Lecturer
Peter Davies
peter.davies@mq.edu.au

Credit points
3

Prerequisites
Admission to BPlan and 12cp

Corequisites

Co-badged status

Unit description
This unit examines the local government approval process, the associated appeals process, the development of Development Control Plans (DCPs), Local Environmental Plans (LEPs) and State Environmental Planning Policies (SEPPs). This planning and development process is examined across a number of local governments within New South Wales as an exemplar of the implementation of the planning process in any jurisdiction. A series of case studies is developed to display the daily experiences of planners working within local government.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at http://students.mq.edu.au/student_admin/enrolmentguide/academicdates/

Learning Outcomes

1. Develop a critical literacy and first-hand experience in the field of planning and development.
2. Gain an appreciation of the theory and practice of the development approval process in NSW
3. Develop a rudimentary understanding of planning law and relevant planning instruments
4. Gain plan reading skills
5. Communicate effectively verbally and visually
General Assessment Information

Assessments 1, 2 and 4 may be submitted through iLearn or submitted in class in hard copy on the due date. Late assessments will incur a penalty of 10% per day late unless a valid medical certificate, or valid alternative acceptable documentation is supplied. Please contact the unit convenor or lecturer as soon as possible if you are experiencing difficulty meeting deadlines.

Assessments should be typed with 1.5 line spacing using 11 point font. Use headings and subheadings as appropriate. Make sure you label all diagrams, figures, tables etc and acknowledge the source.

Proof read your work (more than once) and use the Harvard system of referencing.

Presentation is an important part of planning and you should ensure your work looks good as well as being substantive.

It is a requirement of the unit that all assessments are completed.

SEE Contents page

Due: **18 March Week 3**
Weighting: 5%

You are to prepare a contents page for the SEE which will form the major component of your assessment. The contents page will identify the issues that will be covered in the SEE and subsections within those.

This Assessment Task relates to the following Learning Outcomes:

- Gain an appreciation of the theory and practice of the development approval process in NSW
- Develop a rudimentary understanding of planning law and relevant planning instruments
- Communicate effectively verbally and visually
Development determination

Due: 1 April 2016 Week 5
Weighting: 25%

Attend and prepare a record of a meeting at a local council that determines development applications. This may be a Council meeting, a building and development committee, a planning and development committee or a development assessment panel meeting. You are to consider the process of development assessment in this meeting. Please ensure that the meeting you attend will discuss a Development Application.

(Note the matter may be deferred for another meeting so it is desirable to have an alternative or two and or speak to the assessment officer/author prior to the meeting to see if he or she believes the matter will be discussed).

Your record should include:

1) For your chosen development application (15%)
   a. Summarise the development (this needs to be in your own words not cut and copy from the council report)
   b. Discuss the current occupation of the site
   c. What is proposed
   d. What is the land use zoning for the site. You are also required to look up the Local Environment Plan
   e. Referring to the LEP what are the objectives of the zone, what is permitted without consent, what is permitted with consent and what is prohibited in the zone
   f. List of state and local government policies were referred to in the assessment report and why the policy was relevant and how (or not);
   g. A summary of issues raised in the Council officer’s report relevant to the council and other government agencies (if applicable);
   h. What was raised at the Council meeting (public speakers, elected councillors/Panel members and council officers)
   i. Your understanding of the respective roles and responsibilities associated with the DA. This should include at a minimum applicant, development assessment planner, and elected councillors, neighbours/objectors

2) Your critical reflections on the process. This should include at a minimum a comparison of what you expected with what you experienced, and any other issues you wish to canvass (10%).

This Assessment Task relates to the following Learning Outcomes:
• Develop a critical literacy and first-hand experience in the field of planning and development.
• Gain an appreciation of the theory and practice of the development approval process in NSW
• Develop a rudimentary understanding of planning law and relevant planning instruments
• Communicate effectively verbally and visually

Plan drawing and reading
Due: 1 April
Weighting: 15%

This is an inclass exam to test your plan reading skills. You will be given 40 minutes to complete this task. It will involve looking at a building plan and using your scale ruler and calculator to undertake a number of measurement and simple arithmetic tasks. You will also be required to interpret an LEP and other planning instruments and comment as to the compliance of the building according to zoning and other controls.

