Unit description

This unit engages students in critical and creative listening, understanding and performance of music, and aims to provide the student with analytical and conceptual foundations for advancing practical, aesthetic and critical awareness. Both the study of theory and aural recognition helps to develop performance skills in melodic and rhythmic competency, aural awareness and theoretical understanding. Assessment for the unit is founded on creative and performance projects, written assignments encompassing theory and notation, and aural recognition tasks.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Analyze and evaluate musical theory in conventional European Practice.

Identify and interpret melodic, harmonic and rhythmic structures in music.

Analyze and apply musical theory and practice through both notated and performed media.

Evaluate and apply theoretical structures to creative practice in music.

Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment Tasks

| Name | Weighting | Due |
|---|-----------|----------------------|
| <u>Project proposal</u> | 10% | Week 3 August 19 |
| <u>Theory Workbook Tasks</u> | 20% | Fortnightly |
| <u>Progress Report</u> | 10% | Week 6, Sept 9 |
| <u>Aural Test</u> | 20% | October 28 |
| <u>Final Creative Project</u> | 40% | Week 13; November 11 |

Project proposal

Due: **Week 3 August 19**

Weighting: **10%**

At the start of the semester students will provide an outline of a performance/composition task that they wish to complete by the end of the semester. This performance/composition task will be the Final Creative Project for the unit (see below). The Project Proposal should state clearly what the creative task will be and should present a study plan to indicate how they intend to work on the task throughout the semester.

Marking Criteria:

Coherency: Does the proposal provide a clear indication for 1) what activities are intended, 2) how creativity will be explored, and 3) what elements will comprise the submission.

Scope: Is the scope of the project achievable within the time frame for the assignment.

Conversely does the proposed project provide enough opportunity to demonstrate the creative endeavor in a meaningful way.

Submission Details:

A written proposal should be submitted through the unit iLearn site by the due date. Turnitin will not be used for this assignment.

On successful completion you will be able to:

- Evaluate and apply theoretical structures to creative practice in music.

Theory Workbook Tasks

Due: **Fortnightly**

Weighting: **20%**

Students will be provided with theoretical tasks as part of their in-class activities. Five of these will be identified as assessable and will be handed in for progressive assessment throughout the semester. Students should gather these tasks together into a workbook for future reference.

Marking Criteria:

All tasks will require a written response using musical notation in some form. Each workbook task will be weighted appropriately based on the content of the questions asked and the overall number of workbook tasks assigned. Students will be marked on whether their answers indicate a conventional understanding for the musical analysis and/or symbolic indication required.

Submission Details:

Tasks will be given to students in class on pre-organized workbook sheets. Students should return the hardcopies of these sheets directly to the convenor in the subsequent class.

On successful completion you will be able to:

- Analyze and evaluate musical theory in conventional European Practice.
- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.

Progress Report

Due: **Week 6, Sept 9**

Weighting: **10%**

Students will present a progress report on their final project. The project will be in written and aural form, and may be a preliminary performance (work in progress) in preparation for their final project.

Marking Criteria:

Has demonstrable progress been made towards preparing the project. Demonstrable progress includes conceptual development and practical work.

Submission Details:

Students will give a short aural presentation in class of their work so far. A short (300 - 500 word) report on the progress they have made should be submitted to the convenor at the time of this aural presentation. Turnitin will not be used for this assignment.

On successful completion you will be able to:

- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Aural Test

Due: **October 28**

Weighting: **20%**

Students will undertake regular 'non-assessed' activities in class which will be designed to improve their aural understanding of music. These activities will comprise singing and/or listening tasks. At the end of the semester students will be given an aural test in relation to the tasks and activities practiced throughout the semester.

Marking Criteria

Has the student been able to recognize and correctly identify specific musical phrases, idioms and structures as discussed in class? These will include specific rhythmic patterns and melodic elements.

Submission Details:

During the week of October 28 students will sit for an aural test in class.

