Unit description

This unit offers a critical overview of current theory, research and issues in child development from the preschool years through to late middle childhood and puberty. The unit covers the major aspects of children's cognitive, physical and social/emotional development, personality, gender and moral development. The unit also considers the influence of key relationships with siblings and peers for children's development. An understanding of factors that promote and attenuate optimal development and well-being and the unique contribution of child rearing contexts is integrated throughout. In addition, students develop knowledge of strategies for the promotion of good mental health for young children. During the course of the unit, students are encouraged to engage in active interpretation of the material covered and to consider both the implications and practical application in their professional contexts. Particular attention is paid to the implications for prior to school and primary school educators within the contemporary Australian social/cultural context.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

- Demonstrate a thorough working knowledge of current research, theory and issues in child development
- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Appreciate cultural, historical and contextual influences on development
- Appreciate the biological underpinnings of development
- Examine the role of child development research for informing teaching practice

General Assessment Information

General Assessment Information

Department Assessment Presentation & Submission Guidelines

Please follow these guidelines when you submit each assignment:

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through turnitin in .doc or .pdf format for submission.
- Faculty assignment cover sheets are NOT required for this unit.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

When preparing your assignments, it is essential that:

- Students must retain a copy of all assignments before submission, and retain the copy until your final grade for the subject has been received;
- Marks will be deducted if you submit your assessment late (refer to the 'late assessments' section below for more details);
- Unless there are exceptional circumstances, no assessment will be accepted after the date that the assessment has been returned to other students.
- If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

Late Assessments:

A deduction of 5% of the total possible mark allocated for that assessment would be made for each day or part day that assessment is late, weekends counting as two days. For example, if an assessment is worth 20 marks and you submit it 2 days late, you will have 2 marks (2 x 5% of 20 marks) subtracted from your awarded mark.

Extensions:

In extenuating circumstances, students may apply to the unit coordinator for an extension to the assessment due date. Reasons for the extension need to be documented through the Disruption to Studies form accessible through ask.mq.edu.au under "Disruption" and supported (e.g., a Professional Authority Form must be used in the case of illness). Note that:

- Students **MUST** speak with the unit coordinator **prior to submitting their request through <https://ask.mq.edu.au>**
- Extensions will only be granted in receipt of the completed form submitted through

ask.mq.edu.au plus documentation.

- Emails are not appropriate means of extension requests.
- It is essential that you plan ahead and organise your study time effectively. Poor time management is not grounds for an extension.
- In the case of computer malfunction, a draft of your assignment may be requested. Please ensure that you print out a draft regularly, so that it is available for submission on request.
- Extensions are usually not granted on the due date.

IEC Academic Honesty Guidelines:

All assignments should cite and provide full bibliographical details of all material that you have used to inform or support your ideas. At the Institute of Early Childhood, students are required to use the American Psychological Association (APA) referencing procedures. Full details about how to cite and reference correctly can be found in the **IEC Academic Honesty Handbook** and the following sources.

Perrin, R. (2015). *Pocket guide to APA style* (5th ed.). Stamford, CT: Cengage Learning.

<http://libguides.mq.edu.au/Referencing>

<http://www.apastyle.org/learn/tutorials/basics-tutorial.aspx>

<http://www.apastyle.org/learn/quick-guide-on-references.aspx>

<https://owl.english.purdue.edu/owl/section/2/10/>

Eligibility for a Passing Grade in the Unit

In order to receive a passing grade in this unit, you must meet the following criteria:

- **All assessment tasks must be submitted.**
- Receive an adequate total mark for the unit (i.e. your combined marks for the four pieces of assessment). In order to receive a grade of *Pass*, your total mark must be at least 50/100.

Note: If you miss one piece of work, you will fail the unit. If you have any missing items of assessment, it is your responsibility to make contact with the unit coordinator to determine whether it is possible to complete the unit in 2015.

Final Grades

The final grade a student receives signifies their overall performance in meeting the learning outcomes for the unit. The number assigned to a grade (Standard Numerical Grade or SNG)

reflects the extent to which student attainment matches the grade descriptors.

Your raw mark for the unit (i.e., the total of your marks for each assessment item) may not be the same as the SNG which you receive. Results may be scaled to ensure there is a degree of comparability across the university, so that units with the same past performances of their students should achieve similar results. The process of scaling does not change the order of marks among students. A student who receives a higher raw score mark than another will also receive a higher final scaled mark.

