Prerequisites

[Admission to BPsych(Hons) or BA-Psych or BA-PsychBEd(Prim) or BA-PsychBHIth or BA-PsychLLB or BBABA-Psych or BBABPsych(Hons) or BComBA-Psych or BComBPsych(Hons) or BPsych(Hons)BHIth or BPsych(Hons)LLB or BSc-Psych or BHIth or BHumanSc or BSpHearingSc or BSpHLSc or BMedScs or GDipSphComm or DipSphComm or BA-PsychBHumanSc or BPsych(Hons)BHumanSc or BChiroSc] or [for all continuing students 12cp or PSY105(P) or PSYC105]

Corequisites

Co-badged status

Unit description

This unit introduces students to the discipline of psychology through a focus on the physiological bases of behaviour; learning; motivation; the nature of personality and psychopathology; and cross-cultural and Indigenous psychology. The unit conveys information about substantive material, and assumptions of theory associated with the science and profession of psychology through lecture and tutorial/practical classes. The unit introduces students to research methods in psychology through a series of methodology lectures. A further important aim of the unit is to develop students' competency in critical thinking and essay writing in psychology.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).

Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).

Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).

Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Assessment Tasks

Name	Weighting	Due
<u>Essay</u>	25%	Week 5 (may change)
<u>Research Participation</u>	5%	End of semester
<u>Research Design Quizzes</u>	10%	Weekly
<u>Examination</u>	50%	Session 1 exam period
<u>Tutorial Participation</u>	10%	Weekly

Essay

Due: **Week 5 (may change)**

Weighting: **25%**

An essay examining a key concept in psychological research.

On successful completion you will be able to:

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Research Participation

Due: **End of semester**

Weighting: **5%**

Four hours of research participation in studies being conducted by staff members, research assistants, postgraduate students and honours students in the Department.

On successful completion you will be able to:

- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Research Design Quizzes

Due: **Weekly**

Weighting: **10%**

A series of 10 weekly quizzes (2 per week) examining research design content. Each quiz is worth 1% of the total grade.

On successful completion you will be able to:

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Examination

Due: **Session 1 exam period**

Weighting: **50%**

A 2.5 Hour Multiple-Choice Exam of 120 Questions.

On successful completion you will be able to:

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).

Tutorial Participation

Due: **Weekly**

Weighting: **10%**

Weekly attendance and active participation in discussions and group tasks.

On successful completion you will be able to:

- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Delivery and Resources

Delivery:

2 x 2-hour lecture each week

2 x 0.5 - 1 hour online recorded lecture on Research Design (available through iLearn)

2 x 1 - 2 hour tutorial each week

Textbooks:

Lilienfeld, S., Lynn, S., Namy, L., Woolf, N., Jamieson, G., Slaughter, V., & Haslam, N. (2015). *Psychology: From Inquiry to Understanding*. (2nd ed.). Sydney: Pearson.

Publication manual of the American psychological association (6th ed.). Washington, DC: American Psychological Association, 2001.

Marczyk, G., DeMatteo, D., & Festinger, D. (2005). *Essentials of Research Design and Methodology*. Hoboken, NJ: Wiley.

Online resources:

iLearn website: <https://ilearn.mq.edu.au>

Changes from previous offering:

PSYC104 replaces PSY104 from 2013 onwards. Significant changes include the addition of Research Design into the unit.

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

New Assessment Policy in effect from Session 2 2016 http://mq.edu.au/policy/docs/assessment/policy_2016.html. For more information visit http://students.mq.edu.au/events/2016/07/19/new_assessment_policy_in_place_from_session_2/

Assessment Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/assessment/policy.html>

Grading Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/grading/policy.html>

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Complaint Management Procedure for Students and Members of the Public http://www.mq.edu.au/policy/docs/complaint_management/procedure.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html *The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.*

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/

[offices_and_units/information_technology/help/](#).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcomes

- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Assessment task

- Essay

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they

participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Assessment tasks

- Essay
- Research Participation
- Tutorial Participation

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Assessment tasks

- Essay
- Research Design Quizzes
- Examination

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Assessment tasks

- Essay
- Research Design Quizzes
- Examination
- Tutorial Participation

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving

study goals, and meeting deadlines).

- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Critical Thinking skills (developed through discussion of competing theories and application of the scientific method to understand psychological phenomena).

Assessment tasks

- Essay
- Research Design Quizzes
- Examination

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Information Technology Skills (developed through practical assignments and experience with the web-based elements of the course).

Assessment tasks

- Essay
- Tutorial Participation

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).

Assessment tasks

- Essay
- Research Participation

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- Research and Study skills (developed through planning research assignments, achieving study goals, and meeting deadlines).
- Communication and Interpersonal skills (developed through written assignments, interactions in tutorial groups, and working with class members on class tasks).
- Appreciation of Ethical Issues (developed in class discussion of ethical issues in research and exposure to actual participation in research).
