Unit description

This fifth unit in the primary curriculum methodology series focuses on the key learning areas of Science & Technology and Human Society & Its Environment including History, Geography and Civics and Citizenship. It builds on previous units, emphasising the development of quality teaching through reflective practice, based on the critical study of pedagogical models and the findings of recent research. Students have the opportunity to draw on their professional experiences (with links to EDTE403), and knowledge of current thinking in curriculum and pedagogy, to plan, implement and critically evaluate a range of teaching and learning experiences.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

UO1 demonstrate a well-developed knowledge of the relevant syllabuses for Geography, History and Science & Technology

UO2 describe and critically reflect on effective pedagogical approaches for effective teaching in the learning areas of Geography, History, and Science & Technology.

UO3 design a unit of work that extends over one school term and integrates Science & Technology with History and/or Geography.

UO4 apply knowledge of duty of care and classroom management strategies to planned classroom practice

## Graduate Capabilities

### Creative and Innovative

Our graduates will also be capable of creative thinking and of creating knowledge. They will be imaginative and open to experience and capable of innovation at work and in the community. We want them to be engaged in applying their critical, creative thinking.

This graduate capability is supported by:

#### Learning outcome

- UO3 design a unit of work that extends over one school term and integrates Science & Technology with History and/or Geography.

#### Assessment task

- AT2

### Capable of Professional and Personal Judgement and Initiative

We want our graduates to have emotional intelligence and sound interpersonal skills and to demonstrate discernment and common sense in their professional and personal judgement. They will exercise initiative as needed. They will be capable of risk assessment, and be able to handle ambiguity and complexity, enabling them to be adaptable in diverse and changing environments.

This graduate capability is supported by:

#### Learning outcomes

- UO1 demonstrate a well-developed knowledge of the relevant syllabuses for Geography, History and Science & Technology
- UO3 design a unit of work that extends over one school term and integrates Science & Technology with History and/or Geography.

#### Assessment task

- AT2

### Discipline Specific Knowledge and Skills

Our graduates will take with them the intellectual development, depth and breadth of knowledge, scholarly understanding, and specific subject content in their chosen fields to make them competent and confident in their subject or profession. They will be able to demonstrate, where relevant, professional technical competence and meet professional standards. They will be able to articulate the structure of knowledge of their discipline, be able to adapt discipline-specific knowledge to novel situations, and be able to contribute from their discipline to inter-disciplinary solutions to problems.

This graduate capability is supported by:

## **Learning outcomes**

- UO1 demonstrate a well-developed knowledge of the relevant syllabuses for Geography, History and Science & Technology
- UO2 describe and critically reflect on effective pedagogical approaches for effective teaching in the learning areas of Geography, History, and Science & Technology.
