Unit description

This unit addresses the eight strands that cover knowledge and understanding of personal development, health and physical education (PDHPE). The five skills are also examined to ensure the pre-service teacher unpacks strategies for developing positive healthy attitudes in children. The unit develops the pre-service teacher's interpersonal skills and skills in human movement and sports, and growth and development. It involves participation in active movement, dance and games experiences. Skills and knowledge in planning, teaching and evaluating PDHPE programs are examined, including modifications to the curriculum to meet the needs of diverse learners.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Integrate PDHPE with other Key Learning Areas.
- Design and implement lessons that are engaging and motivating for students by incorporating technology into the learning environment.
- Critically evaluate educational resources and link them to appropriate learning outcomes.

Assessment tasks

- Curriculum
- Lesson Planning

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Integrate PDHPE with other Key Learning Areas.
- Demonstrate a developing understanding of pedagogy and appropriate teaching strategies and be able to critically reflect on these.

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Demonstrate developing knowledge of content for the PDHPE Key Learning Area.
- Demonstrate a developing understanding of pedagogy and appropriate teaching strategies and be able to critically reflect on these.

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Demonstrate developing knowledge of content for the PDHPE Key Learning Area.
- Integrate PDHPE with other Key Learning Areas.
- Demonstrate a developing understanding of pedagogy and appropriate teaching

strategies and be able to critically reflect on these.

- Design and implement lessons that are engaging and motivating for students by incorporating technology into the learning environment.

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Integrate PDHPE with other Key Learning Areas.
- Demonstrate a developing understanding of pedagogy and appropriate teaching strategies and be able to critically reflect on these.
- Design and implement lessons that are engaging and motivating for students by incorporating technology into the learning environment.

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Demonstrate a developing understanding of pedagogy and appropriate teaching strategies and be able to critically reflect on these.
- Design and implement lessons that are engaging and motivating for students by incorporating technology into the learning environment.

- Critically evaluate educational resources and link them to appropriate learning outcomes.

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Design and implement lessons that are engaging and motivating for students by incorporating technology into the learning environment.
- Ensure that PDHPE is promoted within the early years of education to ensure a future healthy and active lifestyle.

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes
