4

Prerequisites
SPED821 and SPED824 and SPED825 and SPED826

Corequisites
SPED822 and SPED823 and SPED827

Co-badged status
Unit description
Students will implement and document an evidence-based instructional cycle including initial assessment, program design and justification, program delivery, monitoring and evaluation in their work place or other approved site. Students will reflect deeply at each stage of the cycle and critique and evaluate their own professional practice.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/](http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/)

Learning Outcomes
1. Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
2. Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
3. Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
4. Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
5. Critically evaluate and reflect on the process and outcomes of educational programs.

General Assessment Information

Supervisor Consultation Times

The assessment pieces in this unit are to be developed independently by students. Students are to be marked on their own work. However students will be able to contact their appointed supervisor individually for guidance on specific questions at 4 x specific times during the semester. The supervisor consultation times will be provided on the unit website in the first week of the semester or as soon as students have determined their chosen area of study and have been allocated their supervisor. Note that consultation times will vary per supervisor and that supervisors will only be available at these 4 x consultation times. These meetings may be organized on campus in person or via Skype or phone. Supervisors may be emailed at other times. However, for matters of assessment equity, supervisor input to student project design is to be minimal. In this unit, students are expected to lead the consultation process. For example, students should come prepared to their consultation meetings, (perhaps send a copy of any assessment or intervention data or an agenda of what you would like to discuss with your supervisor prior to the meeting), and to lead the discussion during consultation meetings with their supervisor. Students are expected to determine the best assessment regime, program design and intervention technique for their target student or group of students with minimal guidance from their supervisor.
The following information refers to general information about assessment.

**How do I submit my assignments?**

You will submit your assignments through the iLearn website. Detailed instructions will be provided on the website.

You should follow the detailed instructions carefully. Marks (up to 5% of the total mark) may be deducted, for example, for failing to write your name on the assignment.

**How do I know if my assignment submission was successful?**

There are two options for you to see your uploaded Assignments.

1. Return to the Assignment activity submission point where the uploaded file will be viewable.

2. If the Activities block is available for the unit, click on the Assignments link.

All Assignment activities, including those that are ‘already open’ and ‘closed’, will be viewable here.

Students should print a copy of one of these screens after submission. No claims regarding missing assignments will be considered under any circumstances without a copy of this printout.

**KEEP A COPY OF YOUR ASSIGNMENT**

**Can I submit a late assignment?**

Assignments (either original submissions or resubmitted assignments) received after the due date will be accepted provided they are received no later than **five working days late**. No assignment will be accepted after this time, except when an extension has been applied for before the due date and granted. After the due date (unless an extension has been granted) a late penalty will be applied, leading to a reduction in the awarded mark. The **late penalty is 5% of the total mark for each day the assignment is outstanding** beyond the due date. These penalties are imposed in fairness to students who submit assignments on time.

**How do I get an extension?**

Please see the "General Assessment Information" for details on how to apply for an extension.

Note that:

• It is advisable that students contact the individual supervisor via Dialogue prior to submitting their request through ask@mq.edu.au

• It is essential that you plan ahead and organise your study time effectively. Poor time management is not grounds for an extension.

• Extensions are usually not granted on the due date.

**What is required for the assignment?**
In general good presentation, correct grammar, spelling and appropriate word choice will be expected. Express your ideas concisely and clearly, and observe any stated word limits. Please use single spacing.

As you will be asked to submit each of your written assignments via the TURN-IT-IN SITE for SPED828 assignments, a cover sheet is not necessary for this unit.

Components of answers beyond the stated word limit will not be marked. That is, answers will only be marked up to the stated word limit.

**How will I get feedback on my assignment?**

Individual feedback will provided through the iLearn site. Assignment results will be available in GRADES.

**Can I resubmit an unsatisfactory assignment?**

Resubmission of unsatisfactory assignments is not permitted.

