Unit description
In this leading-edge unit we examine and use social media and explore how language and social practices are changing in the contemporary computer-driven world. Issues surrounding online identity will be explored as well as the challenges of linguistic change for education and business practices. Some issues that we discuss are how women and men communicate online, and how online language may vary according to age, ethnicity or context. The unit explores the collaborative processes involved in contemporary education and media. Some issues that we will consider are: Do we know who we are ‘talking to’ these days? What are the ethical issues involved in using new media: what can you say or do in a text message? Are young people losing the ability to talk face-to-face? You can apply your knowledge of other units in linguistics in this unit, but no previous knowledge of linguistics is necessary or expected. The unit will connect with other areas of your University study and your life experience. You will find that the unit is relevant to business and marketing, to media and communications, to education and psychology, as well as to linguistics.

General Assessment Information
Assessment submission
Assessments are submitted to Turnitin. Instructions for submitting assessments via Turnitin are available here: http://www.mq.edu.au/iLearn/student_info/assignments.htm

Late Assessment Submission
All assessments must be submitted before the cut-off times. Assessments submitted after these times are likely to incur a late submission penalty of 5% per day they are late. Please note that assessments submitted after the return of marked materials will not be marked.
Please keep a copy of your assessments in case of misadventure.

**Access to Marked Assignments**
Marked assessments will, in general, be available to students within 2 to 3 weeks of submission. All marked assessments can be accessed via iLearn.

**Extensions**
Extensions are granted only on grounds of serious and unavoidable disruption, and appropriate supporting documentation must be submitted. Requests for an extension can be made by submitting a *Notification of Disruption to Studies* via AskMQ [http://ask.mq.edu.au/](http://ask.mq.edu.au/) Note that your Notification should be submitted within five (5) working days of the disruption beginning.

For more information about Notification of Disruption to Studies, the university Disruption to Studies Policy can be found here: [http://mq.edu.au/policy/docs/disruption_studies/policy.html](http://mq.edu.au/policy/docs/disruption_studies/policy.html)

When submitting a Notification of Disruption to Studies, you must ensure that you provide appropriate documentation. For more information, please see the Disruption to Studies Supporting Evidence Schedule: [http://www.mq.edu.au/policy/docs/disruption_studies/schedule_evidence.html](http://www.mq.edu.au/policy/docs/disruption_studies/schedule_evidence.html)

Please note that submitting a notification of Disruption to Studies does not guarantee an extension, and you should consider carefully before making a notification. As a university student, you are expected to plan your time so that all assessments can be submitted in a timely manner. A Notification of Disruption to Studies is for serious and unavoidable disruption, not for poor time management.

Requests for an extension made within one week of the due date, or after the due date will only be granted if warranted by the circumstances and supported by appropriate documentation (see the Disruption to Studies Supporting Evidence Schedule link above).

Assessments submitted after the deadline, regardless of the reason, will be marked and returned at a date determined by the unit convener. Note also that extensions cannot continue beyond the start of the following semester, and students should be aware that long extensions may impact graduation dates.

**Late Submissions Policy**
Late submissions will attract a penalty of **5% per day for each day it is late** after the due date. This includes Saturdays and Sundays. Assessments submitted after the return of marked materials will not be marked.

All information on assessment including the marking criteria will be available via iLearn.

**University Policy on Grading**
Academic Senate has a set of guidelines for the achievement of grades across the range from fail to high distinction. Your final result will include one of these grades plus a standardised numerical grade (SNG).

**Changes from Previous Offering**

The 2017 assessment schedule sees the 2016 assessments- a quiz, a research report, and a tutorial presentation activity requiring students to create a set of Computer Mediated Communication (CMC) texts (tweet, email, blog, and meme) and then present an analysis of this set to the class as an individual presentation- replaced with an Annotated Bibliography, an Information Report, and a Reflective Blog post.
