Unit description
The cognitive sciences have made great strides in our understanding of mind and cognition. This unit covers the philosophical foundations of cognitive science. It examines the successes of cognitive science as well as some of the problems it currently faces – such as the nature of consciousness. It also looks at the recent challenge to computational approaches to cognition from the embodied and embedded movement and examines the importance of emotion and culture to understanding the mind and cognition. Some of the topics that are likely to be covered include (but are not limited to): representation and computation; pain; embodiment and body image; emotion; memory and the perception of time; moral cognition; the extended mind. No background in psychology or science is assumed.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Demonstrate an awareness of central problems in Cognitive Science
2. Understand and analyse arguments in the relevant literature
3. Critically evaluate these theories and arguments
4. Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
5. Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

**General Assessment Information**

Late outlines and papers will, absent an extension from me, lose 2% of the total score per calendar day, to a maximum of 20%. If you need an extension, you must request one by email before the due date. The short paper and the final paper must both be completed to pass the unit.

Quizzes & Tutorials (for Internal Students) and Lecture Summaries & Forum Participation (for External Students) cannot be made up if missed except in exceptional circumstances.

I take academic honesty very seriously. Misrepresenting other's work as your own will be grounds for a zero on the assignment in question and, if severe enough, referral to the Faculty Disciplinary Committee. If you have questions about how to properly cite work or how to credit sources, please talk to me and see also the Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

**Reading summary & discussion**

Due: Each week 2-13
Weighting: 35%

You need to submit a summary of the reading for 7 of the 10 discussions in the seminar (this will not be required in the first week). It is due before the start of the seminar. Late submissions will not be marked. Each week is worth 5 marks and if you submit more than 7 the best 7 will count. You also need to attend and engage in the discussion for each week. If you do not attend your summary will not be counted.

Summaries should be submitted via the link provided on iLearn.
This Assessment Task relates to the following Learning Outcomes:

• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments

Short Essay
Due: 18/4/16
Weighting: 20%

A short (1500 word) essay on the first part of the course (representation and computation)

This Assessment Task relates to the following Learning Outcomes:

• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Essay Plan
Due: 30/5/16
Weighting: 10%

You will write a short, 1-2 page plan of your final essay focusing on communicating the structure of your argument. Feedback will be given in time for you to take the comments into account for your final essay.

This Assessment Task relates to the following Learning Outcomes:

• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Essay Response
Due: 16/6/16
Weighting: 10%

You will write a response to the comments on your first essay detailing the mistakes you made and the effort you went to in the second essay to fix those mistakes.

This Assessment Task relates to the following Learning Outcomes:
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Final Essay
Due: 16/6/16
Weighting: 25%

A longer 2500 word essay on the second half of the course.

This Assessment Task relates to the following Learning Outcomes:
• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Lecture Attendance
Due: Continuous
Weighting: 0%
You need to attend 8/11 lectures (usually the second half of the seminar). If you have a demonstrated clash you need to have listened to the recording by the end of the week that the lecture was given. You will be penalized 2 marks for each missed lecture.

Please contact Liz if you have a clash

This Assessment Task relates to the following Learning Outcomes:

- Demonstrate an awareness of central problems in Cognitive Science
- Understand and analyse arguments in the relevant literature

Delivery and Resources

CLASSES

There is a two hour seminar each week. At time of publishing this was:

Monday 4-6pm X5B 132

Please check the timetable for any late changes.

Students are expected to attend the lectures and participate in the discussion.

READING

The readings are listed each week on iLearn. Readings should be done before the first lecture of the week.

WEBSITE

The unit website is available through iLearn (http://ilearn.mq.edu.au). It contains essential resources for the unit, and you are expected to log in on a regular basis. I will communicate with the course as a whole using the iLearn announcement function, so please check your Macquarie email regularly.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central. Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

**Results**

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit [ask.mq.edu.au](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

**Learning Skills**

Learning Skills ([mq.edu.au/learningskills](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

**Equity Support**

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

**IT Help**

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).
Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Demonstrate an awareness of central problems in Cognitive Science
- Understand and analyse arguments in the relevant literature
- Critically evaluate these theories and arguments
- Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour

Assessment tasks

- Reading summary & discussion
- Short Essay
- Essay Plan
- Essay Response
- Final Essay
- Lecture Attendance

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:
Learning outcomes

• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Assessment tasks

• Reading summary & discussion
• Short Essay
• Essay Plan
• Essay Response
• Final Essay

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

• Demonstrate an awareness of central problems in Cognitive Science
• Understand and analyse arguments in the relevant literature
• Critically evaluate these theories and arguments
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Assessment tasks

• Reading summary & discussion
• Short Essay
Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

**Learning outcomes**

- Understand and analyse arguments in the relevant literature
- Critically evaluate these theories and arguments
- Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
- Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

**Assessment tasks**

- Reading summary & discussion
- Short Essay
- Essay Response
- Final Essay

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

**Learning outcomes**

- Understand and analyse arguments in the relevant literature
- Critically evaluate these theories and arguments
- Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Assessment tasks
• Reading summary & discussion
• Short Essay
• Essay Plan
• Essay Response
• Final Essay

Commitment to Continuous Learning
Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes
• Understand and analyse arguments in the relevant literature
• Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
• Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

Assessment tasks
• Reading summary & discussion
• Short Essay
• Essay Plan
• Essay Response
• Final Essay
• Lecture Attendance

Capable of Professional and Personal Judgement and Initiative
We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to
handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

**Learning outcomes**

- Critically evaluate these theories and arguments
- Develop your own view or perspective through consideration and analysis of the views and arguments presented in the unit, and to present your own views with clarity and rigour
- Develop clarity of thought; clarity of verbal expression; clarity of written expression and exposition.

**Assessment tasks**

- Short Essay
- Essay Response
- Final Essay