**General Assessment Information**

**Rationale for Mode of Assessment**

Assignments are designed to enable you to reflect more deeply on a particular problem or scenario and to write a considered response

**Assessment Weighting**

There are several components of the assessment in this unit. All components must be completed.

**Marking Criteria and Performance Descriptors for Assignments**

In general, markers will be looking for the following qualities in your assignments:

- Concise address of the critical points provided.
- Appropriate critical analysis and justification where needed.
- Integration of information from relevant content in the unit.
- Quality of critical analysis
- Evidence of generalization of the concepts and principles relevant content in the unit to new examples
- Evidence of a deep understanding of the range of factors which affect student behaviour and student learning.
- Evidence of a deep understanding of the principles underpinning explicit instruction and related assessment, intervention and monitoring.
- Evidence of a deep understanding of the principles underpinning functional assessment, related intervention design and monitoring.
You are encouraged to evaluate your work against these criteria.

Performance Descriptors

**High Distinction**
There is pervasive address of critical points in all responses and a demonstration of deep understanding of all key principles. There are appropriate and concise justifications, descriptions or analyses integrating relevant information. There is no evidence of consequential gaps in understanding of basic principles and a clear ability to generalise concepts and principles to the most difficult examples.

**Distinction**
There is extensive address of the critical points in all responses and a demonstration of deep understanding of all key principles. There are appropriate and concise justifications or analyses integrating relevant information. There is no evidence of consequential gaps in understanding of basic principles although students may have difficulty in applying some concepts and principles to the most difficult examples.

**Credit**
There is strong address of the critical points in the vast majority of responses and a deep understanding of the majority of key principles. There are appropriate and concise justifications, descriptions or analyses integrating relevant information. There may be a small number of consequential gaps in understanding of basic principles. Students may have difficulty in applying some concepts and principles to a limited number of examples.

**Pass**
There is solid address of the critical points in the majority of responses and a demonstration of deep understanding of most key principles. There are appropriate and concise justifications, descriptions and analysis integrating relevant information. Students may have difficulty in applying some concepts and principles to some examples.

**Fail**
There is poor address of the critical points in the majority of responses. There is little evidence of deep understanding of principles. Justifications, descriptions and analyses would often be incomplete and/ or unclear. Students demonstrate a poor understanding of the majority of concepts and principles and are only able to apply these to a minority of examples.

**Resubmission**
Students are required to gain an overall pass on the unit, but do not have to pass all assessment components. If you perform poorly on one component, you may compensate for this with an improved performance in the other component(s).

Resubmission of assignments is not permitted.

**Disruption to studies and extensions for assignments**

In extenuating circumstances, students may apply to the unit coordinator for an extension to the assignment due date. Reasons for the extension need to be documented through the disruption to study process through ask@mq.edu.au and supported (e.g., a Professional Authority Form in the case of illness).

Extension will only be granted in receipt of the completed form submitted through askMQ, plus documentation.

Disruptions due to work commitments require a statutory declaration from a work supervisor (e.g., School Principal) stating that the work commitment was not known at the time of enrolment.

**University Disruption to Studies Policies and Procedures**

You should read these documents and follow the policy and procedures.

Disruption to studies policy: http://www.mq.edu.au/policy/docs/disruption_studies/policy.html

Disruption to studies procedures: http://www.mq.edu.au/policy/docs/disruption_studies/procedure.html

Disruption to studies supporting evidence schedule: http://www.mq.edu.au/policy/docs/disruption_studies/schedule_evidence.html

Disruption to studies outcome schedule: http://www.mq.edu.au/policy/docs/disruption_studies/schedule_outcomes.html

**Appeals**

Appeals against grades for individual assessment components.

If any student has concern about the marking of an assessment, they must:

1. Consult the member of staff who marked the work.

2. If there is no satisfactory resolution, an appeal should be made in writing to the unit convenor within one week of the marked assessment being returned or results being made available. The student should explicitly state the basis of the appeal.

The unit convenor will review the marking and may, at their discretion, ask for a re-marking by a second marker. If re-marking by a second marker is judged appropriate, the final mark will normally be the average of the two marks awarded for the assessment task. Students should note that the revised mark for the task may be higher, the same, or lower than the original mark.

Please note that it is MUSEC policy to double mark all failing assessments. The decision of the unit convenor is final.
 Appeals against final unit grades

Grade Appeals must be submitted within 20 days of the release of the unit results. Grade Appeals are submitted through ask.mq.edu.au

Academic Honesty and Plagiarism

You must read the University’s practices and procedures on Academic Honesty. These are on the web at: http://www.mq.edu.au/policy/docs/academic_honesty/policy.html The policies and procedures explain what academic honesty and plagiarism are, how to avoid plagiarism, the procedures that will be taken in cases of suspected plagiarism, and the penalties if you are found guilty. Penalties may include a deduction of marks, failure in the unit, and/or referral to the University Discipline Committee. Details of possible penalties are at http://www.mq.edu.au/policy/docs/academic_honesty/schedule_penalties.html

Other important points:

• Close paraphrasing of another persons’ writing is considered to be plagiarism. You must express ideas using your own words.

• Claim of ignorance of the University policy on plagiarism is NOT a defence within MUSEC. If you do not understand the preceding information, please seek advice from a member of the academic staff.

University Assessment Policies

Standardised Transcript Marks

Your overall unit result will be assigned a standardised numerical grade (SNG) on your University transcript. High Distinction grades are assigned a mark between 85 and 100, Distinction grades between 75 and 84, Credit grades between 65 and 74, Pass grades between 50 and 64, Pass Conceded grades between 45 and 49 and Fail grades below 45. For further information, see the Grading Policy.

Grade Descriptors

The following generic grade descriptors provide university-wide standards for awarding final grades.

High Distinction: Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical
evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline.

Distinction: Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.

Credit: Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; convincing argumentation with appropriate coherent justification; communication of ideas fluently and clearly in terms of the conventions of the discipline.

Pass: Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes.

Fail: Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.

Fail Grades

Entry into units in the postgraduate coursework program requires a clear pass (i.e., a final unit grade of at least “C” or “P”) in all previously completed SPED units. That is, you will not be granted automatic entry into units if you have failures in previously attempted SPED prefixed units. If you have failing grades on our record (1) you may be allowed to continue at the discretion of the Director of MUSEC (or nominee) with a special approval (waiver), or, (2) You may be required to reattempt the relevant units until a clear pass is obtained.

Students with fail grades MUST seek academic advice before attempting to re-enrol.

Satisfactory Progress

Students are expected to maintain satisfactory progress in a course/program of study. Normally, students will be asked to show cause why their candidature should not be terminated if they fail any unit twice. Further, students may be asked to show cause if they receive more than two conceded passes and/or failures in a course/program of study.

**Part 1 - Assessment Report**

Due: **29th March, 2016**  
Weighting: **20%**

The first piece of assessment in this unit is a report on an individual (or group of students) with special education needs' assessment procedures and an analysis of the results (300 - 500 words).

This Assessment Task relates to the following Learning Outcomes:
- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
- Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
- Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
- Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
- Critically evaluate and reflect on the process and outcomes of educational programs.

**Part 2 : Program Design**

Due: **7th April, 2016**  
Weighting: **20%**

The second piece of assessment in this unit is a documentation and justification of a proposed intervention program design including how the target skill will be taught (800 - 1,000 words).

This Assessment Task relates to the following Learning Outcomes:
- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
• Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
• Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

Part 3: Portfolio of program
Due: 2nd June, 2016
Weighting: 40%

The third piece of assessment in this unit is a portfolio of intervention program implementation including lesson plans, monitoring, and critical reflections and evaluations (1,000 - 1,500 words).

This Assessment Task relates to the following Learning Outcomes:
• Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
• Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
• Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

Part 4: Presentation
Due: 9th June, 2016
Weighting: 20%

The fourth piece of assessment for this unit is a presentation with 10 x supporting power point slides.

This Assessment Task relates to the following Learning Outcomes:
• Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
• Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
• Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

**Delivery and Resources**

Due to staffing restrictions this unit will be run in external mode only this semester.

All materials will be available online. This means that internet access is essential to the completion of the unit.

**General Organisation of the Unit**

The unit is organised in a flexible delivery format. It builds on and integrates the skills that students have gained in previous qualifications and professional experiences as well as the skills and knowledge gained in their current program of study. Students will apply their knowledge of assessment and instructional approaches suitable for students with disabilities or special education needs acquired during their program. Students are expected to work independently applying their professional knowledge and creative problem solving capacities to develop strategies to individualize programming, instruction, and assessment for pupils in their current work place or other approved setting. Students will be expected to demonstrate their use of ethical, justifiable, evidence-based practices and to critically evaluate their programming and pedagogical practices.

In flexible delivery units, it is critical that students are organised and disciplined. It is suggested that you allocate a total of 8-12 hours per week to study for this unit. If you get significantly behind in your planning and implementation of your case study, it may be impossible to catch up. Please start your case study as soon as possible.

**Supervisor Consultation Times**

The assessment pieces in this unit are to be developed independently by students. Students are to be marked on their own work. However students will be able to contact their appointed supervisor individually for guidance on specific questions at 4 x specific times during the semester. The supervisor consultation times will be provided on the unit website in the first week of the semester or as soon as students have determined their chosen area of study and have been allocated their supervisor. Consultation times will vary per supervisor. Note that supervisors will only be available at these 4 x consultation times. These meetings may be organized on campus in person or via Skype or phone. Supervisors may be emailed at other
times. However, for matters of assessment equity, supervisor input to student project design is to be limited. Students are expected to lead the consultation meetings with their supervisor and to determine the best assessment regime, program design and implementation for their target student or group of students with minimal guidance from their supervisor.

Unit delivery: Teaching and Learning Activities
Readings are designed to broaden students understanding of relevant topics.

Changes Made Since the Last Offering of the Unit.
This is the second offering of this unit. No changes have been made.

Response to Student Feedback
Student feedback to this unit was very positive, and so we retained the practices that students appreciate.

There are no compulsory seminars for this unit of study.
A "Welcome to the Unit" seminar will be uploaded and available from the iLearn site in the first week of semester

There are no drop-in sessions required for this unit of study

Downloadable Documents
ALL resource materials must be downloaded from the website.

Due to the vast range of topics that students are likely to select for their individual projects, there are no mandatory readings suggested for this unit.

From time to time, articles of general interest may be uploaded to the ilrn site. These readings must be downloaded from the Multisearch website in the library, or from other sites as indicated in the study guides.

ECHO360
What is ECHO360?
There will be an introduction session over viewing the assessment and welcoming students to this unit via ECHO360 and will be accessed through links in the ECHO block. This presentation will typically consist of video or audio. It may be accessed from the unit website.

Information about using ECHO360 is available at
http://www.mq.edu.au/iLearn/student_info/lecture_recordings.htm

and

http://www.mq.edu.au/iLearn/student_info/podcasts.htm

What do I need to do before I access ECHO360?
In order to use ECHO360 you will need QuickTime or other video player software (iTunes, VLC or Windows Media Player) and Flash for streaming playback or for downloading. You can download
QuickTime through the iLearn site and you will be prompted to install Flash when you first access ECHO360, if it is not already installed on your computer.

**What if I can't get ECHO360 working?**

Don't panic. Contact the Student IT Helpdesk

Phone: (02) 9850 HELP (4357) (Option 1) or freecall 1800 67 4357

Email: help@mq.edu.au

Face to face: Building C5C Room 244, Macquarie University

Website: http://www.mq.edu.au/onehelp/

IT Onehelp ticket lodgement: https://help.mq.edu.au/cgi-bin/WebObjects/OneHelp.woa

**Discussion Forums**

Important information about the unit will be posted in Discussions in the “General” section. You should check it regularly – AT LEAST ONCE EVERY 48 HOURS

There will also be a Discussion Forum for each topic where students can post questions or comments and discuss the issues raised during the unit. These topics will remain open for the duration of the unit. Students are required to contribute 10 posts to these Topic Forums as part of the assessment requirements for this unit (see Assessment Tasks).

