Unit description

This unit provides students with the opportunity to integrate knowledge acquired in their study of philosophy, to reflect on the development of their skills, and to focus on how their study of philosophy equips them for the next step in their careers. We review the philosophy graduate attributes: the knowledge, skills, methods and values developed in the course of the philosophy degree. With a focus on what these skills and values mean in practice, we examine a range of texts that both illustrate the diversity of philosophical approaches and represent the 'state of the art' in the field. By applying critical thinking, problem-solving, and creative skills to these texts, as well as philosophical values of intellectual humility and openness to the force of the better argument, students will learn what it is like to engage in live philosophical debate. We also look at the values cultivated through the study of philosophy and we consider how the skills and values acquired through the degree can be taken forward into further study, work, and applied in other areas of life. All enrolment queries should be directed to Open Universities Australia (OUA): see [www.open.edu.au](http://www.open.edu.au)

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.open.edu.au/student-admin-and-support/key-dates/>

## General Assessment Information

Written assignments are to be submitted through Turnitin, and will be marked and returned via Grademark. For information about these tools, see:

[http://www.mq.edu.au/iLearn/student\\_info/assignments.htm](http://www.mq.edu.au/iLearn/student_info/assignments.htm)

**There is no need for a coversheet** - the iLearn assignment submission (Turnitin) involves declaring your details and honesty in submitting your work. Please note, we do not accept submission by email attachment.

### Extensions and Special Consideration

Requests for extensions must, normally, be made in writing before the due date. Extensions of up to three days should be directed to the unit convenor (jennifer.duke-yonge@mq.edu.au). **Requests for extensions of more than 3 days** should be submitted via a [Disruption to Studies Request](#), which is available in the ask.mq.edu.au portal. Your request should be accompanied by appropriate documentation, as detailed in the instructions in the portal. Please see the Disruption to Studies policy in the list of policies at the end of this document for further details.

### Penalties for Late Submission

Late submissions of assignments will attract a penalty of 10% per week or part-week late. All work must be submitted within 3 weeks of the assessment due date. Outside of this time, special circumstances must be proven to have interrupted your study.

If you are having problems completing an assignment, please contact your tutor or unit convenor through iLearn.

**See the "Policies and Procedures" section below for more detail about relevant policies.**

1. the knowledge acquired through the study of philosophy,
2. skills developed through the program of study,
3. philosophical values, and
4. different philosophical approaches and methodologies.

You are expected to make at least one entry in your reflective portfolio blog for each week of

content in a timely fashion (by the end of the next week). Your entry or entries should include, but are not limited to, creative and critical personal reflections on the unit content of that week, as well as broader reflections on philosophy and philosophical methodologies. You will be assessed on blog posts covering weeks 2-11, and the blog must be finalised by Sunday of week 12.

**Submission:** blog through iLearn. For information on how to blog in iLearn see: [http://mq.edu.au/iLearn/student\\_info/activities.htm#blog](http://mq.edu.au/iLearn/student_info/activities.htm#blog)

Essay writing tests your ability to synthesise material from a range of readings and to express, analyse and structure key ideas and arguments clearly, logically and systematically. It also tests your ability to develop your own view, and to argue for that view in a cogent and sustained way. You will be expected to undertake research beyond the required readings and to incorporate that further research into your essay.
