Unit description

This project-based research unit builds on the ideas and experiences developed in previous units. Students will plan, develop and complete an individual research project. The unit will examine issues for research involving Indigenous peoples including historical legacies of research and developments in research with Indigenous peoples today; the role of Indigenous and non-Indigenous researchers; and the role of de-colonising methods of research to advocate an Indigenous research agenda. In particular it concentrates on the ethical dimensions and operational issues of preparation for academic research in the social sciences, with particular reference to Indigenous settings and concerns. This unit uses the current Macquarie University Ethics Approval Process and is informed by NHMRC, AIATSIS and relevant international sources

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.

Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.

Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples

Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.

Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.

Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Article Review</u>	10%	No	Friday 18th August
<u>Research Proposal</u>	20%	No	Friday 1st September
<u>Research Presentation</u>	20%	No	Sunday 8th October
<u>Research Project</u>	50%	No	Friday 10th November

Article Review

Due: **Friday 18th August**

Weighting: **10%**

Students will self-select **ONE** academic journal article that is relevant to their research project. Provide a maximum 2 pages using the template available on ilearn.

The criteria and standards by which your work will be assessed will be available in the ilearn site.

LATE SUBMISSIONS LOSE ONE MARK PER DAY.

On successful completion you will be able to:

- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples

Research Proposal

Due: **Friday 1st September**

Weighting: **20%**

The research proposal is an integral component to all research projects. Designing your research provides an avenue for you to unpack your ideas and identify areas where there may be gaps in terms of understanding and development. In short, the research proposal is a means of planning and structuring your research.

In your 1000 word research proposal you will need to demonstrate that you have a good understanding of what it is that you intend to research and most importantly – how you intend to go about it.

A detailed template and marking rubric will be placed on ilearn.

LATE SUBMISSIONS LOSE ONE MARK PER DAY.

On successful completion you will be able to:

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.
- Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.
- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Research Presentation

Due: **Sunday 8th October**

Weighting: **20%**

A key element of research is disseminating information. The research presentation provides an opportunity for students to communicate their research ideas to an audience and receive feedback on the plans from fellow students and academic staff.

Students are required to each provide a 20 minute presentation on their Research Project. And will be required to answer questions on their project/presentation.

Further information in relation to the presentation will be uploaded to ilearn.

LATE SUBMISSIONS LOSE ONE MARK PER DAY.

On successful completion you will be able to:

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.
- Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.

- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.
- Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Research Project

Due: **Friday 10th November**

Weighting: **50%**

This assessment task requires students to undertake a 5,000 - 6,000 word research project in an area that is of interest. Ultimately the choice of topic is up to you, though it is important to discuss your topic with the unit convenor. Your research proposal and research presentation will assist you in the development of the project.

Further information, including the criteria and standards by which your work will be assessed will be available in the ilearn site

LATE SUBMISSIONS LOSE ONE MARK PER DAY.

On successful completion you will be able to:

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.

Week 5

Please note the books required for the book report due 7 September:

- Karen Martin *Please knock before you enter* (2008)
- Shawn Wilson *Research is ceremony* (2009)
- Martin Nakata *Disciplining the savages; savaging the disciplines* (2007)
- Linda Tuhiwai Smith *Decolonizing methodologies* (2nd ed; 2012)
- Castejon, Cole, Haag, Hughes *Ngapartji, Ngapartji: In turn, in turn* (2014)

Each student will only read ONE of these books each. However, it is your responsibility to source the book you are reading. We will decide on who will read which book by the end of week two.

Week 6

No new reading

Week 7

No new reading

Week 8

The readings for week 8 will be determined by the class during week 7 - each student will nominate one article relevant to their research interests.

Week 9

For week 9 we will look at four online sources of information:

Glen Coulthard <https://www.youtube.com/watch?v=y6NdQwJyT1U>

Maile Arvin <https://mailevine.wordpress.com/2014/06/27/following-the-public-hearings-on-native-hawaiian-federal-recognition/>

Graduate Capabilities

Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

Learning outcomes

- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.

Assessment tasks

- Research Presentation
- Research Project

Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

Learning outcome

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.

Assessment tasks

- Article Review
- Research Proposal
- Research Project

Commitment to Continuous Learning

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

Learning outcomes

- Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.
- Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

Learning outcomes

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.
- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.

Assessment tasks

- Article Review
- Research Proposal
- Research Presentation
- Research Project

Critical, Analytical and Integrative Thinking

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

Learning outcomes

- Recognise the historical legacies of research and subsequent effects on research practices with Indigenous peoples today.
- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.

Assessment tasks

- Article Review
- Research Proposal
- Research Presentation
- Research Project

Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

Learning outcomes

- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.

Assessment tasks

- Research Presentation
- Research Project

Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

Learning outcomes

- Explain the principles of a range of Indigenous Research Methodologies appropriate for application in research with Indigenous peoples
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.
- Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Assessment tasks

- Research Proposal
- Research Presentation
- Research Project

Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

Learning outcomes

- Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.
- Apply appropriate Indigenous Studies theoretical frameworks to resolve a range of ethical problems in Indigenous research.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.
- Interpret and communicate the principles of current Australian Institute of Aboriginal and Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.

Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

Learning outcomes

- Justify your role as an Indigenous or non-Indigenous researcher or practitioner undertaking research or work with Indigenous communities.
- Critically reflect on current issues in Indigenous affairs and develop a proposal for small research project to address the problem.
- Interpret and communicate the principles of current Australian Institute of Aboriginal and

Torres Strait Islander Studies guidelines to Indigenous community and professional audiences.