Although unit convenors typically check the Discussion Forums daily (on weekdays), they will not respond to all posts, as discussion between students may be more appropriate.

**Dialogue**

Important information, particularly for students outside Sydney will be sent through Dialogue. You should check it regularly - AT LEAST ONCE EVERY 48 HOURS.

Preferably, unit related messages should be directed to unit staff using Dialogue on the website. Questions that you have that are relevant to others in the unit should be posted in Discussion Forums. If you send such questions using Dialogue, they may be posted anonymously and answered in Discussions.

**Unit Schedule**

**Classes**

There are no classes for this unit. Students will negotiate contact with an academic supervisor on an individual basis. This contact may be face to face meetings on campus, e-mail, phone, Skype or fax contact.

The following schedule is an outline of due dates for the four (4) assessment pieces.
These dates indicate the Monday of the beginning of each semester week.

<table>

**Policies and Procedures**

Macquarie University policies and procedures are accessible from [Policy Central](http://mq.edu.au/policy/docs/academic_honesty/policy.html). Students should be aware of the following policies in particular with regard to Learning and Teaching:

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.

In addition, a number of other policies can be found in the Learning and Teaching Category of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

**Results**

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

This guide provides information relevant to the successful negotiation of the unit. Students should be familiar with the rules, policies and procedures outlined in the Macquarie University Handbook (available at http://handbook.mq.edu.au/2014/), the Macquarie University Calendar of Governance, Legislation and Rules (available at http://universitycouncil.mq.edu.au/legislation.html), and Macquarie University policies, procedures, guidelines and schedules (available at http://www.mq.edu.au/policy/).

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
Student Portal

The Student Portal provides the gateway to information for current students. It has been designed to bring all student resources to one location. The Portal contains links to Student email and calendar, online units, eStudent, askMQ and many other student and university resources.

Access the portal at

http://students.mq.edu.au/home/

The link for First Time Login is on this page. You must complete this login to get access to other sites such as eStudent.

The link to eStudent is on the Student Portal page.

eStudent is where students can enrol online, change their study programs view their academic record, receive announcements from the university, as well as change some personal information that may become out of date.

End of semester results can be found on the eStudent website.

If you are having problems accessing the site (e.g. password/browser/technical issues) contact the Helpdesk (see the IT Help section of this guide).

Check the eStudent Noticeboard and your university email weekly for important communication from the university such as advice of iLearn outages.

Visit http://ask.mq.edu.au to find answers to your student administration questions. Search the Q & A Section for answers and, if you can't find what you're looking for, submit an online enquiry and get a response to your official Macquarie University student email address.

Special consideration forms, grade appeals and grade reviews are submitted through AskMQ.

Student Enquiry Service

For all student enquiries, visit Student Connect at ask.mq.edu.au

Equity Support

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

The Disability Support provides support and assistance to students with a disability/health condition in aiming to ensure that they do not experience disadvantage in reaching their academic potential. Service provision is determined on a case-by-case basis following an assessment of a student's needs and the provision of supporting documentation. Service provision is also dependent on the availability of resources.

For information about registering with the Disability Service and to download the Campus Wellbeing Registration Form and Health professional form go:

You must register annually, irrespective of whether a disability/health condition is temporary, long-term or permanent.

Students wishing to request support services from the Disability Service should make an appointment to see a Disability Advisor IMMEDIATELY AFTER ENROLLING at Macquarie University. If you are not registered with the Disability Service at the time of an assessment task, you may not be provided with any accommodations.

Phone: (02) 9850 7497 TTY (02) 9850 6493
Email: campuswellbeing@mq.edu.au
In person: Level 2, C8A (Lincoln Building).

