### Unit description

This unit provides insights into five broad aspects of management systems: environment of management; organisations and their behaviour; management of human resources; project management and control; contracts; assessment; control and quality management; training; documentation and industrial relations legal issues; and management responsibility. From a practical perspective the unit involves examining new venture start-ups with high-tech industrial and commercial domains, with students working in groups on a business plan. The unit is aimed at students with a background that is typically technical although this is not essential.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at [http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/](http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/)

## Learning Outcomes

1. Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.
2. Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.
3. Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.
4. Understand and apply all the different elements that are needed to successfully build and operate an effective team, organisation and business e.g. marketing, operations, financials and control.

**General Assessment Information**

**Assessment policy**

If you cannot complete a piece of work please see the convenor before the due date. Check also the Disruption to Studies policy. A more detailed description of each task is given below. Assessment tasks explained

As the table under assessment tasks indicates, there will be 9 assessment tasks.

- Four iLearn multiple choice quizzes
- One main individual assignment.
- One group assignment - individually moderated
- A presentation (in Session 12) on the group assignment. Attendance at the presentation is compulsory. This presentation is marked individually.
- One mid semester test on material from the first half of semester.
- One final examination on material from the second half of semester.

See the Grading section for information on grades and performance criteria.

All assignments and quizzes should be completed or submitted via the online system at [http://learn.mq.edu.au/](http://learn.mq.edu.au/) by the time specified in the assignment description.

All work submitted should be readable and well presented.

Late work will be accepted with a penalty of 10% of the marks for the assignment per day, or part day, submitted late. Hence, an assignment submitted four and a half days late will get at most half the marks. If you cannot submit on time because of illness or other circumstances, please contact the lecturer before the due date.

**Final Examination**

For this unit, a mid-semester test and final examination will test learning and knowledge of all learning outcomes. In particular, these two assessment items will allow for accurate reflection of the degree of understanding of learning outcomes LO2, LO3 and LO4.

As usual there will be a final examination but it will account for 20% of the final mark as it will only be testing material covered in the second half of semester.

It is a mandatory requirement that students will still achieve a satisfactory mark in the final examination in order to be able to pass the unit.

Regarding the examination process, note that

Delivery and Resources
The mandatory text book is:
• Management (7th Ed) Robbins, Bergman, Stagg & Coulter, Pearson, 2015.

Do not buy earlier editions as the quiz questions in particular will directly relate only to the 7th edition. A less expensive e-book is available for $50 which will meet the unit requirements. See: http://www.pearson.com.au/9781486006335

All lecture slides will be available from iLearn. Audio from the lectures will be available via the Echo360 system with links from the unit’s iLearn home page.

Students will need to attend the workshops to engage in group discussions and receive a summary session from the lecturer. These workshops are an integral part of the unit and students are encouraged to participate. The final examination will include questions based on the workshops.

All assignments are accessed from iLearn and submitted through iLearn.

Assignments 1 and 2 are Turnitin assignments, submitted through iLearn, but sent to Turnitin for plagiarism checking. Students should allow up to 24 hours to receive Turnitin feedback reports.

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](http://mq.edu.au/policy/docs). Students should be aware of the following policies in particular with regard to Learning and Teaching:

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in *eStudent*. For more information visit ask.mq.edu.au.

**Staff-Student Liaison Committee**

The Department has established a Staff-Student Liaison Committee at each level (100, 200, 300) to provide all students studying a Computing unit the opportunity to discuss related issues or problems with both students and staff.

The committee meets three times during the semester. For each meeting, an agenda is issued and minutes are taken. These are posted on the web at http://www.comp.mq.edu.au/undergrad/info/liaison/300-level/

If you have exhausted all other avenues, then you should consult the Director of Teaching (Assoc. Prof. Steve Cassidy) or the Head of Department (Dr. Christophe Doche). You are entitled to have your concerns raised, discussed and resolved.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at ask.mq.edu.au

**Equity Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.
IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.
- Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.
- Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.
- Understand and apply all the different elements that are needed to successfully build and operate an effective team, organisation and business e.g. marketing, operations, financials and control.

Assessment tasks

- Assignment 1

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.
- Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.
- Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:
Learning outcomes

• Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.
• Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.
• Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

• Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.
• Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.
• Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.