This Assessment Task relates to the following Learning Outcomes:
• Develop a critical literacy and first-hand experience in the field of planning and development.
• Gain an appreciation of the theory and practice of the development approval process in NSW
• Gain plan reading skills

SEE
Due: 27 May
Weighting: 30%

This assessment requires you to prepare a Statement of Environmental Effects (SEE) for a proposed development on the university campus site. Details of the proposed development will be provided in the Assessment Guide.

There are a number of guidelines on how to prepare a SEE and you should address all relevant heads of consideration. A list of reference guides will be provided in the Assessment Guide.

This assessment should be no more than 10 pages including images, maps, photos and references.

You will work in groups on this project but you will work on separate parts of the SEE individually and be marked on your contribution.

This Assessment Task relates to the following Learning Outcomes:
• Gain an appreciation of the theory and practice of the development approval process in NSW
• Develop a rudimentary understanding of planning law and relevant planning instruments
• Gain plan reading skills
• Communicate effectively verbally and visually

Exam
Due: In exam period
Weighting: 25%

A 2 hour exam will be set for the course that may include any material covered in the lectures and tutorials including presentations by students.

This Assessment Task relates to the following Learning Outcomes:
• Gain an appreciation of the theory and practice of the development approval process in NSW
• Develop a rudimentary understanding of planning law and relevant planning instruments
• Gain plan reading skills

Delivery and Resources
There are a number of general texts covering the subject matter of this course, and the important ones are listed below. It is highly recommended that you purchase *The Environmental Law Handbook, (6th edition)* which is available at the Co-op Bookshop. In addition to purchasing this text you should also purchase a scale ruler that covers between 1:100 and 1:500.

General texts that would be useful include:

Students will be required to access key NSW legislative provisions covered in the unit:

• *Environmental Planning and Assessment Act, 1979 as amended*;
• *Environmental Planning and Assessment Regulation, 2000.*
Copies of this legislation (including all amendments) are available at:

Students will also be asked to access information about the standard LEP template, integrated
development approvals process, exempt and complying development and strategic planning for
Sydney from the Department of Planning and Environment. Go to

*Unit guide* GEOP212 Planning and Development

[http://unitguides.mq.edu.au/unit_offerings/60547/unit_guide/print](http://unitguides.mq.edu.au/unit_offerings/60547/unit_guide/print)

In addition, a number of other policies can be found in the [Learning and Teaching Category](http://www.mq.edu.au/policy/docs/disruption_studies/policy.html) of Policy Central.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/support/student_conduct/](https://students.mq.edu.au/support/student_conduct/)

**Results**

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

**Student Support**

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

**Learning Skills**

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to improve your marks and take control of your study.

- Workshops
- StudyWise
- Academic Integrity Module for Students
- Ask a Learning Adviser

**Student Enquiry Service**

For all student enquiries, visit Student Connect at ask.mq.edu.au

**Equity Support**

Students with a disability are encouraged to contact the [Disability Service](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/) who can provide appropriate help with any issues that arise during their studies.

**IT Help**

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).
Graduate Capabilities

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Develop a critical literacy and first-hand experience in the field of planning and development.
- Gain an appreciation of the theory and practice of the development approval process in NSW
- Develop a rudimentary understanding of planning law and relevant planning instruments
- Gain plan reading skills

Assessment tasks

- SEE Contents page
- Development determination
- Plan drawing and reading
- SEE
- Exam

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:
Learning outcomes

- Develop a critical literacy and first-hand experience in the field of planning and development.
- Develop a rudimentary understanding of planning law and relevant planning instruments
- Gain plan reading skills

Assessment tasks

- SEE Contents page
- Development determination
- Plan drawing and reading
- SEE
- Exam

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcome

- Gain an appreciation of the theory and practice of the development approval process in NSW

Assessment tasks

- SEE Contents page
- Development determination
- Plan drawing and reading
- SEE
- Exam

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:
Learning outcome

• Communicate effectively verbally and visually

Assessment tasks

• SEE Contents page
• Development determination
• SEE

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcome

• Communicate effectively verbally and visually

Assessment tasks

• SEE Contents page
• Development determination
• SEE

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

• Develop a rudimentary understanding of planning law and relevant planning instruments

Assessment tasks

• SEE Contents page
• Development determination
• SEE
• Exam
