Unit description

This unit examines early childhood settings through organisational evaluation and planning. A number of important concepts and debates raised in earlier units are considered in greater depth. The main focus of this unit is an examination and evaluation of theory and practice as it relates to the leadership responsibilities of early childhood educators in early childhood services and school contexts. This unit provides an orientation to high order management and leadership skills including strategic planning, negotiation and change management, advocacy, quality assurance and ethical practice, as well as marketing and business planning.

Understanding the crucial role of effective communication as managers and leaders is central to this unit.

## General Assessment Information

### Department of Educational Studies (EC) Assessment Presentation & Submission Guidelines

Please follow these guidelines when you submit each assignment:

- \* Allow a left and right-hand margin of at least 2cm in all assignments.
- \* Please type all assignments using 12-point font and 1.5 spacing.
- \* All assessments must be submitted through Turnitin in .doc or .pdf format for submission.
- \* It is the onus of the student to ensure that all assessments are successfully submitted through Turnitin.
- \* Faculty assignment cover sheets are NOT required for this unit.

### Draft Submissions & Turnitin Originality Reports

- \* Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- \* Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- \* The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- \* Generally, one Originality Report is generated every 24 hours up to the due date.

**When preparing your assignments, it is essential that:**

- \* Students must retain a copy of all assignments before submission, and retain the copy until your final grade for the subject has been received;
- \* Marks will be deducted if you submit your assessment late (refer to the 'late assessments' section below for more details);
- \* Unless there are exceptional circumstances, no assessment will be accepted after the date that the assessment has been returned to other students.
- \* If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

**Final Submissions**

- \* Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.
- \* Late submissions due to last minute technical difficulties will incur a lateness penalty.\*

**Assignment extensions and late penalties**

Applications for extensions must be made via AskMQ at <https://ask.mq.edu.au> as a "Disruption to Studies" request before the submission date. Students who experience a disruption to their studies through ill-health or misadventure are able to apply for this request. Extensions can only be granted if they meet the Disruption to Studies policy and are submitted via [ask.mq.edu.au](https://ask.mq.edu.au). This will ensure consistency in the consideration of such requests is maintained.

In general, there should be no need for extensions except through illness or misadventure that would be categorised as unavoidable disruption according to the University definition of same, and currently available at: [http://students.mq.edu.au/student\\_admin/exams/disruption\\_to\\_studies/](http://students.mq.edu.au/student_admin/exams/disruption_to_studies/)

Late submissions without extension will receive a penalty of 5% reduction of the total possible mark for each day late (including weekends and public holidays). You are reminded that

submitting even just 1 day late could be the difference between passing and failing a unit. Late penalties are applied by unit convenors or their delegates after tasks are assessed.

No assessable work will be accepted after the return/release of marked work on the same topic. If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.

Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

\* Please notify the unit coordinator of your intention to request an extension (via Dialogue in iLearn), however, an extension will only be granted on receipt of the completed form submitted through ask.mq.edu.au, plus documentation.

\* Emails are not appropriate means of extension requests.

\* It is essential that you plan ahead and organise your study time effectively. Poor time management is not grounds for an extension

### Department of Educational Studies (EC) Academic Honesty Guidelines:

All assignments should cite and provide full bibliographical details of all material that you have used to inform or support your ideas. Early Childhood students are required to use the American Psychological Association (APA) referencing procedures. Full details about how to cite and reference correctly can be found in Perrin (2015) and in the Academic Honesty Handbook available on iLearn.

The following guide can be purchased from the Co-op Bookshop. This is a required text: \*

**Allocation of student time to this unit:**

At Macquarie University, it is assumed that each credit point should involve approximately 3 hours study per week.

ECH435 is a 3 credit point unit. It is therefore expected that students dedicate approximately 9 hours per week to the coursework component of this unit. This includes independent study and time spent at tutorials / on-campus sessions and attending or listening to lectures.

The following provides an overview of how the total number of hours for the coursework component of this unit has been estimated to fit with your workload for the semester. The workload for this unit has been based on an allocation of hours: 9 hours per week x 13 number of weeks in the semester, plus independent study during the 2 week mid-semester break, which equals 135 hours.