**Engaged and Ethical Local and Global citizens**

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

**Learning outcomes**

• Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.

• Demonstrate an understanding of individual personalities and communication styles and how this impacts interpersonal interactions and team motivation and performance.

• Practice how to both provide and accept critical analysis and constructive criticism for continuous improvement in deliverables and demonstrate social learning and problem based learning skills.

• Understand and apply all the different elements that are needed to successfully build and operate an effective team, organisation and business e.g. marketing, operations, financials and control.

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

**Learning outcomes**

- Develop leadership skills to co-ordinate a team of people to deliver a useful and valuable product or service or launch a new business venture.

- Final Examination

**Changes from Previous Offering**

1. There will be a mid-semester test (20%) covering material from weeks 1-6.
2. The final exam (20%) will cover material from weeks 7-12 only.

**Attendance**

Attendance of Workshops and the industry guest lecture is mandatory.
Case studies will be specifically included in the Final Examination, and Workshops are not recorded for practical and legal reasons. Hence, you will not be able to adequately answer the Workshop specific exam questions if you did not participate in the guided class discussions.

During the second half of the unit, the focus is on Assignment Two, the Group Business Plan. Students benefit from guidance and coaching by the lecturer, and Workshops provide an opportunity for informal discussions. The Learning Outcomes refer to leadership and people skills as well as critical analysis and business understanding. The Workshops are essential for developing these skills.

Furthermore, attendance will be recorded for the Microsoft industry guest lecture on Tuesday, 24th May, 2016. We cannot expect to attract excellent industry speakers if students do not bother to attend. Also, this lecture is not recorded and is examinable.

Attendance rules are as follows:

1. 80% attendance is the minimum requirement. You will FAIL THE UNIT, if you do not attend at least 8 out of 10 sessions. The 10 sessions are the 9 structured workshops from Week 2 to Week 10 inclusive and the industry guest lecture on 24/5/16.
2. If you miss one or two sessions, no action is required. This is permitted. However, if you miss more that 2 sessions, then an approved 'Disruption' is required to pass the unit.
   Apply for Disruptions at: https://ask.mq.edu.au/
3. The attendance will be marked in the first 5 to 10 minutes of the class. If you arrive late, within the first hour of the session, see the lecturer and you can receive a 50% attendance for the session.
4. If you need to leave early, see the lecturer. If approved, there will be no penalty. If you disappear without notice during the session, then your attendance will be cancelled. A count will be taken towards the end of the session, and if necessary, the roll remarked.

Grading

At the end of the semester, you will receive a grade that reflects your achievement in the unit

- **Fail (F)**: does not provide evidence of attainment of all learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; and incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.

- **Pass (P)**: provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; and communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes.
Standards

• **Credit (Cr):** provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; plus communication of ideas fluently and clearly in terms of the conventions of the discipline.

• **Distinction (D):** provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.

• **High Distinction (HD):** provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application.

In this unit, your final grade depends on your performance in each part of the assessment. For each task, you receive a mark that combines your standard of performance regarding each learning outcome assessed by this task. Then the different component marks are added up to determine your total mark out of 100. Your grade then depends on this total mark and your overall standards of performance.

**In particular, in order to pass the unit, you must**

• Have performed satisfactorily in Assignments One and Two.
• Have attempted at least 2 out of the 4 iLearn quizzes.
• Have attended at least 80% of the mandatory workshops and guest lecture sessions.
• Have satisfactory performance in the final examination.

This means that you may fail the unit if you do not submit satisfactory submissions for the assignments, do not attempt the quizzes or do not perform satisfactorily in the final exam. As well, this is not an external course, and attendance is mandatory.

**Department of Computing expectations are that students still have to perform satisfactorily in the final exam as well as in their internal work/assignments.**

Obtaining a grade higher than a Pass (P) in this unit will require a student to obtain (in addition to the above):

• the required total number of marks (Credit - 65, Distinction - 75, High Distinction - 85).
Four standards, namely HD, D, CR, P summarize as many different levels of achievement. Each standard is precisely defined to help students know what kind of performance is expected to deserve a certain mark. The standards corresponding to the **learning outcomes of this unit** are given below:
