resources for teaching and learning history
- H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
- H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills
- H5 use historical understandings and skills and the process of historical inquiry to teach history
- H6 integrate ICT into the teaching of history
- H8 design assessment strategies that demonstrate the achievement of outcomes

Assessment tasks
- Workshop/ilearn Participation
- Lesson sequence including skill
- In class presentation
- Teaching program

Engaged and Ethical Local and Global citizens
As local citizens our graduates will be aware of indigenous perspectives and of the nation’s historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should
have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

**Learning outcome**
- H4 implement a range of pedagogical models to teach historical knowledge, understandings and skills

**Assessment tasks**
- Workshop/ilearn Participation
- Lesson sequence including skill
- Teaching program

**Socially and Environmentally Active and Responsible**

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

**Learning outcome**
- H7 demonstrate understanding of NSW Board of Studies assessment requirements for Higher School Certificate

**Assessment task**
- In class presentation

**Capable of Professional and Personal Judgement and Initiative**

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

**Learning outcomes**
- H2 research, select, evaluate and create appropriate resources for teaching and learning history
- H3 develop logical and sequential lessons and teaching and learning programs to meet learning outcomes
• H5 use historical understandings and skills and the process of historical inquiry to teach history
• H7 demonstrate understanding of NSW Board of Studies assessment requirements for Higher School Certificate

Assessment tasks

• Workshop/ilearn Participation
• In class presentation
• Teaching program