Assessment Tasks

Name	Weighting	Due
Topic Quiz	10%	Week 3, 18 March 2016
Linking Research to Practice	30%	Week 6, 7 April 2016
Parent information leaflet	20%	Week 11, 26 May 2016
Final Exam	40%	Semester 1 examination period

Topic Quiz

Due: **Week 3, 18 March 2016**

Weighting: **10%**

Online quizzes are an individual assessment task and **MUST BE COMPLETED by each student individually.**

On successful completion you will be able to:

- Demonstrate a thorough working knowledge of current research, theory and issues in child development
- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Appreciate cultural, historical and contextual influences on development
- Appreciate the biological underpinnings of development

Linking Research to Practice

Due: **Week 6, 7 April 2016**

Weighting: **30%**

Discuss and critically evaluate the findings of at least five research studies related to specified area of development.

On successful completion you will be able to:

- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Examine the role of child development research for informing teaching practice

Parent information leaflet

Due: **Week 11, 26 May 2016**

Weighting: **20%**

Information sheet designed for parents of children attending EC centre/school to promote awareness of one of specified area of child development

On successful completion you will be able to:

- Appreciate cultural, historical and contextual influences on development
- Examine the role of child development research for informing teaching practice

Final Exam

Due: **Semester 1 examination period**

Weighting: **40%**

Combination of multiple-choice, short answer and essay questions

On successful completion you will be able to:

- Demonstrate a thorough working knowledge of current research, theory and issues in child development
- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Appreciate cultural, historical and contextual influences on development
- Appreciate the biological underpinnings of development

Delivery and Resources

Teaching and Learning Strategy

Lectures

Two separate one hour lectures will be presented each week. Please refer to lecture schedule for details. Recordings of lectures will be available on Echo360 for both internal and external students. Lecture slides will be made available the day before the lecture for students who are attending the live lecture to download and have available during the lecture. Attendance is optional. However, all lecture contents may be included in the subsequent quiz and exam.

Required Textbook

Custom Edition for Macquarie University by Pearson, Australia compiled from Peterson, C.C. (2015). *Looking Forward through the Lifespan: Developmental Psychology (6th edition)*. Sydney, Australia: Pearson Education.

Supplementary readings

White, F., Hayes, B., & Livesey, D. (2010). *Developmental psychology: From infancy to adulthood* (3rd ed.). Frenchs Forest, NSW: Pearson Education.

For some lectures *supplementary readings* will be available via E-Reserve. Readings listed in the lecture schedule are from the following journal articles.

Dunn, J. (2005). Commentary: Siblings in their families. *Journal of Family Psychology*, 19(4), 654-657.

McCall, R., & Green, B. (2004). Beyond the methodological gold standards of behavioral research: Considerations for practice and policy. *Social Policy Report*, 18(2), 2-12.

Twigg, D., & Pendergast, D. (2013). Social and emotional well-being. In D. Pendergast and S. Garvis (Eds), *Teaching early years. Curriculum, pedagogy and assessment* (pp.231-243). Sydney: Allen & Unwin.

Tutorials

Tutorial attendance is optional. However, all tutorial content may be included in the subsequent quiz and exam.

Internal students will have weekly tutorials of one hour. **Tutorials will commence in Week 1.**

External students will cover the tutorial content during their two days of on-campus attendance (21st and 22nd April, 2016).

The tutorials and iLearn discussion forums are the most appropriate forums to raise questions and engage in group discussion to further your understanding of the material. Diverse views are welcome. It is important that you feel free to express your ideas openly (with the exception of views that may offend other students). The iLearn site is ideal for an exchange of ideas with all students, internal and external.

Workbook

This unit has a workbook available as a PDF file on the unit website. The workbook is to be used to record notes from tutorials, lectures and your readings. You should **bring your workbook with you to all classes**. Internal students will work through the tasks at their weekly tutorials. External students will complete the tasks at the On Campus days.

Engagement with Unit Content

- **To gain the most benefit from tutorials, students are required to access relevant**

lectures before attending the associated tutorial. For students attending Thursday tutorials, this is only possible by attending the live lectures. It is assumed that students have acquired the required background information before engaging in tutorial tasks. When some students are unprepared, it is frustrating for students who have attended lectures and it limits the depth of tutorial discussion.