It is strongly recommended that you contact convenors IMMEDIATELY AFTER ENROLLING (or as soon as possible for temporary disabilities) to discuss adaptations that may assist you in the successful negotiation of units with the Macquarie University Special Education Centre.

Typically, we require a minimum of three weeks notice to be able to ensure that accommodations for Problem Solving exercises or in-class assessments can be put in place. Please contact your unit convenors or Associate Professor Mark Carter BEFORE the 15th March to ensure your needs are met.

MUSEC DISABILITY LIAISON OFFICER: Associate Professor Mark Carter
MUSEC, Building X5A, Room 106
Graduate Capabilities

PG - Discipline Knowledge and Skills

Our postgraduates will be able to demonstrate a significantly enhanced depth and breadth of knowledge, scholarly understanding, and specific subject content knowledge in their chosen fields.

This graduate capability is supported by:

Learning outcomes

- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
- Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
- Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

**Assessment tasks**

• Part 1 - Assessment Report
• Part 2: Program Design
• Part 3: Portfolio of program
• Part 4: Presentation

**PG - Critical, Analytical and Integrative Thinking**

Our postgraduates will be capable of utilising and reflecting on prior knowledge and experience, of applying higher level critical thinking skills, and of integrating and synthesising learning and knowledge from a range of sources and environments. A characteristic of this form of thinking is the generation of new, professionally oriented knowledge through personal or group-based critique of practice and theory.

This graduate capability is supported by:

**Learning outcomes**

• Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
• Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
• Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

**Assessment tasks**

• Part 1 - Assessment Report
• Part 2: Program Design
• Part 3: Portfolio of program
• Part 4: Presentation

**PG - Research and Problem Solving Capability**

Our postgraduates will be capable of systematic enquiry; able to use research skills to create new knowledge that can be applied to real world issues, or contribute to a field of study or
practice to enhance society. They will be capable of creative questioning, problem finding and problem solving.

This graduate capability is supported by:

**Learning outcomes**

- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
- Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
- Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
- Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
- Critically evaluate and reflect on the process and outcomes of educational programs.

**Assessment tasks**

- Part 1 - Assessment Report
- Part 2: Program Design
- Part 3: Portfolio of program
- Part 4: Presentation

**PG - Effective Communication**

Our postgraduates will be able to communicate effectively and convey their views to different social, cultural, and professional audiences. They will be able to use a variety of technologically supported media to communicate with empathy using a range of written, spoken or visual formats.

This graduate capability is supported by:

**Learning outcomes**

- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
- Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
- Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

Assessment tasks

• Part 1 - Assessment Report
• Part 2 : Program Design
• Part 3: Portfolio of program
• Part 4: Presentation

PG - Engaged and Responsible, Active and Ethical Citizens

Our postgraduates will be ethically aware and capable of confident transformative action in relation to their professional responsibilities and the wider community. They will have a sense of connectedness with others and country and have a sense of mutual obligation. They will be able to appreciate the impact of their professional roles for social justice and inclusion related to national and global issues.

This graduate capability is supported by:

Learning outcomes

• Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
• Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
• Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
• Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.
• Critically evaluate and reflect on the process and outcomes of educational programs.

Assessment tasks

• Part 1 - Assessment Report
• Part 2 : Program Design
• Part 3: Portfolio of program
• Part 4: Presentation
Our postgraduates will demonstrate a high standard of discernment and common sense in their professional and personal judgment. They will have the ability to make informed choices and decisions that reflect both the nature of their professional work and their personal perspectives.

This graduate capability is supported by:

**Learning outcomes**

- Integrate and synthesize theory, knowledge and skills from across the program and apply to professional practice as a special educator in a work-related context.
- Apply clinical judgement in the selection and application of evidence based pedagogical practices to solve complex problems in the education of students with special education needs.
- Apply appropriate professional ethical standards in the implementation and documentation of educational programs.
- Effectively communicate complex ideas regarding program planning and implementation to relevant stakeholders.