On successful completion you will be able to:

- Analyze and evaluate musical theory in conventional European Practice.
- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.

Final Creative Project

Due: **Week 13; November 11**

Weighting: **40%**

At the end of the semester students will submit a score and/or a recording of the Creative Project that they outlined at the beginning of the semester. This creative project may take various forms. It may involve musical performance and/or composition (note: it may involve both) and should demonstrate ways in which they have explored new musical forms and/or sounds. The project outcome may involve theoretical/aural ideas learned in class but may also move into new areas of musical experimentation. Scores may comprise various forms of notation and/or instructions. Performances may be either individually performed or as part of an ensemble. If the project involves performance, this final performance should be submitted as a recording.

Marking Criteria:

Has the student demonstrated a high level of musical understanding through the performance or recorded/composed product they have created.

Does the project demonstrate significant internal musical coherency as a unified idea.

Does the project demonstrate the student's ability to carry through a musical task of considerable complexity.

Did the final outcome from the project demonstrate the student's ability to follow through, in a sustained manner, on plans set at the beginning of the semester?

Submission Details:

Final projects will be in different formats depending on the medium chosen by each student. These could be written compositions and/or recorded expressions of those works. Live performance is also possible. Submission of each of these will vary according to the project chosen. Details will be discussed in class. Turnitin will not be used for this assignment.

On successful completion you will be able to:

- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.
- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Delivery and Resources

All classes for this unit are organized as two hour seminars. All seminars involve a practical component designed to develop skills as outlined in the Learning Outcomes. Consequently, attendance at the seminars is essential and not ECHO recording will be undertaken for the classes.

There is one mandatory textbook for the unit which must be purchased from the CO-OP: Fitzgerald, J. 1999. Popular Music Theory and Musicianship. East Lismore: Hazelmount.

Late Submissions

Tasks 10% or less. No extensions will be granted. Students who have not submitted the task prior to the deadline will be awarded a mark of 0 for the task, except for cases in which an application for Disruption to Studies is made and approved.

Tasks above 10%. Students who submit late work without an extension will receive a penalty of 10% per day. This penalty does not apply for cases in which an application for Disruption to Studies is made and approved.

Unit Schedule

The topic schedule for the unit will be provided in the first week of the semester.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

New Assessment Policy in effect from Session 2 2016 http://mq.edu.au/policy/docs/assessment/policy_2016.html. For more information visit http://students.mq.edu.au/events/2016/07/19/new_assessment_policy_in_place_from_session_2/

Assessment Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/assessment/policy.html>

Grading Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/grading/policy.html>

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Complaint Management Procedure for Students and Members of the Public http://www.mq.edu.au/policy/docs/complaint_management/procedure.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html *The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.*

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)

- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.
- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Project proposal
- Theory Workbook Tasks
- Progress Report
- Aural Test
- Final Creative Project

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Progress Report
- Final Creative Project

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Project proposal
- Progress Report
- Final Creative Project

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific

knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Analyze and evaluate musical theory in conventional European Practice.
- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.

Assessment tasks

- Theory Workbook Tasks
- Progress Report
- Aural Test
- Final Creative Project

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Analyze and evaluate musical theory in conventional European Practice.
- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.
- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Project proposal
- Theory Workbook Tasks
- Progress Report
- Aural Test
- Final Creative Project

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Analyze and evaluate musical theory in conventional European Practice.
- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Project proposal
- Theory Workbook Tasks
- Progress Report
- Aural Test
- Final Creative Project

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Identify and interpret melodic, harmonic and rhythmic structures in music.
- Analyze and apply musical theory and practice through both notated and performed media.
- Evaluate and apply theoretical structures to creative practice in music.
- Critique and summarize one's own, and one's peer's, creative practices in musical performance.

Assessment tasks

- Project proposal

- Theory Workbook Tasks
- Progress Report
- Aural Test
- Final Creative Project