- Students attending the Wednesday tutorials are also expected to complete the associated lectures before attending the tutorial. If it is not possible to attend the live lecture, you must listen to the Echo360.

Unit Schedule

Lecturer

SW = Shirley Wyver, HL = Helen Little, CN = Carol Newall, RA = Rebecca Andrews

Week	Lecture Topic	Lecturer	Tutorial
	Research: Evidence and practice (Pre-recorded)	HL	
1	Cognitive development 1	CN	Cognitive development
	Cognitive development 2	CN	
2	Development of memory	SW	Memory
	Problem solving, reasoning and Executive Functions (EF)	SW	Executive Functions
3	Language	HL	
	Assessment of development	SW	Assessment of Development (AEDC)
4	Theory of Mind	SW	ToM
	Moral Development	SW	Moral

5	Physical development	HL	Motor
	Motor development	HL	
6	Emotional Development	CN	Emotion
	Personality development	HL	Personality
7	Prac – no classes		
8	Prac – no classes		
9	Prac – no classes		
10	Gender development	CN	Gender
	Self-concept & self-worth	SW	Self
11	Sibling relationships	RA	Siblings
	Peer relationships and friendships	HL	Peers
12	Prosocial and antisocial behaviour	SW	
	Social skills	SW	Social skills
13	Emotional Health I	CN	
	Emotional Health II	HL	Teaching for Wellbeing

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](#). Students

should be aware of the following policies in particular with regard to Learning and Teaching:

Academic Honesty Policy http://mq.edu.au/policy/docs/academic_honesty/policy.html

New Assessment Policy in effect from Session 2 2016 http://mq.edu.au/policy/docs/assessment/policy_2016.html. For more information visit http://students.mq.edu.au/events/2016/07/19/new_assessment_policy_in_place_from_session_2/

Assessment Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/assessment/policy.html>

Grading Policy prior to Session 2 2016 <http://mq.edu.au/policy/docs/grading/policy.html>

Grade Appeal Policy <http://mq.edu.au/policy/docs/gradeappeal/policy.html>

Complaint Management Procedure for Students and Members of the Public http://www.mq.edu.au/policy/docs/complaint_management/procedure.html

Disruption to Studies Policy http://www.mq.edu.au/policy/docs/disruption_studies/policy.html *The Disruption to Studies Policy is effective from March 3 2014 and replaces the Special Consideration Policy.*

In addition, a number of other policies can be found in the [Learning and Teaching Category](#) of Policy Central.

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/support/student_conduct/

Results

Results shown in *iLearn*, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to improve your marks and take control of your study.

- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module for Students](#)
- [Ask a Learning Adviser](#)

Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

Student Enquiries

For all student enquiries, visit Student Connect at ask.mq.edu.au

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

Graduate Capabilities

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- Appreciate cultural, historical and contextual influences on development

Assessment tasks

- Topic Quiz
- Parent information leaflet
- Final Exam

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Demonstrate a thorough working knowledge of current research, theory and issues in child development
- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Appreciate cultural, historical and contextual influences on development
- Appreciate the biological underpinnings of development
- Examine the role of child development research for informing teaching practice

Assessment tasks

- Topic Quiz
- Linking Research to Practice
- Parent information leaflet
- Final Exam

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Demonstrate a thorough working knowledge of current research, theory and issues in child development
- Explain the many and varying influences important to the development of a child
- Understand the whole child by appreciating the links between different areas of development
- Appreciate cultural, historical and contextual influences on development
- Examine the role of child development research for informing teaching practice

Assessment tasks

- Topic Quiz
- Linking Research to Practice
- Parent information leaflet
- Final Exam

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Understand the whole child by appreciating the links between different areas of development
- Examine the role of child development research for informing teaching practice

Assessment tasks

- Topic Quiz
- Linking Research to Practice
- Parent information leaflet
- Final Exam

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcome

- Examine the role of child development research for informing teaching practice

Assessment tasks

- Linking Research to Practice
- Parent information leaflet

Changes since First Published

Date	Description
16/02/2016	Due date of Parent Information leaflet changed from 19 May to 26 May 2016 after department UG conveners meeting.