**Assessment tasks**

- Part 1 - Assessment Report
- Part 2 : Program Design
- Part 3: Portfolio of program
- Part 4: Presentation

**Changes from Previous Offering**

This is the second offering of this unit.

Response to Student Feedback.

Student Feedback to our units is generally very positive, and we retain practices that students appreciate. We have made no changes to this unit as a result of feedback.

**General Assessment Information**

HERE ARE SPECIFIC DETAILS ON THE FOUR PIECES OF ASSESSMENT FOR THIS UNIT

In general, markers will be looking for the following qualities in your assignments:

**Part 1 - Assessment Report**
Includes a succinct description of the individual with special education needs to whom the task will be taught,
• Includes a summary of the methods and results of assessment/analysis.
• Includes a brief comment on the strengths of the individual and one area to be developed.
• Includes a statement of the hypothesis regarding the specific target behaviour or new concept/skill to be developed.

Note that the statement of the hypothesis must be consistent with the results of the assessment/analysis. (300 - 500 words)

Part 2 - Program Design

• Includes specific teaching objectives.
• Includes a brief review of any relevant literature on the teaching of similar tasks to individuals with special education needs.
• Includes a description or analysis of the specific target behaviour or concept/skill to be taught.
• Includes a description of the teaching methods to be used.

The plan for the program design shall include a description of the intervention, including a description of how the replacement behaviour or new concept/skill will be taught. Students must also review one previous study that has evaluated their recommended intervention approach to justify your use of this procedure. The program design also includes a description of the plan for evaluating the intervention using direct observation for data collection (800 - 1000 words).

Part 3 - Portfolio of Program Implementation

• A brief description of the teaching sessions (including lesson plans)
• Charting of progress made by the learner/s
• A brief description of how the intervention was evaluated (to assess whether or not it was in fact working).
• Critical reflections and evaluation of the progress made by the individual with special education needs.
• Recommendations for the future

Phase 2 was the plan. Now students are to implement a series of lessons incorporating ongoing records of their observations of the target individual with special education needs’ learning; reflections on teaching and learning outcomes; and write up the results. The portfolio should describe the intervention program. This description should be sufficiently detailed to enable
another teacher to be able to implement the intervention in the classroom. Describe the progress of the individual with special education needs. Evaluate and reflect on the program implementation. Describe how the data was collected. Describe how the intervention program was evaluated (to assess whether or not it did in fact work). This evaluation should include the collection of objective data on the target behaviour and replacement behaviours; or concept/skill development, via direct observation to evaluate the effects of the intervention program. Finally, students are to make 1-2 recommendations for future instruction of the target skill that could be offered to the individual with special education needs' parent or teacher (1,000 - 1,500 words).

Part 4: The Presentation

Students are to record a short presentation (using up to 10 supporting power point slides) documenting the overall case study and intervention program discussing the relative strengths and weaknesses of the program.

Required Unit Materials and Readings

Text

There is no set text for this unit.

However students may find the following text (which was recommended for other units in this program of study) useful:

Other Readings

There are no required readings for this unit.

A few suggested readings may be uploaded to the iLearn site over the course of the semester - depending on student need.

Students may download these from the Multisearch section of the Library website.

Unit Web Page

Access

An iLearn website has been established to support this unit. The site will offer the option of discussion forums on specific topics and Dialogue (private communication) within the unit. Required study materials, review quizzes and assessment information are available on the website.
Where Do I Start
To get you started in this unit, tick off each action as you complete it.

<table>
<thead>

</tbody>
</table>
Carefully read this unit guide a second time

Contact the course convenor via the Dialogue site on ilearn within the first week of semester to discuss your accessibility to learners.

Go to the unit website (from 26th February, 2016) and check Dialogue and Discussion Forums for messages.

If you have problems accessing the site contact IT Help urgently.

Go to the START HERE section of the website, read and follow the instructions.
