Unit description

EDTE410 is a three-credit point, one-semester unit of study. It is designed for pre-service teachers in the Social Sciences especially those wishing to have Society and Culture or Legal Studies as a second teaching subject. It provides an overview of recent syllabus developments and various approaches to teaching. The assessment for this unit is contextualised within the relevant content area. The unit is closely related to TEP401 and TEP402 and where possible students are expected to complete the equivalent of a ten-day practicum in one of the above subject areas concurrently with this unit. At the conclusion of the unit students are expected to show considerable expertise in the development and teaching of content and skills selected from the relevant syllabus documents.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

## Graduate Capabilities

### Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

### Learning outcome

- 7. Design tasks that are engaging whilst enabling the collection of data regarding student progress towards syllabus outcomes

### Assessment task

- Planning for an excursion

### Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to

handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

## **Learning outcomes**

- 1. demonstrate a working knowledge and understanding of the central concepts, skills and modes of inquiry in the discipline.
- 4. Select and organise subject content and resources in ways which address student learning outcomes
- 5. Plan lessons and lesson sequences that align outcomes, student activities, assessment and feedback/reporting
- 6. Maintain detailed and organised records of student progress against outcomes and provide relevant and timely feedback to improve student learning

## **Assessment tasks**

- Lesson planning
- Task 2: Evaluation of Resource
- Planning for an excursion

## **Commitment to Continuous Learning**

Our graduates will have enquiring minds and a literate curiosity which will lead them to pursue knowledge for its own sake. They will continue to pursue learning in their careers and as they participate in the world. They will be capable of reflecting on their experiences and relationships with others and the environment, learning from them, and growing - personally, professionally and socially.

This graduate capability is supported by:

## **Learning outcomes**

- 6. Maintain detailed and organised records of student progress against outcomes and provide relevant and timely feedback to improve student learning
- 7. Design tasks that are engaging whilst enabling the collection of data regarding student progress towards syllabus outcomes

## **Assessment task**

- Planning for an excursion

## **Discipline Specific Knowledge and Skills**

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where

relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

## **Learning outcomes**

- 1. demonstrate a working knowledge and understanding of the central concepts, skills and modes of inquiry in the discipline.
- 2. Select and evaluate of a range of resources, including ICT, that engage students in their learning.
- 4. Select and organise subject content and resources in ways which address student learning outcomes
- 5. Plan lessons and lesson sequences that align outcomes, student activities, assessment and feedback/reporting
- 7. Design tasks that are engaging whilst enabling the collection of data regarding student progress towards syllabus outcomes

## **Assessment tasks**

- Lesson planning
- Task 2: Evaluation of Resource
- Planning for an excursion

## **Critical, Analytical and Integrative Thinking**

We want our graduates to be capable of reasoning, questioning and analysing, and to integrate and synthesise learning and knowledge from a range of sources and environments; to be able to critique constraints, assumptions and limitations; to be able to think independently and systemically in relation to scholarly activity, in the workplace, and in the world. We want them to have a level of scientific and information technology literacy.

This graduate capability is supported by:

## **Learning outcomes**

- 2. Select and evaluate of a range of resources, including ICT, that engage students in their learning.
- 3. Demonstrate a deep understanding of the literature and theory of learning and teaching underpinning effective pedagogy in this discipline

## **Assessment tasks**

- Lesson planning

- Task 2: Evaluation of Resource
- Planning for an excursion

## Problem Solving and Research Capability

Our graduates should be capable of researching; of analysing, and interpreting and assessing data and information in various forms; of drawing connections across fields of knowledge; and they should be able to relate their knowledge to complex situations at work or in the world, in order to diagnose and solve problems. We want them to have the confidence to take the initiative in doing so, within an awareness of their own limitations.

This graduate capability is supported by:

### Learning outcomes

- 2. Select and evaluate of a range of resources, including ICT, that engage students in their learning.
- 3. Demonstrate a deep understanding of the literature and theory of learning and teaching underpinning effective pedagogy in this discipline

### Assessment tasks

- Lesson planning
- Task 2: Evaluation of Resource
- Planning for an excursion

## Effective Communication

We want to develop in our students the ability to communicate and convey their views in forms effective with different audiences. We want our graduates to take with them the capability to read, listen, question, gather and evaluate information resources in a variety of formats, assess, write clearly, speak effectively, and to use visual communication and communication technologies as appropriate.

This graduate capability is supported by:

### Learning outcomes

- 1. demonstrate a working knowledge and understanding of the central concepts, skills and modes of inquiry in the discipline.
- 4. Select and organise subject content and resources in ways which address student learning outcomes
- 6. Maintain detailed and organised records of student progress against outcomes and provide relevant and timely feedback to improve student learning

### Assessment tasks

- Lesson planning

- Task 2: Evaluation of Resource
- Planning for an excursion

## Engaged and Ethical Local and Global citizens

As local citizens our graduates will be aware of indigenous perspectives and of the nation's historical context. They will be engaged with the challenges of contemporary society and with knowledge and ideas. We want our graduates to have respect for diversity, to be open-minded, sensitive to others and inclusive, and to be open to other cultures and perspectives: they should have a level of cultural literacy. Our graduates should be aware of disadvantage and social justice, and be willing to participate to help create a wiser and better society.

This graduate capability is supported by:

### Learning outcome

- 7. Design tasks that are engaging whilst enabling the collection of data regarding student progress towards syllabus outcomes

### Assessment task

- Planning for an excursion

## Socially and Environmentally Active and Responsible

We want our graduates to be aware of and have respect for self and others; to be able to work with others as a leader and a team player; to have a sense of connectedness with others and country; and to have a sense of mutual obligation. Our graduates should be informed and active participants in moving society towards sustainability.

This graduate capability is supported by:

### Learning outcome

- 1. demonstrate a working knowledge and understanding of the central concepts, skills and modes of inquiry in the discipline.

### Assessment tasks

- Task 2: Evaluation of Resource
